

HOSPITAL STEWARD SUDDENLY GONE

FRIENDS FEAR FOR SAFETY OF H. E. JOHNSON OF VANCOUVER—MRS. MARSHALL NARROWLY ESCAPES DEATH IN CLIMBING MOUNT HOOD.

(Special Dispatch to The Journal.) Vancouver, Wash., Aug. 6.—County School Superintendent Prichard is in receipt of a circular pertaining to eighth grade examinations to be held during the year. By this circular he is notified that three examinations will be held as follows: Thursday, September 1, 1904; the third Thursday in January, 1905, and the third Thursday in May, 1905. It is also directed that the pupils are expected to show to the county superintendent that they have completed the subject in writing the first examination. To this end the superintendent will require from the teachers of the county a statement of the pupils' work in all subjects covered by the eighth grade examinations; and, in addition to this, he will make other careful investigation of the pupils' progress in these studies.

Steward Johnson Missing. H. E. Johnson, hospital steward at Vancouver hospital, has been missing for five or six days now, and his friends in Vancouver are becoming somewhat concerned about his absence. Steward Johnson had just returned from a leave of absence, and had been absent from attending to his duties in the post he left and has since been absent without leave. The last that was seen of him was on the streets of Vancouver. His secretary of the Columbia Aerie, F. O. E., at Vancouver. The lodge meets on every Thursday night, and at its last meeting Steward Johnson failed to attend. In an effort to find the lodge books it was ascertained that Johnson had been then absent without leave for four days. The books were found, however, in the possession of one of the members of the lodge, where he had left them several days before. He is known to have had a large sum of the lodge's money in his possession, he having been collecting dues from different members, and it is feared by many that he has met with foul play.

Mountain Climbers Home. C. J. Moss, wife and party of friends, consisting of Carl Maulest, Carl and Robert Quarnberg, and E. Norelius, returned yesterday from their camping trip on Mount Hood. The Vancouver party was joined by a party of friends from Portland. The entire party traveled the distance both ways on bicycles. During the time they were camping the entire party climbed to the top of Mount Hood, and signaled to Government Camp and Portland with little Pocket mirrors.

Mr. Moss declares the party had a most enjoyable time and, with one exception, the ascent and descent of Mount Hood was made with little difficulty. The only incident that marred the pleasure of the crowd was the narrow escape of Mrs. Marshall, a member of the party. While descending the mountain Mrs. Marshall slipped and came near being lost in one of the deep mountain crevasses. Through the dexterity and cool-headedness of the guide and the fact that she saved in the nick of time from a tremendous fall and sure death.

The party, it is stated, on arriving at the crest of the mountain, had the pleasure of meeting another party that had scaled the peaks from the other side of the mountain—a thing the guide stated had happened for the first time in his 15 years' experience in that business.

After a thorough tour through Mammoth cave the party returned to camp, where they spent a few days hunting and fishing before returning home.

FARMERS TO MEET TO PLAN EXHIBIT

COUNTY COURT OF CLATSOP COUNTY SETS ASIDE OCTOBER 6 FOR A GATHERING TO ARRANGE DISPLAY AT THE 1905 FAIR—OREGON CITY NOTES.

(Special Dispatch to The Journal.) Oregon City, Aug. 6.—The county court at its regular session declared that the best way to prepare for the county exhibit for the Lewis and Clark fair would be to have a convention of farmers met on Oregon City and take the matter up for themselves, as they are the ones most interested. Accordingly October 6 is the day set for this work, and as this is the next meeting of the county court, the convention can act with that body. Delegates will be appointed by the farmers in each precinct to attend the meeting. The court advises that the farmers begin to prepare for the exhibit by saving out material, so that there will be a good supply next year to make a good choice from.

The August term of the county court closed yesterday. The resignation of Chris Moehke as justice of the peace for district No. 9 was accepted and H. W. Shaw was appointed to fill his place for the remainder of the term. A. E. GIRL WAS DRESSED IN BOYS' CLOTHES

FOURTEEN-YEAR-OLD DAUGHTER OF PROMINENT BENTON COUNTY FAMILY ARRESTED BY ALBANY POLICE—READILY RETURNS HOME WITH PARENTS.

(Special Dispatch to The Journal.) Albany, Or., Aug. 6.—Marietta Lewis, a girl aged 14 years, was yesterday afternoon taken in custody by the local police at the request of the Corvallis authorities, and held until the police from Corvallis came after her. The girl was dressed in boy's clothing, and with her hair cut short, made handsome lad. She left her home owing to fancied ill-treatment on the part of her parents, saying that her parents were "brank," and she did not wish to be restrained by them. The girl has always borne a good reputation and there is nothing against her record. When taken in custody she suddenly realized her position, and when her father and Chief of Police M. Lane came after her, she returned readily and gladly to her home, promising she would never again leave. It was at that thought that some one had helped the girl to escape and had forced her to do so, that she turned out that the girl had cut her hair and had dressed in a suit belonging to her brother. She comes from a good family. Her grandfather was one of the richest men in Benton county in pioneer days, and through her father, a rich man, the family stands high in the Benton county capital and the girl's escape, which fortunately turned out very well, it is thought, will have a good effect on her and the war in future be much better satisfied at home.

Blue River Mines. The county court last evening decided to build the road to the Blue river mines and appropriated \$2,500 for this purpose. Commissioner Russell opposed the proposition, and stated that he was not satisfied that it would be of any service, holding that the value of the mines had not yet been sufficiently established to warrant the county in expending large sums in road building in that section. The court also provided for a complete system of water works at the poor farm, where baths will be put in and ample fire protection provided. The water will be pumped from a water engine will be installed for this purpose or a windmill erected.

The court has decided to at once begin the needed repairs to the piers of the Sanderson wharf, which yesterday the steel piers stand on piling, and the action of the water has exposed the piles so that the piers are in danger. It is proposed to put in brush mattresses and protect the piling in that way from the water.

Wandering Son Dead. Mr. and Mrs. J. Greenhugh, an aged couple of this city, yesterday received the news of the death of their son in Spokane, and they left last night for that place. The couple formerly lived at Halsey, where several married daughters now reside. Later they moved to this city.

Their son left home some six or seven years ago, and for the last five years no word was received from the wanderer, though the aged parents often spoke of him and eagerly awaited for some sign of life from him. They had hoped for his early return, and where a warm welcome awaited him, and the news of his death was therefore a shock to the aged parents. The body will be embalmed and brought to Halsey, where it will be buried next Monday or Tuesday.

THERE WAS NO EXPLOSION OF GASOLINE
At my automobile salesroom and machine shop Saturday evening, there was no automobile connected with the accident that occurred. Not 5 cents' worth of property was destroyed, and nothing was damaged in any wise in the calamity that cost my brother his life, and the accounts published concerning that disaster, in which it was stated that an explosion had taken place, were false from first to last and from beginning to end. My brother was testing an auto-lighter on a small-pressure tank in the machine shop. This tank is in no way connected with an automobile, but is specially arranged for the purpose for which it was being used, and contained perhaps two quarts of gasoline under about 20 pounds air pressure. My brother evidently intended to remove a regulating valve beyond the cutoff, which could have been done safely under any circumstances; but instead, for some unaccountable reason, removed the cutoff valve under pressure. This caused the gasoline to flow out, saturating his clothing, as he worked in a stooping position over the tank directly in line with the flow of gasoline. He undertook to stop the flow by putting his hand over the opening. This caused a spark, causing the fire. He repeatedly said after the accident that he thought the fire was all extinguished. Two men were standing within arm's reach of him at the time, and endeavored to grasp him as he sprang to his feet and ran through the machine shop into the garage, where they overtook him and smothered the flames with blankets. The fire in the machine shop was then extinguished without damage. The sensational and harrowing report that he was blown 40 feet, that an automobile was blown into a mass of twisted iron and wood, and the building wrecked, were fabrications of a vicious mind, and had nothing to do with the fact. My brother was able to assist in disarming himself, and was perfectly rational for about an hour, when he became unconscious and died from the effects of the burns he had received. This statement is made to allay the fears, falsely created, of automobile-owners, who may be laboring under the impression that their machines are liable to explosion, and in justice to a sincere public who prefer truth to falsehood. DRIFTING TOWARDS BRIGHT'S DISEASE
Many people who are neglecting symptoms of kidney trouble, hoping "it will wear away," are drifting towards Bright's Disease, which is kidney trouble in one of its worst forms. FOLEY'S KIDNEY CURE stops irregularities, strengthens the urinary organs and builds up the worn-out tissues of the kidneys so they will perform their functions properly. Healthy kidneys strain out the impurities from the blood as it passes through them. Diseased kidneys do not, and the poisonous waste matter is carried by the circulation to every part of the body, causing dizziness, backache, stomach trouble, sluggish liver, irregular heart action, etc. If you have any signs of Kidney or Bladder Trouble commence taking FOLEY'S KIDNEY CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system. How to Find Out. You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky, or has a brick-dust sediment or small particles float about in it, your kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once. G. B. Burhans Testifies After Four Years. G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of FOLEY'S Kidney Cure. It entirely stopped the brick-dust sediment and all symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed, and I am evidently cured to stay cured, and heartily recommend FOLEY'S Kidney Cure to any one suffering from kidney or bladder trouble." Two Sizes, 50 Cents and \$1.00. SOLD AND RECOMMENDED BY WOODARD, CLARKE & CO. AND LAUE-DAVIS DRUG CO.

WAGES WILL AVERAGE FORTY-FIVE CENTS AND SEASON WILL BEGIN ABOUT SEPTEMBER 1—MUCH LAND OFFER TO SETTLEMENT IS DISCOVERED.

(Special Dispatch to The Journal.) Salem, Or., Aug. 6.—With the warm weather of the past week continuing, hop-picking time is rapidly approaching and growers are beginning to scour the cities and country for pickers. The fact that harvest will not be as long as usual and the pruned crop is almost a total failure in places will in a certain measure relieve the situation in the hopyards. The price to be paid will be about the same as last year, which ranged from 40 cents in a few instances to as high as 60 cents in poor yards, the average price being 45 cents.

Miss Palment was sent to St. Louis to get her out of harm's way, and her father caused Erwert's arrest. Erwert came from South Dakota. He does not deny the charge.

(Special Dispatch to The Journal.) Seattle, Wash., Aug. 6.—Lewis W. Hill, vice-president of the Great Northern, and son of President James J. Hill of that road, says the Great Northern will not continue extensions of the line or invest any more money than necessary on improvements as long as the fight with Harriman is still in an unsettled condition. He intimated that the credit of the road in the money centers is seriously impaired by the litigation and quarrel of contending interests. It had been intended to invest several million dollars in betterments of various sorts and tracks into new territory, but all these things must wait.
