

HEALTH BOARDS DIVIDE THE WORK

CITY AND COUNTY ORGANIZATIONS HAVE A MEETING AND PAPER OF THEIR DIFFERENCES, DECIDING ON WHAT CASES EACH SHALL HEREAFTER GIVE ATTENTION.

At last the city and the county health boards have consented to take up their residence under the same official roof, to speak and the dove, emblematic of peace, has perched itself on the gable. At a conference held yesterday at noon in the office of Dudley Evans, the county health officer, at the court house, an understanding was reached on the many points which have been the source of friction between the two health bodies and have led to complications involving other officials.

Dr. J. C. Zan, the city physician, and Dr. William Jones were present as a committee from the city board, while County Judge Webster, County Physician Geary and County Health Officer Evans represented the county board. The conference lasted for about two hours, and a perfect agreement was reached on all points. Hereafter co-operation will be the watchword of the two organizations guarding the health of the public.

It was decided that the city physician shall attend to all police cases at the city prison and all emergency cases, giving relief to the injured and then sending them to the nearest hospital. The county board has agreed to relieve the city board of all cases likely to remain at a hospital for any length of time. The diagnosis of the city physician shall determine what are properly county cases, to be sent to the county hospital. This will save the police and others the trouble of chasing the city over and losing valuable time when in doubt as to whom to apply to grant a sufferer relief.

Hitherto the county physician has been at the beck and call of every physician in the city, and in a great number of instances he has been summoned to cases not properly coming under his observation. In the future all county cases are to go through the county board of relief, of which Mr. Evans is superintendent. In return the city board will relieve the county of any cases of smallpox that may develop at the county hospital and take them to the city pest-house, as well as other cases of smallpox developing in the county that may require special attention. Ordinarily the latter class of cases has been quarantined in homes and looked after by the county health officer and county physician.

There are a great many office cases which should not properly go to the county hospital and yet cannot be classified under the head of emergency cases. Dr. Geary and Dr. Zan have agreed to divide these cases in future, handling them at their respective offices. All such cases will be examined by Mr. Evans, who will endeavor to divide them equitably between the two physicians. In other instances patients will be sent to the free clinics at the various hospitals, where they will receive proper treatment and the students the benefit of the experience.

The arbitration board met yesterday because Dr. Geary and Dr. Zan are now without assistants—in order to equalize the work and to get as light a possible for both. Besides the county hospital cases and those attended to at his office regularly, Dr. Geary had 25 new patients added to the list in July. Dr. Zan's work was also largely increased.

Recently Discovered Cave.
A new cavern, rivaling in beauty the one at Luray, and Wier's cave and the cave of Fountains, at Shenandoah, Va., has been discovered in Shenandoah county, Va., near Woodstock. The discovery was made by workmen who were blasting limestone from a quarry at Tom Brook. The cavern has only been explored for about 175 feet, but the portion that has been visited is filled with the most beautiful limestone formations and contains large chambers.

ABOUT Perfect Fitting Glasses We Would Say

WHEN patrons leave our store glasses must fit and set right. Contrary to this they would be a source of great trouble and annoyance and that would hardly do to satisfy. Consequently, we are particular about our optical work and it will be well for you to

CONSULT OUR OPTICIAN IF NEED BE.

MARK OF GIRLS IS MADE HAPPY

TULL AND GIBBS ENTERTAIN 2,000 CHILDREN WHO ANSWERED THE GUNNING CONTEST—RECORD TROLLEY PARTY IN THE NORTHWEST.

Dressed in their best "bib and tucker," tooting little tin horns with a vim and dancing to the strains of a band, 2,000 little Portland girls were treated to a trolley ride yesterday afternoon by Tull & Gibbs, local furniture dealers. It was the largest trolley party ever given in the northwest, and passed as smoothly as a quiet afternoon tea.

The little girls were girls who had taken part in a gunning contest held by the above named firm. Throughout last month Tull & Gibbs ran an advertisement in local papers in which there were 30 puzzle pictures, each one representing some article of furniture. The contest was open to all girls under 14 years of age, and the answers to the puzzles were to be accompanied by five reasons why their mothers should use the Buck steel range.

August 1st the letters began to pour in. The man at the postoffice who handles the box where city mail is deposited started in bravely. But it was too much. Aid was called, and the contents of several postoffice boxes were needed to keep the Tull & Gibbs mail up to the mark. The postman who delivered mail to this firm thought something of going on a strike, but was talked into staying until the girls had their trolley ride last five days. Yesterday the last letter arrived.

As a trolley party had been promised the girls who took part in the contest, the children began to arrive at the store about noon. They had been invited to be there by 1:30, but long before this hour hundreds of little girls, accompanied by their mothers and aunts, were present.

Mayor George H. Williams had given the members of the firm permission to rope off Second street between Morrison and Yamhill. This was done as soon as the girls began to gather. The girls were taken inside the enclosure, placed in double file and awaited their turn to enter the store.

The children were taken into the store at the door, each little girl was presented with a bag of candy, a horn and a handsome silk badge. After they had pinned the badges on their frocks, candy, the horn and the badge, the girls were shown through the store. And then came the ride.

Each car, and there were 30 of them, was brought up in front of the store's Morrison street entrance. The 2,000 girls were put on board the cars and sent away on their trolley party in the remarkable short time of 35 minutes.

Not an accident of any sort marred the pleasures of the afternoon, and every girl who enjoyed the ride said that she had had the happiest afternoon in her life. All along the route, men and women flocked to the sidewalks and windows to find out what all the laughing and tooting was about. The girls were put on board the cars and sent away on their trolley party in the remarkable short time of 35 minutes.

MRS. HOUSTON IS QUEEN OF REGATTA
(Special Dispatch to The Journal.)
C. L. Houston was tonight elected queen of the tenth annual Astoria regatta. The vote for the leading candidates stood: Mrs. Houston, 19,847; Miss H. Tallant, 19,848; Mrs. F. D. Keutner, 19,804; Mrs. W. W. Ridehalgh, 4,816. The successful candidate is one of Astoria's most popular women. She will be known as Queen Nell.

THREE HURT IN CAR ACCIDENT

BROOKLYN CAR JUMPS THE TRACK BECAUSE OF A BROKEN AXLE AND WOMEN PASSENGERS ARE BRUISED BY SHOCK AND ONE MUST SERIOUSLY.

Miss Jessie Blank, 21 years of age, and residing at 634 Tibbet street, was badly hurt, in a street car accident which occurred at about 5 o'clock yesterday afternoon on the City & Suburban line. She was thrown against the car. Her back and shoulders were injured, but it is said that she will recover. Two other women passengers were considerably bruised, but their names could not be secured.

Car No. 80 on the Brooklyn line jumped the track just west of Union avenue on Morrison street because of a broken axle. Before it could be brought to a stop the front platform rested on the sidewalk. Several of the passengers were dashed against the sides of the car, but all escaped injury excepting the three named. They were conveyed to their homes with as little delay as possible.

Miss Blank is a school teacher. Until recently she was teaching at Woodburn. Shortly after the accident a wild rumor quickly spread over the city that a car had jumped the track on the Morrison street bridge and plunged into the Willamette river. As if by magic the report spread until the entire city and even the suburbs were in a state of commotion. The Journal office was besieged for information regarding the supposedly terrible catastrophe.

HOUSE WRECKED BY THE "BLACK HAND"
(Special Dispatch by Leased Wire to The Journal)
Passaic, N. J., Aug. 6.—Angered because he disregarded the warnings of the Black Hand society, which is operating in this city, New York and Brooklyn, to leave the city, dynamite placed a bomb in the doorway of Frank Costello's barber shop today and wrecked the four-story double-front house in Sherman street and Main avenue, in which his shop was located.

The entire front of the first floor of the building was blown away and the walls fell. That no one was injured is regarded as a miracle. The explosion was heard for miles and aroused the entire city, thousands running to the scene of the wreck. The entire city is indignant over this act on the part of the Black Hand society. The police have a clue and expect to make arrests within a few hours.

WHALEN PITCHES SHUT-OUT GAME
(Special Dispatch by Leased Wire to The Journal)
San Francisco, Aug. 6.—Jimmy Whalen was the whole show today. He shut the Oaklanders out, making four straight victories for the Seals and made three singles with his stick, aiding in the run making. Score:

FLYING TORPEDO IS BARRED AT ST. LOUIS
(Special Dispatch by Leased Wire to The Journal)
St. Louis, Aug. 6.—Hillee has been beaten. The Elliott horse has been sent to the post so often and returned a winner that the racetrack followers did not believe there was a horse at the track that could take his measure. But the horse was beaten. The Orient, the Hayes entry, turned up the winner in the Mississippi Valley stakes, and he won it handsomely. Hillee was in the hunt. Davis gave the winner a good ride. Anything but a good ride would have landed Hillee in the lead. Hillee came strong at the wire, but the lead of Orient was too great to overcome.

CONTRACTORS WILL TEST 8-HOUR LAW
(Special Dispatch to The Journal.)
Seattle, Aug. 6.—Contractors who have contracts with the city for street improvements have combined and intend to test the legality of the state law and city ordinance forbidding persons holding city contracts from working laborers more than eight hours a day.

WIRELESS TO HAWAII FROM FARALLONES
(Special Dispatch by Leased Wire to The Journal)
Washington, Aug. 6.—The navy department is making arrangements to send wireless messages 2,100 miles. The navy bureau of equipment will establish and equip a wireless station at Farallone islands, off San Francisco, where the weather bureau has been maintaining a station. It is proposed to equip the naval station with the best apparatus.

WOODARD, CLARKE & CO. FOURTH AND WASHINGTON STREETS. Canadian Money Taken at Full Value

SENATOR TOWNE ENTHUSES LEADERS

Democratic leaders say today that these states are Democratic, although nominally Republican. Senator Towne was in the city today for a short while, but in that time he enthused the congressional committee on the certainty of the Democrats carrying Indiana. Among other things Mr. Towne said:

FATHER DONLAN, PASTOR OF ST. MARY'S CATHOLIC CHURCH, APPEALS TO HIS POLICE FOR PROTECTION FOR HIS EXCURSION TO LAKE ARIEL.
(Special Dispatch by Leased Wire to The Journal)
Scranton, Pa., Aug. 6.—Because of a train to blow up his church excursion plan with dynamite, Father Donlan, pastor of St. Mary's Catholic church, Dunmore, today appealed to Superintendent Rose of the Erie police for protection before his congregation will patronize the road. The excursion was to Lake Ariel, 20 miles from here.

FAIR FIGHTING CHANCE.
"I shall work for the ticket and talk for it and I think Mr. Bryan will be very active in the campaign in behalf of the ticket. Our chances in Indiana and New York are excellent and when we carry those two states, it is mighty likely that some others will be found in the procession."

HANDS ACROSS SEA MAY TURN TO FISTS
(Special Dispatch to The Journal.)
Seattle, Aug. 6.—The peaceful relations of Great Britain and the United States are in a fair way to be disturbed. Hands across the sea are liable now to be doubled into fists that will be searching for an opening to land an effective blow, all because a subject of King Edward from far Australia claims that he was snubbed, rebuffed and cast aside by a deputy in the office of the prosecuting attorney of King county, where he went this morning with his burden and tale of woe.

WIRELESS TO HAWAII FROM FARALLONES
(Special Dispatch by Leased Wire to The Journal)
Washington, Aug. 6.—The navy department is making arrangements to send wireless messages 2,100 miles. The navy bureau of equipment will establish and equip a wireless station at Farallone islands, off San Francisco, where the weather bureau has been maintaining a station. It is proposed to equip the naval station with the best apparatus.

PRIEST REVEALS DYNAMITE PLOT

FATHER DONLAN, PASTOR OF ST. MARY'S CATHOLIC CHURCH, APPEALS TO HIS POLICE FOR PROTECTION FOR HIS EXCURSION TO LAKE ARIEL.

Father Donlan learned of the plot several days ago, but disregarded threats until he was convinced of their truthfulness. Superintendent Rose sent a force of 26 detectives to guard the road to Lake Ariel, which runs through a mountainous country.

The detectives were distributed all along the line and an extra force of track-walkers stood guard on every section. Men were concealed in every bush at threatened points along the line.

Several weeks ago Father Donlan led the prosecution of some rioters accused of having stabbed five men. Since then his life has been threatened. Despite the threats the excursion ran today with the cars bristling with police. Much anxiety is felt as the excursion does not return until late.

HAS FAITH IN HIS DETECTIVES

CHIEF HUNT SAYS HOLD-UP MEN WILL BE CAUGHT IF THEY PERSIST IN THEIR HOLD WORK—TAKES PERSONAL CHARGE OF THE SITUATION.

"I believe the two men who have been holding up street cars and robbing the employees are amateurs, but I place no credence in the theory that they are gamblers thrown on their resources by the closing of the games in Portland," said Chief of Police Hunt last night.

"As stated yesterday, our force is rather small to cope with an epidemic of crime, as we have but 20 policemen to cover the city's 40 square miles of territory during each eight-hour shift. I wish we had more, but the present state of the finances of the city will not permit of any additional. There was a rumor in circulation yesterday to the effect that the men sworn in to do duty at the races next week were for special duty during the present series of hold-ups, but that was a mistake. However, we are doing all we can to capture the bandits with our regular force, and I have a few men whom I am going to

HOMELESS.

From the Catholic Standard, Wiseman—To look at that Englishman you'd think he was a tramp, wouldn't you?

Jokeley—Well, I know for a fact that he hasn't a place that he can call home. Wiseman—Nonsense! Why, his mansion in London is—

Jokeley—Sumptuous, yes, but he calls it "home."

From the Somerville Journal. Higgs—How do you happen to be going fishing on Friday? thought you believed Friday was an unlucky day. Wicks—well, I always have. But it occurred to me this morning that perhaps it would be unlucky for the fish.
