### JOHN HALL'S CHANCES ARE NOW VERY GOOD

Hall will probably receive the unanilock over this appointment, but unforeseen developments arise it will terminate this afternoon in Hall's favor. His only competitor for the place is Judge J. C. Moreland, who has been backed by Senator Mitchell and Con-gressman Williamson, while Senator Fulton and Congressman Hermann have advocated the appointment of Hall. With the endorsement of the entire delegation Hall will undoubtedly be reap-pointed, for it is well known that Presi-dent Roosevelt and the department of justice are desirous of retaining him in

The delegation was in session for two hours this forenoon and reassembled immediately after lunch. When they adjourned at noon little had been accomplished except to agree upon two postoffice appointments in Congressman Hermann's district, and the important matter of agreeing upon a recommendation for United States district attorney was left until afternoon. Other appointments to be determined are the collector of port at Yaqhina bay and a deputy collector in the internal revenue office, the latter yacancy arising from matter of agreeing upon a recommen-dation for United States district attoroffice, the latter vacancy arising from the resignation of J. J. Shipley, who is now assistant postmaster.

He made no secret of his hostility to the party nominees for district attorney and sheriff, and this was made the basis of strong charges of political disloyalty, which have probably had some weight with the

Another Warm Contest

Next in interest to the appointment of United States district attorney is that B. Crosno, the incumbent, wants to hold his job. W. Tyler Smith of Yambill county is a candidate for the office, but his political prestige was considerably impaired by his failure to secure a renomination for state senator at the state convention. B. F. Jones of Lincoln is anxious to get on Uncle Sam's payroll in some capacity, and would like to have either the collectorship at Yaquina or the vacant place in the internal revenue office, but unfortunately for his aspira-tions Jones played fast and loose in the senatorial contest at the last regular able obligations to him, but this is not likely to avail him much. Another candidate for the inquina office is Penny, formerly employed in the mail service on the Yaquina road.

Vacancies in the postoffices at Forest Grove and Hillsboro will arise four or five months hence, but they will not be considered at this time.
