

SHERIFF CATCHES FIFTH FUGITIVE

YOUNG STEWART, WHO WAS ONE OF THE SEVEN WHO RECENTLY BROKE OUT OF THE COUNTY JAIL, IS DISCOVERED IN SUGGESTIVE LOFT.

Young James Stewart, one of the seven prisoners who recently escaped from the county jail by digging through a brick wall in corridor No. 4 and crawling through a hole in the floor of the grand jury room, is again occupying a cell. He was captured at Eugene at an early hour this morning by Sheriff Word, assisted by Sheriff Flak and Deputy Brown of Lane county.

ARE NOW IN THE CITY

(Continued from Page One.) couple of city blocks—say 400 or 700 feet—away from the parade-ground and to the east of it. They are on the west side of what is known as the east port basin or inner harbor.

"High above the dockyards on a hill immediately east of the east port basin, known as Golden hill, are three fortifications, the Mochau and Hwanachin fortifications. This hill is, at its highest point, about 480 feet high. It is thus a few feet lower than the highest point of Poyushan hill, now held by the Japanese, and approximately a mile west of Golden hill. It can thus be seen that between Poyushan hill and Golden hill and several hundred feet lower than a good portion of the town, the dockyards, the inner harbor and numerous warehouses.

"The parade grounds, I might add, would be within direct range of the Golden hill forts and under a dropping fire. Personally, therefore, I cannot see the object of gaining this foothold, unless it were for a preliminary step to a holder dash in the afternoon to the city itself and up the slopes of the Golden hill.

"Yes, the seizure of Golden hill would be practically the end of the struggle, because the remaining most formidable works are now in the hands of the Japanese but a narrow channel on the point of the Tiger's tail, much lower in altitude and easily reduced.

"I am not saying that these are or are not the only things I want it understood that I have any new confirming the Standard's dispatch. I have simply given you the situation as it would be in case our troops have actually taken possession of Poyushan and followed it up by an occupancy of the west parade.

"I am merely explaining to you also that Golden hill forts, if the situation is as the Standard says, are now subject to a fire from the highest point of a range varying from a mile to a mile and a half and out in the open sea beyond and to the southeast. Japanese battleships at a range of five miles, can also drop shells within the embrasures. Confirmation of the dispatch would therefore be virtually the news of the 'downfall of Port Arthur,' a beginning of an end conceivably close at hand.

"Russia's Fleet Active. That Russia is again becoming active with her fleet is in a measure indicated

DOGS MINUS TAGS ARE NOW IN DANGER

Poundmaster Fred Reed says he is going to begin making raids upon the large colonies of vagrant dogs which are seen roaming about the streets, on the first of next month. He is going to start out with his dog wagon and every animal without a license tag on will be seized and taken to the city pound, where a forfeit of \$1 will be required to get possession of the canine again.

It is the large number of complaints that have come to him during the past two or three weeks that have led the pound master to start the dog wagon again. Dogs are becoming very great nuisances, there being many which do not wear license tags, some of which never did carry the little metallic emblem.

By a dispatch received from Lloyd's agent at Niborg, Denmark, this morning. He reports that one Russian cruiser and two torpedo boat destroyers passed Niborg today heading northward. Work is being rushed on the Baltic squadron, which is being augmented as rapidly as thousands of men working 24 hours a day can accomplish it. There are now at the Kronstadt naval dock yards four Russian cruisers, one battleship and two of these, the Oleg and the Poltava, are exceptionally fine types of the new build embodying the heavy artillery-protecting girde.

Ten other cruisers are lying at Kronstadt but there are rumors constantly afoot regarding the sailing of the squadron for the far east.

A St. Petersburg dispatch today, reviewing the public outlook, resumes the work is being rushed on the Russian capital still stands firm that Russia cares for no interference and is confident of her power to end the war satisfactorily. Some of the less conservative papers assert that it is an insult to Russia to speak of mediation. One paper declares that not until the Russian fleet has sustained the destruction of war vessels and lives of men have been repaid in kind would she even consider peace.

Fire Is Weakening. A dispatch from Tokio states that the fire of the Russians at Port Arthur is weakening, according to advices received from ships passing in that vicinity and the garrisons are believed to be husbanding their ammunition for a final assault.

No mention is made as to the Japanese side of operations and the dispatch adds that the government studiously suppresses all news from the front.

Some News. A Rome dispatch to the Exchange Telegraph this evening says: "It is reported here from a good source that Port Arthur has fallen."

TROOPS AS SPOONS. Clear Sends Telegram, in Which Refers to His Son's Future.

St. Petersburg, Aug. 27.—The czar Thursday sent the following telegram to Kuropatkin: "During the baptism of Alexis, heir to the throne, her majesty and I, thinking of our valiant troops and seamen in the far east, invited them from our hearts to be sponsors for the czar's child. Let him preserve for his whole life this spiritual link with all our troops from the highest chief to the private soldier and seaman, who are dear to me and to Russia, who have proved their love for their fatherland and sovereign by their noble self-sacrifice and daring exploits while suffering from privations and encountering extreme dangers."

HELPS THE ORPHANS. Clear Sets Aside \$1,000,000 for Their Protection.

St. Petersburg, Aug. 27.—In commemoration of the czar's birth an imperial decree has been issued founding 100 scholarships in the military and naval school to be awarded to children of deserving soldiers and sailors killed and wounded in the war.

The interest on \$1,000,000 from the imperial estate is set aside for the support of the families of soldiers and sailors, preferably for the education of the children.

TO FIGHT WITH FIRE. Fort Arthur to Pump Blazing Oil on Sealing Parties.

St. Petersburg, Aug. 27.—The enormous quantity of petroleum at Port Arthur will be used as a final resort to keep the Japanese out. General Stoessel has special engines with which to throw oil a long distance, and then ignite it.

This method of fighting is entirely

COMMISSION HAS NO POWER HERE

HEALTH DEPARTMENT EMPLOYEES DO NOT COME UNDER CONTROL OF CIVIL SERVICE COMMISSION HAS NO POWER OVER CREMATORY.

It has been discovered that the employees of the city board of health, including those working at the crematory, do not come under the jurisdiction of the civil service commission. This discovery was made during the past week and came as a great surprise to those interested.

It was thought by the members of the commission that the board of health received the same consideration at their hands in the matter of appointments as any other department of the city, and since the civil service department has inaugurated, all the laborers and foremen at the crematory have been appointed, after taking their examination the same as any other employe in the service of the city.

The attention of Mayor Williams has been drawn to the matter and he has come to the conclusion that the employe at the crematory do not have to receive their appointments through the civil service commission according to the charter, which states explicitly that the civil service commission has not the power of appointment or removal of the members of the board of health, and since crematory comes under the direct supervision of the board of health the men who are working there are classed as members of the health department.

In order that everything may be made clear the matter will be referred to City Attorney McNary by his opinion. If it is really found that the civil service commission has no jurisdiction over the employe at the crematory the power of appointment and discharge of these men will again return to the board of health.

HENDERSON ORCHARD DIES AT TACOMA

Henderson Orchard, who lived in Portland and St. Johns until four years ago, died last Wednesday at his residence in Tacoma, the city in which he possessed large manufacturing interests. He was manager of the Washington Pipe & Foundry company and successful in business. In many of the smaller towns of the sound country he fulfilled contracts for the laying of water mains, and was generally known in business circles as an energetic, public-spirited citizen.

Mr. Orchard was a member of the Odd Fellows and the Woodmen of the World, and his funeral tomorrow will be under auspices of the former order. He leaves a widow and four sons. Mrs. W. H. Morgan and Mrs. F. S. Kandle of this city are his sister and sister-in-law, respectively. He also leaves two brothers in California and one in Yakima. The deceased was 55 years of age.

NO INCREASE IN WAR RISK. (Special Dispatch to The Journal.) Seattle, Aug. 27.—According to local representatives of large London marine insurance companies there is no danger of insurance rates on war risks going higher than now, and there is an indication of their coming down. Notwithstanding this fact, a large eastern meat firm has placed insurance on a shipment of canned meats from Seattle by the next Boston Steamship company's boat to the orient. The rate on war risks to the orient has dropped 1/4 per cent the last few days.

BEFORE THE DESTRUCTION OF THE Vladivostok fleet the rate was 3 per cent and in some instances higher. London companies are willing to take articles not declared contraband by Great Britain or the United States.

DEAN OF ROCHESTER EXPIRES AT LONDON

London, Aug. 27.—Very Rev. R. Reynolds Hole, D. D., the witty dean of Rochester, died today. He was born in 1819, was chaplain to the late Archbishop of Canterbury; a Fellow of the Stockholm and Portugal Horticultural societies; almoner of the Order of St. John of Jerusalem; and medalist of the Royal Horticultural society.

He was the author of numerous publications, among them being "A Little Tour in America," "Addresses to Workmen," "A Little Tour in Ireland," "Nice and Her Neighbors," "Hints to Preachers." He had been dean of Rochester since 1887.

Several years ago the dean made a tour of the States with the object of securing money to restore the ruined towers of the ancient cathedral at Rochester.

CLASON GOT MONEY AS WELL AS GEM

Detective Snow is working on the case of Mrs. A. Deshon, who reported the theft of her diamond ring of the value of \$250 early this week, and has ascertained that C. Clason, who wore the ring and left the city with it Monday, is under arrest. The missing woman to sign his note for \$300. This she will have to pay.

Clason left for Chicago. He has been learned, and the police of that city have been wired to arrest him if he appears there. This is said to be the second time Clason has got away with the diamond ring. It was recovered for Mrs. Deshon once, after which she again gave the gem to Clason.

"LEWIS AND CLARK" COIN. The souvenir coins ordered for the Lewis and Clark fair will be distributed September 1. There were 25,000 souvenir dollars coined at the Philadelphia mint and these will be distributed at the price of \$3 each.

TWO KILLED IN ELEVATOR. New York, Aug. 27.—The freight elevator at Babbitt's soap factory, on Washington street, fell from the top floor this afternoon, killing two persons and fatally injuring two others.

"THE NEWELL RIVERVIEW ACADEMY" Mr. Arthur C. Newell has great pleasure in announcing to the public that he has secured a beautiful and in every way satisfactory site for his new school, which will open Wednesday, September 28, 1904. Mr. Newell has no longer any connection with the board of trustees of the Bishop Scott academy, as that institution has been closed. The Newell school will extend the same advantages and maintain the same curriculum as those established by Mr. Newell in the Bishop Scott academy.

The new school is situated on the "G" and "Pulton" car lines 15 minutes ride from Morrison street, and, besides having ample grounds around the buildings, commands a fine view of the river and mountains. The high ground on which the school is placed gives assurance of the healthfulness of the location, which is well within the city limits and most convenient to reach, yet far enough away to give all the freedom that is necessary.

The Newell Riverview academy will open on September 28. Further announcements will be made. For information apply to Arthur C. Newell, Portland, Or.

BIDS OFFERED FOR NAVY DOCK. (Journal Special Service.) Washington, Aug. 27.—Bids were opened by the bureau of yards and docks, navy department, today for the construction of drydock for the New York navy yard. Bids were opened in January last, but were in excess of the money available, and were rejected. The plans have been changed somewhat, but the size of the dock will remain the same as before.

NOAS GROWS WEAKER. (Journal Special Service.) Worcester, Aug. 27.—Senator Hoar is weaker today and did not have a comfortable night. He is feeling well this morning, however, although weaker than yesterday. There is no material change in his condition.

COMMISSION HAS NO POWER HERE

HEALTH DEPARTMENT EMPLOYEES DO NOT COME UNDER CONTROL OF CIVIL SERVICE COMMISSION HAS NO POWER OVER CREMATORY.

It has been discovered that the employees of the city board of health, including those working at the crematory, do not come under the jurisdiction of the civil service commission. This discovery was made during the past week and came as a great surprise to those interested.

UTAH MAN IS ANGRY

(Continued from Page One.)

be the aim of every one of our delegation to circulate it as widely as possible that strangers and tourists are not wanted here in Portland.

Rose Club's Action. "If the Rose club was an irresponsible organization we would not have felt the insult. But representing, as it does, the best women of this city, we cannot fail to realize that the insult was deliberate and premeditated. How remarkable it is that every time a man does something atrocious, women flock to him and crown him a hero."

Mrs. Rose Hoyt, president of the club, representing 195,000 women, and Denver had the first woman's club we ever heard of.

"I hope my meaning is clear. As a matter of fact, I did not approve of some of the remarks of Mr. Pence, but Mormonism was not thought of when we decided to present the flowers."

A Cause for Storm. Judge Powers in his signed statement does not refer to the most ludicrous incident of the entire session of the congress. It was a report circulated by Delegate Terry of Denver to the effect that Powers was a Mormon bishop, three times married and that he had one of his plural wives at the Hotel Portland. Had the judge heard this report in time there would have been a storm that Portland could not soon have forgotten, but when Terry ascertained that he had been conveying false information he apologized to the victim before it had otherwise reached the latter's ears. Whereupon the Denver man was advised in brief terms to verify his information before he circulated further reports.

The facts are that Judge Powers was instrumental in sending a great many polygamists to the penitentiary during the raids in Utah, and has always been a foremost advocate of the destruction of the Mormon church in the state of Utah. He it was who led the campaign that wrested the political control of Salt Lake City from the hands of the Mormon church in the 80's and for years he was the man most despised by the Mormons in the state of Utah.

Very Strong Resolutions. That Judge Powers voices the sentiment of his colleagues is apparent in the resolutions herewith presented, which were adopted at a caucus of the Utah delegation on the morning after the Powers-Pence-Talmage debate. The cost is not intended for the congress, but in signing it each member signified that he would not be fulfilling his duty to the state should he fail to request the action of Pence and the frequent injections of the Mormon ques-

tion into the columns of the Oregonian during the campaign of the cities. The attitude of the morning paper was characterized as wholly unwarranted, especially so in view of the fact that in the entire Utah delegation there was but one Mormon—Dr. Talmage. The resolutions follow:

"Whereas, During the seventh annual session of the American Mining Congress, assembled at Portland, Or., particularly in connection with the proceedings incident to the locating of the permanent headquarters of the congress, certain remarks and insinuations were made on the part of the Colorado delegation, in the open session of the congress, which remarks and insinuations were in the nature of an unprovoked assault on the moral and social status of the people of Utah; and

"Whereas, A certain newspaper-to-wit, the Oregonian—published at Portland, Oregon, has directly and by innuendo sought to frustrate the open and honorable efforts of the people of Utah to secure the establishment of the headquarters of the American Mining Congress at the capital of their state by attempting to intercept the so-called Mormon question into the consideration of the subject before the congress; now, therefore, be it

"Resolved, By the Utah delegates to the seventh annual session of the American Mining Congress, on behalf of themselves and of the people of Utah, whom they represent:

"First—That said remarks and insinuations on the part of the Colorado delegation were in their nature and in the manner of their delivery vindictive and vicious, and were made with malicious intent to cast gratuitous insult on the people of Utah.

"Second—That the course pursued by the said newspaper, the Oregonian, in the matter referred to, is utterly despicable and wholly alien to the ethics of honest journalism."

TONIGHTLY SERVICE. (Journal Special Service.) London, Aug. 27.—The Hamburg-American line today inaugurated a fortnightly service from Liverpool to Trieste and Fiume, in competition with the Cunard line.

MYSTERY SURROUNDS REFITTING OF TUG

(Special Dispatch to The Journal.) Victoria, B. C., Aug. 27.—The tug Fern is being refitted here under rush orders. Great secrecy is maintained in this connection but it has been learned that a land company looking forward to speculation in connection with the terminus of the Grand Trunk Pacific is interested in the party. Local capital and also American speculators are said to be interested in the company.

The Fern is being fitted up to accommodate a small party and will carry ample provisions and a strong searchlight. It is generally supposed on account of the urgency in completing and outfitting that the party intends going north about the same time as the officials of the Grand Trunk Pacific when they leave to look into the matter of a terminus and will watch carefully the movements of the officials.

FIRE AT AIMS. (Special Dispatch to The Journal.) Gresham, Or., Aug. 27.—A fierce fire is burning in the vicinity of Bramhall's mill, near Aims, Clackamas county. A great deal of damage has been done in the destruction of much valuable timber and some outbuildings. The store at Aims was thought to have been burned but so far no definite report to that effect has been reached, owing to the fact that the roads are absolutely unsafe for travelers.

TROLLEY WAGON IS KILLED. (Journal Special Service.) St. Louis, Aug. 27.—Thirteen persons were injured and many more badly shaken up today when a trolley car jumped the track at Jefferson avenue and Pastaloois street and crashed into a telegraph pole. Miss Hummel of Peoria, Ill., was probably fatally injured.

WANT ADVERTISING "KNACK" HAS BECOME AN ESSENTIAL PART OF GOOD HOUSEWIFERY

ONLY A WOMAN WHO IS A "GOOD EXECUTIVE" IS A "SUCCESSFUL" WIFE. A WOMAN MAY BE A "GOOD WIFE" SIMPLY BECAUSE SHE IS A GOOD WOMAN; BUT SHE IS NOT A "SUCCESSFUL" WIFE UNLESS SHE IS A GOOD MANAGER—UNLESS SHE HAS "EXECUTIVE KNACK"—THE ABILITY TO DO THINGS IN THE EASIEST AND BEST WAY; THE ABILITY TO REDUCE HOME EXPENDITURES TO THEIR LOWEST TERMS; TO "KEEP THINGS RUNNING"—NOT MERELY AS SMOOTHLY AS HER HUSBAND DOES IN HIS OFFICE, BUT A GREAT DEAL MORE SO. SHE MUST MANAGE HER HOME SO WELL THAT NO ONE WOULD SUSPECT THAT IT WAS MANAGED AT ALL.

WOMEN ARE WRITING THE MAJORITY OF THE LITTLE ADS. NOWADAYS. None of the colleges for women teach the art of writing "want ads." and yet it has become an essential part of a woman's education. None of the magazines for women print papers on "How to Get a New Cook," or "How to Convert the Old Sideboard into Money Through Advertisements," and yet these things are a vital part of good home management. More than half of the "want ads." are written by women; and are aimed to smooth out the rough places in home-making; to erase the little vexations and worries of the day; to keep the "hot boiling" the purse full, the "old things" from accumulating, the domestic machinery from getting rusty. "THE WANT AD. WAY" LEADS TO THRIFT, TOO. The woman who has learned the full usefulness of the "Want Columns" makes her little ads "pay" proportionately as well as the big whole page ad. pays the merchant. She has learned that by advertising for a music teacher for her little girl she cannot merely find the right one, but can secure the right rate; that by having a dozen applicants for the place of gardener, she can "pick and choose" and make reasonable terms; that by advertising for a lodger she can get an agreeable one and one who is "good pay"; that by advertising the household things which are no longer needed she can find the best markets for them.
