ALASKA BOUNDARY COMMISSION MEETS

Long-standing Alaska Boundary Commission meets today...

Members of the Alaska Boundary Commission met today...

London, Sept. 3.—The commission appointed under the treaty concluded last January between Great Britain and the United States...

The excellent results achieved at Seattle by the Oregon delegation to the trans-Mississippi commercial congress have moved to the suggestion that this state should have adequate representation at Ogden in the sessions of the national irrigation congress...

The gathering of an exhibit is already assured, Colonel Judson, industrial agent of the O. R. & N., has been instructed by his company to assemble such an exhibit...

Urgent appeals are being made for representation. Letters from the irrigation congress officials are coming to various persons, and in all it is felt that Oregon cannot afford to neglect this opportunity to get before the people...

NEED OF WORKERS TO GO TO OGDEN

Irrigation Congress offers opportunity to congressmen interested in the state—delegates should secure several scores of wide-awake people.

Excellent results achieved at Seattle. Move for a like attempt at the Wash. Meeting, where specific recommendations are to be made for disposition of funds available in the Federal Treasury.

OREGON HOP YIELD WILL BE LIGHTER

Small production of the state's hops will mean 75,000 bales, of which 60,000 bales are choice hops.

McKinley Mitchell, who returned yesterday from a weekly tour of the hop fields of Marion county, said: "Picking operations in nearly all of the valley yards are well under way. There is plenty of mold in all of the yards. Some of them are heavily damaged, others only lightly."

"In the vicinity of Woodburn and Grants and in fact all through Marion county—the banner hop section of the Pacific coast—the yield of good hops will be very light and an estimate of 60,000 bales made by The Journal several months ago still seems accurate. Then of course there will be a certain amount of very poor hops harvested on account of the high prevailing prices, and this may possibly run the grand total up to perhaps 75,000 bales."

"The hops that were picked early will not be in a matured condition and a large loss to the growers may result in this way. Green hops are bad hops and never command the top market price even under the best of conditions. The picking price this season ranges from 40 to 50 cents, according to the yards and the quality of the hops to be picked."

"Those yards which were thoroughly sprayed may have a fair quality of stock this season, but taken altogether the crop will be light and unsatisfactory."

CARROLL INSTITUTE HOLDS ANNIVERSARY

Washington, D. C., Sept. 3.—Carroll Institute, one of the best known Catholic institutions in America, celebrated its 50th anniversary today with a public meeting and banquet attended by diplomats, public officials and scores of other eminent members of the Roman Catholic church.

The institute, which was founded in 1857, and named in honor of Archbishop Carroll of Maryland, has for a quarter of a century been the center of Roman Catholic social and literary life in the national capital. Brilliant receptions to high dignitaries of the church, conventions of national interest to Catholics and mass meetings of more than local importance have been held within its walls on various occasions, all of which has caused the institute to become a familiar name among the Catholic people of the entire country.

The institute occupies a handsome building of its own on Tenth street, formally opened in 1892 with a brilliant reception in honor of Cardinal Batelli.

WE CURE MEN. E. E. TALCOTT, M. D. CONTRACTED DISORDERS. Every contracted disease is attended with grave dangers that nothing less than thorough and scientific care can remedy. To take even the slightest chance in such case is to invite life-long misery. A partial cure is followed by a chronic stage with all its horrors, the same as though the disease had not been treated at all. We positively will not diagnose a patient until every possibility of relief is removed. By our system of treatment every patient is usually cured, and made free from disease, and it is by us before the slightest sign of recovery.
