### OFFICER JOHNSON'S EXTENSIVE RAMPAGE

**FRUSTRATES HIS STERILE EFFORT SATURDAY NIGHT BY INSULTING RESPECTABLE WOMEN IN FIFTH STREET GAPS—BOULEVARD BY PRO-FRONTIER ARREST WITH MALLORY.**

Prior to his stellar feat in accusing O. A. Koch of being a thief because he was running for a car and battering Dr. E. B. Johnson last Saturday night, while drunk, Policeman Johnson is accused of having insulted two women and was ejected from a business establishment on Fifth street near Jefferson. He took his leave of the place in haste, as the angry proprietor, who procured a club, was about to take some Delaerte exercise on him.

From an account of the affair given Captain Bailey at police headquarters last night, it appears that the two women, one of whom is engaged in a mercantile business, left their residence and went to a grocery store in the neighborhood to buy a few articles of food before visiting. The grocery, which is conducted in connection with Alexander Bros. cafe, 147 Fifth street, was closed. Mr. Alexander invited the women to step into a booth while he obtained what they wished.

At this juncture Policeman Johnson reached the scene. He is said to have been so badly intoxicated that he stumbled and almost fell while walking down a broad and well lighted corridor. Abruptly entering the apartment where the customers of Mr. Alexander were waiting for him to supply their order, he walked up to one of the women and roughly grasping her by the shoulder, demanded to know her name.

Though badly frightened, the woman was plucky. She informed the policeman, who was in citizens' clothes, with

his star concealed, that it was none of his business and demanded that he leave the room immediately. Her companion began to sob just as Mr. Alexander entered the compartment.

"He was both surprised and indignant at what he saw. He ordered Johnson from the place. The latter thereupon showed his star and said he intended placing both women under arrest and the proprietor also in case he tried to make any trouble.

"What do you mean?" asked Mr. Alexander. "These are respectable women, in a respectable resort and nobody has violated any law."

"I know 'em," replied the policeman. "They belong to the sporting class and are in here buying drinks after hours."

"You are drunk—that's the trouble," finally declared the proprietor, who was losing his temper fast. "These women did not come here for anything to drink. Nor is it after hours. It is now 11 o'clock."

Pulling out his watch, the policeman looked at it and declared it was after 1 o'clock. He added that anybody could see both women were minors and they would have to go with him. He dragged them along a hall toward the door and both began to grow hysterical, when Mr. Alexander grasped the officer by the collar and hurled him against the wall.

"Get out of here, quick," he exclaimed. "If you don't I'll give you a thrashing you won't soon forget."

The policeman left the place and did not further attempt to make an "arrest." Not long afterward he was battering Dr. Johnson and creating a scene of excitement at police headquarters.

**Last Opportunity.**

On October 27, 28 and 29 the Northern Pacific will give you one more and the last opportunity to purchase low rate excursion tickets to the world's fair at St. Louis and to other points east. All excursion tickets will be good on the North Coast Limited trains as well as on either of the other overland trains. Through sleepers will be run to St. Louis. Call at the ticket office, 255 Morrison street, corner of Third for full particulars or write A. D. Charlton, A. G. P. A., Portland, Or.

### OREGON WHEAT IN NUMEROUS MARKETS

**CHAMBER OF COMMERCE IS REQUESTED FOR GRAIN STANDARDS—SECRETARY SENDS THEM ALL OVER WORLD—MANY INQUIRIES REGARDING PORTAGE ROAD.**

Oregon wheat is finding its way into all the eastern markets. The secretary of the chamber of commerce has received a letter from the Eastern St. Louis Elevator company stating that they had purchased a considerable quantity of Oregon wheat and asking that the standards as fixed by the chamber of commerce on all grades of Oregon, Washington and Idaho wheat be sent them, which request was at once complied with.

The secretary also dispatched to the London Corn Trade association of Liverpool, the Berlin Bourse and other important grain associations of the world the grain standards as fixed by the chamber of commerce. The reason for this being that when grain ships leave the northwest harbors they are given certificates by the secretary of the chamber of commerce relative to the quantity of the cargo, then when the ships arrive in foreign ports the grain in cargo will be compared with the samples sent in the standards. This precludes the possibility of passing off other wheat as coming from the northwest.

Eastern commercial centers are manifesting considerable interest in the opening of the Columbia river to navigation between The Dalles and Celilo. Already the secretary of the chamber of commerce has received seven letters of inquiry from New York firms along. The writers of these letters ask for information concerning the possible date of completion of the portage road, the government canal and the navigable limits of the Columbia and Snake rivers.

Commercial and trade papers throughout the United States are asking for statistics concerning Portland and Oregon. To provide these papers with the desired information Secretary Mosson of the chamber of commerce is preparing an elaborate statement, including statistics concerning all industries of the northwest.

### TEN DAY ASSEMBLY IN CHURCH OF GOD

The first general assembly of the Church of God, which has been held in the meeting house at 439 Hawthorne avenue for the past 10 days, was brought to a close with a consensus of services all day yesterday. There were many prominent workers and leaders from all parts of the northwest in attendance at this assembly. They slept, ate and held their meetings in the two-story building which the local membership has erected this year.

The meeting house or auditorium is on the first floor of the building. The two upper floors are used as sleeping rooms while the kitchen and dining rooms are in the basement. One of the members acted as cook during the 10 days of service and the other members who are carpenters spent the time between the hours of service in putting the finishing touches on the building which was not entirely completed. The sect is perhaps the most peculiar on the Pacific coast. The church has no regular recorded membership, its ministers receive no salaries and no collections are taken at the meetings. Any man or woman who believes that it is the will of God that he or she preach this gospel of salvation can do so without any further preparation.

The meetings were largely attended and at the close the saints returned to their homes throughout the northwest to prepare to start on a crusade to spread this religion all over the world.

### DETERMINING CAUSE OF DAMAGE TO JETTY

Whether the washing away of 2,000 feet of the Columbia jetty during the recent storm was due to destruction of the piles by teredoos or the fault of the construction, will be stated in the report of the navigation committee of the chamber of commerce to the board of trustees at the meeting tomorrow forenoon. The committee has made an investigation of the jetty and the damage done by the storm.

A slight storm raging on the coast about two weeks ago carried away 2,000 feet of the jetty, imperiling the lives of five men who were cut off from the mainland and stopping all improvement work on the bar for the winter. Reports at the time said that the piles had been so badly eaten into by teredoos that they were easily broken by the force of the storm. In addition to the 2,000 feet of jetty washed away there is another 2,000 feet which is considered unsafe and useless. The committee from the chamber of commerce has investigated the matter and will give its decision on the causes at the meeting of the board of trustees.

### Oriental Art Sale

An event of unusual importance in art circles is the decision arrived at by Messrs. Woodard, Clarke & Co. to close out entirely, their line of Oriental Art objects. The remarkable excellence of their collection has been a matter of comment among connoisseurs for several years.

The increased demand for other lines, surgical, dental and photographic has made it necessary for the firm to either close out their oriental goods or engage additional store room. The latter being impracticable, they place on sale, commencing this morning, their entire collection at half price.

Only those who have inspected their display can form an idea of the remarkable opportunities offered in this sale.

**Your Last Chance.**

For reduced rate Chicago - St. Louis round trip tickets. Sale dates, October 27, 28 and 29 only. Any route going and the same or any other route returning. Call on or address E. H. Trumbull, Commercial Agent, Illinois Central Railroad company, Portland, Or.

Bill the car has a good chance for not going to the front—the baby is beginning to say "guy." Nicholas thinks it means sure victory.

**A Thoughtful Man.**

M. M. Austin of Winchester, Ind. knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got better at once and was finally cured. Only 25c.

## SYMPATHY

You don't hear much about sympathy in dentistry. Do you? People usually speak of dentists as cruel and calloused to the pain they inflict. That is because our methods have not been tried. We are so confident that we can operate successfully without pain in any instance or under any conditions that we ask for a close investigation of our methods. As to the durability of our work, we invite investigation also.
