

MORRISON STREET BRIDGE CLOSED!

TRADE ON FIRST AND MORRISON AT A STANDSTILL!

And in order to stimulate trade we quote prices at least 20 per cent lower than former prices quoted during our BROWN TAG SALE. Our prices heretofore have had no equal—where quality and style was considered—today these prices quoted are lower than the same goods can be bought at wholesale. Every street car in the city either passes or transfers within a few steps of our door, and if it's any inducement to you, come in and visit with us—if you buy \$1.00 worth of any kind of merchandise, will pay your car fare both ways. The supreme test of a store's stability—its usefulness—in fact, its justification for existing as such, lies in the completeness of its stocks, its proper variety, its correct styles and its right prices. That these conditions exist in this store at this time, and all the time, a casual stroll through the several departments will convince every impartial observer. An inspection of the styles on display and a comparison of values and prices with those of other stores can only end in our being awarded the palm of supremacy. Subjected to any test, or tested by any standard, you'll find that it pays to trade here. Read on:
