Dr. Depew's Warning Heeded Pursuit of Wealth Abandoned Senator Depew of New York recently warned young men not to pursue wealth, but "higher and nobler ideals," which evoked the retort that "man would look well going to do his family marketing with a bunch of high and noble ideals as collateral." Look well he might, but how he would feel, we can only conjecture.

In making the absolutely matchless offerings printed in this announcement we are certainly not pursuing wealth, and possibly some of those "higher and nobler ideals" are the ends in view—be that as it may, it calls for mighty little collateral to obtain these values—in several cases, about half the ordinary quantity.

Uncle Sam's Man Works for Us To those who cannot get to the store or phone we urge the importance of using our MAIL ORDER DEPARTMENT. Now the leading and best equipped of any west of Chicago. We employ expert shoppers to fill all mail requests and guarantee both promptness and satisfaction. Mail Order Department now permanently located on fifth floor—west annex.

Exploded a Theory

At the beginning of the nineteenth century the French scientist of the century offered a prize to the first person who solved the following problem: If you take a vase full of water and put a stone or any similar body in it, the water will rise and the level for which is equal to that of the stone, it will not flow over. Explain this phenomenon. Unfortunately, however, one savant neglected to stipulate that the real discovery was that the water-filled vase overflowed as well. So another theory was explained. Deserving a similar fate is the theory that a cash store can underse a credit one—using the word "credit" in the monthly settlement section. HERE WE ABOUT IS THE "CREDIT" MAN—"TRIED" FLOOR.

SCHOOL VOTE FOR CANAL MODEL

Grows more and more interesting as the contest nears the end—and we hear there will be some surprises at the end of the race. Whichever party and there that many votes are being held back—we'll tell you about it. Thanksgiving day and the nominations—they are very interesting, coming in every day now. One little girl wrote yesterday that the Panama canal connected America. Not so far wrong, after all. Perhaps, the vote at 5 p. m. yesterday stood like this: High School, \$10.00; St. Mary's Academy, \$10.00; Harrison School, \$10.00; Park School, \$10.00; Portland School, \$10.00; ALBANY, \$10.00; Williams, \$10.00; Felling, \$10.00; Tully, \$10.00; Bennett, \$10.00.
