MARSHAL ADMITS

The clearing weather this morning came as a special favor to Portland and her guests—the party of 28 Northern Pacific ballway passenger agents who, headed by General Passenger Agent A. M. Cleiand, arrived last evening on a visit of inspection to the Lewis and Clark exposition city.

Coming here with preconceived ideas of the most beautiful city on the Pacific coast, the one hope of the visitors and their hoxis was that they might have favorable weather conditions under which to view Portland and her environs. And they did.

On arriving last evening the party was met by a committee, composed of I. N. Fleischner, Jefferson Myers, Oskar Hebres W. H. Wyman, George W. Hasen, Lewis among the railways.

D. B. Gardner, district passenger agent at St. Louis, has the reputation of showing more people through the St. Louis of man. He is thoroughly impressed with the originality and the beauty of the Lewis and Clark fair.

W. H. Whitaker, district passenger agent at St. Louis, has the reputation of showing more people through the St. Louis of man. He is thoroughly impressed with the originality and the beauty of the Lewis and Clark fair.

W. H. Whitaker, district passenger agent at St. Louis, has the reputation of showing more people through the St. Louis of man. He is thoroughly impressed with the originality and the beauty of the Lewis and Clark fair.

W. H. Whitaker, district passenger agent at St. Louis, has the reputation of showing more people through the St. Louis of man. He is thoroughly impressed with the originality and the beauty of the Lewis and Clark fair.

W. H. Whitaker, district passenger agent at St. Louis, has the reputation of showing more people through the St. Louis of the stream of the stream of the originality and the beauty of the Lewis and Clark fair.

W. H. Whitaker, district passenger agent at St. Louis, has the reputation of showing more people through the St. Louis of the stream of the stream of the reputation of the stream of the provision than has any other railroad man. He is thoroughly in t

which to view Portland and her environs. And they did.
On arriving last evening the party was met by a committee, composed of I. N. Fleischner, Jefferson Myers, Oskar Huber, W. H. Wyman, George W. Hasen, W. B. Glaffe and W. A. Cleland, who escorted them to the Portland hotel. Later in the evening a dinner and reception was given in their honor at the Commercial club, where their entertainment was looked after by Edward Ehrman, John W. Thatcher, L. Gerlinger, Dr. Sanford Whiting, Charles E. Ladd, Paul Wessinger, Colonel James Jackson, Robert Kennedy, H. E. Reed, W. E. Thomas. L. A. Lewis and othersespeeches cordially welcoming the railroad men were made by Colonel Jackson, I. N. Fleischner, Ellis G. Hughes, C. Lombardi, Jefferson Myers and W. L. Bolse, and to these Mr. Cleland gave an eloquent response on behalf of the passenger agents.

and men were made by Colonel Jackson, N. Fleischner, Ellis G. Hughes, C. ombardi. Jefferson Myers and W. L. olise, and to these Mr. Cleiand gave an oquant response on behalf of the passonger agents.

"For two weeks the competitive discits of the east and middle west have been without a single Northern Pacific isn in the passenger agents of the east and middle west have been without a single Northern Pacific isn in the passenger agents of the business of the Pittsburg commandery special train that passed through Portland last August en route to the Knights Templar concleve at San Prancisco. It is said to have been the largest train ever moved over the Northern Pacific, and earned an enviable reputation for Mr. Brison.

Belighted with what They saw.

Today's program was made up with the reputation for Mr. Brison.

H. W. Sweet, familiarly called "Pa" by nearly all of the men, is the dean of the travelers.

"He is the oldest traveling passenger agent in the country," said one, "and up there in South Dakota where his labors require him to spend most of his days he has found time to become one of the most expert canoelsts in the west."

P. W. Pumpill, district passenger agent trunks full of notes back to Omaha.

C. E. Brison, district passenger agent at Pittsburg, is the man who worked up the business of the Pittsburg commandery special train that passed through Portland last August en route to the Knights Templar concleve at San Prancisco. It is said to have been the largest train ever moved over the Northern Pacific, and earned an enviable reputation for Mr. Brison.

"He is the oldest traveling passenger agent at Pittsburg, is the man who were at Pittsb

standpoint."
eneral Passenger Agent Cleland is
haps the most enthusiastic man in
party, this being his second trip
within 90 days. Of the prospects
business next year Mr. Cleland said: for business next year Mr. Cleland said:
"It goes without saying that we expect a big immigration business next year. Thousands of people will come here, not only on round trip tickets to see the exposition, but taking advantage of the one-way colonist rate, to settle permanently in the Pacific northwest. All of the states in this group will benefit largely by the fair in that way. It is the force that starts the ball rolling.

'Our passenger agents, whose work will be the promotion of this immigration, are receiving by this trip an education that will be of inestimable value. The country is a revelation to most of them. Only a few have ever before been west of the Rockies, and some of them had never been further than St. Paul. They are amazed at the resources of the coast, no less than the scenic beauties. Cur visit to Portland is for the one purpose—educating ourselves the one purpose educating ourselves with reference to the Lewis and Clark exposition, the city, and its tributary country."

Tour of the City and Farewell. At 12:20 o'clock the visitors were taken to the Commercial club, where luncheon was served. The afternoon the time was devoted to trolley rides about the city, under the direction of a committee of citizens and local railway men, including E. L. Thompson, R. A. Marshall, L. A. McNary, Phil Metschan, R. L. Darrow, H. M. McGuire, H. S. Roe, C. S. Jackson, A. H. Guire, H. S. Roe, C. S. Jackson, A. H. Birrell, L. Gerlinger, Colonel James Jackson, George W. Hazen, W. L. Boise and E. B. Piper. A. D. Charlton, as-sistant general passenger agent of the Northern Pacific, and H. C. Bowers manager of the Portland hotel, will give a dinner to the visitors at 5:30 o'clock which will conclude the formal entertainment. They will depart tonight at tour at Duluth.

(Special Dispatch to The Journal.)
Scattle, Nov. 18.—After the governor of this state had honored a requisition from the governor of Montana for possession of Dan Grindrod, a footracer, accused of fleecing several Helena sports out of money on a fake race, A. C. Carley, the Montana officer, acknowledged to Mayor Ballinger and Police Chief Delaney that the matter was all a trick to get money out of Grindrod. The confession was made after the prisoner had been turned over te Carley, who took him to Grindrod's home and there stripped him of his watch and diamonds, as security until the prisoner raised \$250. passenger agents are men of far than ordinary perception and They have been trained in the uncement of an excursion is a signal for the warmest kind of a con-

fore the sale of the personal and real property on the 12d and 28th of this month, respectively.

In the arguments made by Mesars. Butcher and Clifford for dismissal of the petition, it was said that in securing an order for sale of the personal and real property of the Cornucopia mines separately, it was not the purpose to dismantle the plant nor cause injury, but that this method had been adopted in order to better protect all interests represented in the \$35,000 debts. He assured the court that the men who had filed claims for this aggregate were determined to get their money or the property, despite Wall street or other influence. Further, the attorney said that the debtors were not all able to buy the property in to protect themselves, and that he proposed to do, if necessary.

There was no argument as to the validity or existence of the mortgage which Mr. Rogers alleges to exist, and on which but 18,000 has been paid. Jurisdiction of the court was the point. In the petition the allegation was made that John E. Searies and his wife executed the instrument, and that later the receiver, George D. Beattys, recognised it. Still later Mr. Beattys conveyed the entire Cornucopia mining property to the reorganised company, and no effort was made to put the mortgage into force and effect. Only after the local debtors in Baker county had filed their claims and were proceeding to self the property did they learn of the existence of such an instrument.

Unless Judge Eskin grants a restraining order on the showing that will probably be made by Mr. Rogers, the sale of the Cornucopia property will take place on the date as advertised.

TILLERS OF DESERT ATTORNEY GENERAL SELECT PORTLAND

Sensational Disclosures Ex- National Irrigation Congress Elects and Votes to Come Hera Next Year.

(Journal Special Service.)
El Paso, Tex., Nov. 18.—By a vote of two to one Portland yesterday secured the next irrigation congress. The selection of a meeting place in Portland for 1905 was made unanimous in the minutes, Boise, the rose city's only companies.

Oregon.

cavalry force is patrolling the streets.
The docks are badly congested.

confession was made after the rhad been turned over to Carley, ook him to Grindrod's home and tripped him of his watch and diagas security until the prisoner \$250.

Brod reported to the police stadia as security when brought to the mouth and vicinity have suffered for want of better water supply. Wells have, with very few exceptions, gone dry. Many have been compelled to either dig new wells or make the old ones deeper; others are carrying water from the well of the nearest neighbor who is able and willing to supply them, which, in some cases is a number of blocks.

The city water supply comes from a well in the heart of the city, owned by M. Griffa. This well, though of a reasonable depth and nine feet in diameter, has not been able to supply the demand, so Griffa has had it dug deeper. After having bored to a depth of 380 feet, in one night the water reached a mark of 14 feet above the bottom of the original well. This supply, it is though, will be sufficient to meet the demand, until the winter rains come to the rescue.

Savory Roaster

The great feature of the SAVORT ROASTER, which no other reaster has, is the OVAL BOTTOM. With the ordinary reaster the moisture brought out of the meat by cooking has no chance to accumulate and is burned and dried up in the bottom of pan. In the OVAL BOTTOM this meat juice flows continually to the lowest point of the bottom, where it is vaporized by the heat and again deposited upon the surface of the meat. Thus, while water is required in the Flat Bottom Roaster to supply the accessary moisture, in the Savory Roaster this moisture comes from the meat's own juleas. No basting is necessary. No attention of any kind.

BEQUEST IS CLEAR

Not Subject to Inheritance Tax Attorney General

CHARITABLE THOUGH IT MAY CHARGE TUITION

State Will Collect About Ten Thousand Dollars on Indi-

(Special Dispatch to The Journal.)

Salem, Or., Nov. 12.—Attorney-General A. M. Crawford yesterday rendered an opinion in answer to a question propounded by State Treasurer C. S. Moore as to whether the estate of the late Simeon G. Roed, which has been bequeathed by the widow, the late Mrs. Amanda Reed, to charitable institutions in Oregon and other states, is subject to the inheritance tax. If this decision stands the state of Oregon will receive about \$10,000 by the terms of the inheritance tax law, being the tax on \$300,000 worth of property which was bequeathed to foreign institutions, and the state will lose about \$122,000 in revenue because the attorney-general's opinion is that all money—about \$2,200.000—bequeathed to charitable institutions within the state of Oregon is not subject to an inheritance tax.

Mrs. Reed willed most of her prop-

Dr. B. E. Wright's **Dental Office**

"The will provides for a permanent income to support the Reed Institute. It was evidently the intention that no fees be charged unless necessary for the operating expenses of the institute, and then moderate fees' only. It is to be kept within the reach of deserving young men and women earning a livelihood and unable to go abroad in search of a higher education. It is intended to benefit the laboring masses of the city of Portland by opening a means of self improvement otherwise not accessible to them. If there were no provision in the will for charging moderate fees for admission or tuition, I should not healtate to call it a charitable use. I am of the opinion that the fact that the trustees may, if necessary, charge a moderace fee for admission or tuition, does not deprive the bequest of its character of a legal charity, and therefore that it is not liable to the inherstance tax, provided said trustees incorporate under the laws of this state.

"The same reasoning will apply to the bequest to the Fortland Art association."

PUGET SOUND GETS PORTLAND TRADE

(Continued from Page One.)

the sound to the far east. They had more business than the regular liners could handle, and they solved the problem by engaging tonnage themselves.

But the statement is made that the Portland exporters do not take the treuble to secure additional tonnage, relying altogether upon the Portland & Asiatic Steamship company to provide them with adequate facilities. When the latter fails to do so for one reason or another it is asserted that the local shippens immediately proceed to complete arrangements for sending their products out on the sound steamers. If they would all work together, the declaration is made that they would have plenty of freight to justify them in engaging a steamer to send direct from this city.

been willing to pay the usual charter rate for tonnage.

"But," he concluded, "they would not do this, believing that they ought to be able to get a vessel for nothing. When they found out that they could not they sent their shipments by way of the northern ports."

The Portland & Asiatic Steamship company's feet is made up of four freighters, and it sends out from the Columbia river on an average of two steamers every month. It is held that there is sufficient amount of husiness here to justify the company in sending three vessels here every 30 days, if the feet should not be increased to this extent, it is claimed, that Fortland
