

Not One Recovery. As it was generally believed that Law-son would keep his word the market opened weak and lower this morning and it never recovered for a single moment during the entire session. Thousands upon thousands of shares of Amalga-mated were dumped upon the market by the brokers, as the selling orders from the outside began to come in by tele-graph. In a few moments after the ex-change opened everybody was Lawson mad and his name ruled the market along.

After a lower opening today Amaigamated Copper stock at 67%, the market bean its downward descent and it was haven to 6 % and on back to 68 and there. some heavy declines were noted. Greene Copper stocks, which is an in-dependent concern, was very weak on the Boston exchange, and after opening at 27 it slumped down to 2234, a loss of \$6.50. It went back later to 2444. The loss in Greene Copper is said to be due to the selling and bearing of the Amalgamated people, who in forcing the other coppers down expect the various companies to aid it in the fight with Lawson. Today on the New York exchange the total sales amounted to over 2,000,000 shares, and of these it is estimated that nearly one half of them were Amal-gamated.
