BURGLARS MAKE HAUL OF JEWELRY

Break Into M. Pfeil's Home, and Ransack It from Cellar to Attic.

POLICE SUPPRESS NEWS OF THE RICH ROBBERY

Moving Picture Machine Boldly Stolen from a Car in the Railroad Yards.

Burglars broke into the residence of Mrs. M. Pfeil, at 321 Thirteenth street, last night and departed with rich plunder.

No report of the burglary was given out by the police, and persons familiar with the circumstances say they have been cautioned to give no information. Among the articles stolen were several pieces of jewelry set with diamonds and rubies. This is said to be the largest haul made by a house thief in some time, the aggregate value of the stolen property aggregating several hundred dollars.

The thief or thieves—the police think two or three persons were concerned in the affair—ransacked the structure from garret to basement. Entrance was effected by prying open a door of the basement with a coal chisel, which was left in the back yard.

Included in the stolen articles are a diamond locket, a diamond cravat pin, ringed with rubies, silver inlaid toilet articles and silken garments. Several novelties were also carried away.

One of the boldest thefts in months was reported this morning from the railroad yards. A moving picture machine, with films and accessory material, the property of J. Yamaguchi, a Japanese, was stolen from a car lying in the yards of the Northern Terminal company. The machine was evidently carried away while a number of employees were working around the yards. It cost \$200.

EXPLOSION IN POWDER MILL KILLS EIGHT MEN

Berlin, Dec. 14.—Two buildings of the powder works at Reichenstein, Silesia, were wrecked by an explosion today and eight workmen killed.

The cause of the explosion is entirely unknown, but is supposed to have occurred in the mixing room. The explosion was of such force that window panes were shattered a distance of a mile.

FOR FURTHER ARBITRATION

New York, Dec. 14.—In order to obtain an expression of local opinion favorable to international arbitration, and especially to the treaties recently negotiated to that end by Secretary Hay, a public meeting will be held in Carnegie hall tonight. Among the invited speakers are Mayor McClellan, Governor Odell, Bishop Potter, Carl Schurz and John Mitchell of the miners' union.

ROCKEFELLER SQUEEZES OIL PRODUCERS AGAIN

(Journal Special Service.)
Toledo, Dec. 14.—Following the announcement of another munificent gift to the University of Chicago by John D. Rockefeller, comes the expected cut in the price of from 3 to 5 cents in the price paid by Standard Oil to producers of crude oil in the eastern fields. Operators have come to expect this cut immediately after the making of large gifts by the head of Standard Oil, and they are seldom disappointed.

INJURED IN MINE

(Special Dispatch to The Journal.)
Vancouver, B. C., Dec. 14.—Tom McGillivray, while working in the Nahaltment mine at Vancouver island Wednesday, was severely injured by the premature blowing out of a shot which he was tamping. One eye was blown out, his left arm broke in three places and also badly lacerated. The mine is owned by a Portland syndicate.

WHAT DO YOU CARE? YOU'VE GOT YOUR HEALTH

Great Natures Do Not Despair at Disappointment — They Look for Something Else to Do.

The broad-gauged man of today does not get blue just because things don't always come his way unless there is something the matter with him. If he "falls down" on one proposition he immediately starts to look up another. He always looks forward and keeps on hustling. A man with his health and faculties has plenty of opportunities, and the man who gives up or even feels like it has either a small nature or some physical weakness.

Dyspepsia certainly puts the best of men out of condition for work of any kind. You cannot blame the dyspeptic for getting blue. The very nature of his disease is most depressing and calculated to deprive him of ambition, energy and hope. There is hope for him, however, certain and sure. Sturt's Dyspepsia Tablets are recognized throughout the length and breadth of the land as the one cure that's safe and sure. Their unbounded popularity—resulting from the thousands and thousands of cures they have effected, prove beyond the shadow of a doubt their greatness as a cure. Wherein lies their greatness? In the very fact that they are Nature's own simple remedy. They do the exact work in exactly the same way that the digestive fluids of the stomach do, because they are composed of exactly the same elements and possess the same properties. They relieve the weak and worn-out stomach of its burden of digestion and permit it without let or hindrance to rest and grow sound and well. The stomach will get well quick enough in its own natural way if it is let alone. That is what Sturt's Dyspepsia Tablets do. They not only let it alone themselves, but make the food takes into the stomach do the same.

You can satisfy yourself of the truth of this statement by putting the food you would eat into a glass jar with sufficient water and one of Sturt's Dyspepsia Tablets. The process of digestion will be taken up and carried out just as the gastric juices and other digestive fluids would do it. Their action is natural and they cause no disturbance in the digestive organs. In fact, you forget you have stomach when they begin to do their work, so mild and natural is the operation. Sturt's Dyspepsia Tablets are for sale by all druggists at 50c a box.

FOES IN COUNCIL

(Continued from Page One.)

for molestation from the Lawson people at all. Amalgamated opened at 45 1/2, an advance of \$1 over the closing of yesterday. It quickly began to climb higher and had only natural setbacks once in awhile. It closed around 66 1/2, showing an advance for the session of \$2.02 1/2.

Achison stock also had a good day of it and did not even have an encounter with the usual bear element. It closed at 162 1/2. Its advance amounted to \$1.62 1/2.

Sugar Refining stock was quite strong today on heavy buying by Amalgamated brokers and closed at \$2.42 1/2, higher, around 14 1/2. American Smelter also had a material rise; showing an advance for the day of \$1.87 1/2.

St. Paul received its share of today's trading and closed the session, showing a gain of \$2.50 from that of yesterday. Chicago & North-Western did not have much activity, but it closed strong \$1.25 higher.

Chesapeake & Ohio and Colorado Fuel & Iron each gained \$1.37 1/2 from yesterday's closing. Canadian Pacific was strong on a good statement and rose \$1.75. Illinois Central, which is considered the junior Vanderbilt stock, advanced \$2 from yesterday with the closing around 64 1/2. Louisville & Nashville was up the same amount and closed strong at 49 1/2. Missouri, Kansas & Texas preferred was full of surprises on account of its strength. It showed a gain of \$2.75 today. Car Foundry opened at 31 1/2 and went to 33 at the close. Its advance today was \$2.25.

The sales up to the noon hour amounted to only 464,100 shares. This is considered a very small volume of trade, considering the activity shown in the principal stocks on the list. The total sales for the day amounted to \$16,500 shares, a small gain over yesterday. It showed too plainly that the general public is not in the market and that practically all the buying is being done by the recent combine of financial interests in order to arrest the Lawson movement.

Lawson Hunts Up Greene.
The fact that Mr. Lawson had a conversation with Mr. Greene is significant. Mr. Greene was sitting breakfast at the Hotel Touraine this morning. Lawson sent in his card to the gentleman, who had called him a liar, a charlatan and other bad names. He then waited nearly an hour for Greene to finish his breakfast. On meeting, the two men shook hands cordially and went immediately into Greene's room. Mr. Greene was accompanied by a friend, and Lawson by Mr. Thayer of Everybody's magazine.

The following broker's views were expressed over the private wires of Overbeck, Starr & Cooke Co. of this city: Logan & Bryan—The stock market closed strong and at the best prices of the day. At no time throughout the session did it halt or hesitate, but advanced steadily under the leadership of aggressive buying in United States Steel stocks. It has been by far the best market we have had since the recent depression. The action of the better class of securities in today's market indicates some little investment buying in anticipation of January 1 disbursements. Underlying conditions are unchanged. The action of the market today is certainly most encouraging to the investing public.

Mrs. Chadwick's reputation in Cleveland shows her what a difference there is between having lots of money and being broke.
