WRIT OF REVIEW IN LIQUOR CASE GRANTED

(Special Dispatch to The Journal.) Roseburg, Or., Dec. 24.—Judge J. W. Hamilton of the circuit court, yesterday granted a writ of review governing the order in the election case, issued by the county court of No. 10 county, and the petition asking for it was filed by Max Wells, a brewer and ice manufacturer of this city. The case will be argued next Monday. It was stated by the attorneys of Wells that the chief right would be made on the fact that in the petition nothing was asked for the precincts, but as for the county as a whole.

On the ballots there also was not anything to indicate that the election was to prohibit liquor in the precincts, as well as in the county as a whole. The petitioners ask that only a "wet" state, there are six saloons in the precinct, is very important to those who are backing the move.

GOVERNMENT OFFICIALS JUBILANT OVER MATTER

Permanent Quarters Secured and Surveying Parties Bually Engaged.

(Special Dispatch to The Journal.) Klamath Falls, Or., Dec. 24.—The secretary of the committee appointed to organize a Water Users' association to act in conjunction with the government in bringing about national irrigation in Klamath county is beginning to receive returns from blank subscriptions sent out to various members of the committee. Before with government officials in different portions of the county, and last week the secretary sent to them blank subscription for the purpose of inducing land-owners to enter into the government irrigation project.

There are 200,000 acres all told to be brought under government irrigation. About 250,000 acres lie in Klamath county, and the remainder lies in California. Before the government would proceed with the work, it required a majority of the landowners, or persons representing more than one half of the land lying under the proposed irrigation scheme, to subscribe the same in the form of stock.

The secretary has received reports showing that more than 40,000 acres has been subscribed to the scheme. Some of the commitments made only held the papers a few hours before receiving subscriptions of hundreds of acres. Under the reports sent in, 11,000 acres are subscribed at Swan Lake, 12,000 at Lead valley, 17,000 in the neighborhood of the town of Merrill, and 1,200 acres lying near the town of Keno.

The secretary and government officials are jubilant over the matter and expect to have the required amount will be subscribed. The government officials have rented permanent quarters for the winter, have a large corps of draftsmen and clerks in the building and have three surveying parties in the field taking the levels of the lands and the depths of the lakes and rivers. They declare that they will be able to place water upon the arid lands of Klamath county within the next six months, and enthusiasm prevails here such as has never been experienced in the interior before.

WHEN THEATRE GOES SMOKE.

From the Philadelphia Record. "You wouldn't suppose on the first thought that there is any connection between the state of the drama and the retail tobacco trade," says a man who runs a cigar store close to one of the downtown theatres; "but there is such a connection, and it is a close one. On any night when the theatre has a musical comedy show or anything of that kind I get twice the business I do when the performance is a comedy, drama or tragedy. Now that I have pointed out the thing you see the reason of it, of course. The lighter forms of entertainment, in which the bunching of good-looking chorus girls is a feature, is attended largely by men who go by themselves. They go out between the acts in crowds, but during the play and after it is over my business is good.

"But with the other kind of show, even though the house be crowded, the bulk of the audience consists of couples. Men take their wives or their sweethearts, and as a general rule sit still between the acts to discuss the play. The difference is so marked in my business that I can't help but be satisfied and the fact is so well established

ATTORNEY ACCUSES GOVERNMENT AGENT

Charged With Inducing Persons to Institute Contests of Homestead Rights.

WILL ARREST SHERIFF.

(Special Dispatch to The Journal.) Klamath Falls, Or., Dec. 24.—Oscar O. Stone, an attorney recently from Portland, has caused a sensation in Klamath county by charging W. P. Scott, a land agent, with inducing persons to institute contests of homestead rights. He charges that Scott finds a good tract of land and after investigation also finds that the original homesteader has not complied technically with the homestead laws, and then goes and induces other persons to institute a contest. Instead of reporting the matter in regular order to the government.

The point was raised in the case of J. D. Seaton vs. Daisy Ralston, in which Stone objected to Scott's wife, who is a stenographer, taking the evidence in the case, on the grounds that Scott had really instigated the contest, and Stone did not think Mrs. Scott a disinterested person.

The matter is now before the Lakeview land office, and should it go against Miss Ralston, Stone's client, the attorney says that he will bring the whole matter before the department, and produce proofs substantiating the allegations against Scott.
