O. E. F. Belmont's Plans.

It has been stated that Oliver H. P. Belmont is going in for the breeding of heroughbreds on an extensive scale. Ike all the Belmonts he has always seen more or less interested in racing. It. Belmont has not followed the fashion of many of the young men of great realth, who have gone in for breeding. Ind made his venture about New York. He has an abiding faith in the virtue of blue grass for thoroughbreds, and has leased the Falkland Stud at Lexington. Ky, and if things shape themselves right will buy it. Ethelbert will lead its stud for the present. There was some talk that Mr. Belmont intended to buy the famous Belle Meade farm at Nashville, but this rumor has no foundation. It is understood, however, that mastern parties are negotiating for the fannessee property and will continue it as a great breeding establishment.

One of the newcomers on the turf his year will be George Gregory of this city, who has a string of fice horses that will be raced on the metropolitan tracks. They will be handled by John R. Todd, one of the oldest and best known trainers in this country. Todd has been ill for a long time and is just recovering his health. He is the man who trainers health. He is the man who trainers health. He is the man who trainer Albert Vale, when he won at odds of 200 to 1 at Chicago in 1899. A few days later he got the horse home again a winner at odds of 50 to 1. Twice again within the next week he won with Albert Vale; the odds in each case being 12 to 1.

A number of noted racing men from this country and abroad have visited. New York during the week. Among them was George M. Hendric of the Highland Park Jockey club of Detroit.

"The decision to hold one meeting at Keullworth instead of two looks to me like a wise one." said Mr. Hendric, "and the fact that the dates clash with a part of our meeting at Highland Park will not materially affect either course according to my way of thinking, and on broad grounds the one meeting idea is a good one. President Lucas of the Pacific National league is on his way to Spokane to attend the annual meeting of that league, which convenes early in January. The Portland club is not the only organization in the Coast league that is threatened with law suits, for Jack Hickey has brought swit against the Beattle club for salary alleged to be due him.

It is reported that Parke Wilson is to exchange Waldron to Seattle for Yan Haitren, as Van is a great favorite in San Francisco and not much of a one in Seattle. Waldron is a valuable man and Seattle wilt not suffer from the trade.

ANSWER FILED TO CASTRO COMPLAINT

Portland Baseball Club Glaims That Clever Shortstop Is in Their Debt.

TROUBLE WAS STARTED BY MANAGER DUGDALE

Ball Player Was Discharged When Fans Declare He Was Making Good.

Louis Castro owes the Portland Base all company \$669.25. The Portland Baseball company owe outs Castro \$870.

The Portland Baseball company owes Louis Castro \$870.

These are two propositions that will be decided as to the correctness of each, by trying out the case before the circuit court. Castro sued the baseball company for \$876, alleged to be due him for salary unpaid. Castro was signed as shortstop for the past season, and was played at various positions, in fact, every position on the team, excepting pitcher, first base and catcher. He was discharged at San Francisco by Dugdale, manager, on September 3, and the accounts between the player and the club at that time form the material for the legal squabble now on in the courts.

It is the general understanding among the "fans" that Castro "made good." but that he could not work in harmony with Dugdale, and that his discharge was due to that, rather than to his incompetency as a player.

At any rate Castro was released by

petency as a player.

At any rate Castro was released by Dugdale, manager, and he then entered suit against the company, for what he claimed was due him. Bauer & Greene, attorneys for the club, yesterday filed their, answer te Castro's complaint, in which they set forth that, instead of the company owing Castro, Castro owes the company \$663.25, money drawn by Castro at various times during the season in excess of his salary to the time of his release and they therefore pray the court for judgment against Castro for that sum.

A curious phase of the controversy is that Castro, discharged by Dugdale, manager this season, is now negotiating with Walter McCreedie, the new manager, a conference having been arranged for yesterday or today between the exshortstop and the new manager. Castro may be signed for the coming season.

Baseball "fans" are much interested in the case, and they are discussing pro and con the merits of the legal controversy now going on. They assert quite generally that Ely, president of the club, was satisfied with Castro, believing that he was a valuable man, but that it was solely on account of his disagreement with Dugdale that he was released.

Here are some of the things you could do if you understood the jlujitsulan science. You could break the arm or wrist of a man by a blow with the open hand; you could defeat the purpose of a hold-up man, give him the 'Vital Touch' and kill him instantly, it is the most successful form of physical exercise ever known. Gen. Bunemon Nit. Professor Ringier and 15 little Japs will show you how all this can be accomplished on Thursday night at the Marquam theatre. The fact that a Japanese policeman, can arrest a man, conquer him if he be ugly, without abusing him by using a club or billy, has appealed to Chief Hunt and he will detail a number of policemen to witness the performance. St. Paul, Dec. 25.—Action against the General Paper company and its numerous branches was yesterday instituted in the United States court. The action consists of a petition filed by District Attorney Haupt, Frank B. Kellogg and James M. The petition seeks to enjoin and restrain the defendants from doing business through the General Paper company as sales agent.
