We Newill Riverview Academy

Is essentially a home school for boys, where each pupil receives individual attention, where the teachers and principal take a personal interest in all the boys, participate in their sports and in their joys, and sympathize with them in their sorrows, thereby gaining the esteem, confidence and affection of every pupil. The table is most generous and wholesome, and the home life as nearly perfect as we can

The Academy is delightfully situated on an emipence overlooking the beautiful Willamette, and the ads adjoin those of a small city park. Two ar line's pass the doors of the Academy, thus affordplea sant and easy access from the heart of the

The buildings of the Academy are sufficiently arge and are maintained in a thoroughly cleanly and realthful condition, according to sanitary principles. It is the aim of the principal and his corps of assistants to encompass the resident pupils with an. tmosphere of refinement and homelikeness, and their environment conforms to such requirements as nearly as possible.

Athletics

The most important duty for an educator to disharge is to keep the boys in his charge busy. The by who loafs is the boy who is in trouble most of

During the football and baseball seasons it is comparatively easy to exact discipline. At other times t is more difficult. For this reason the privilege of membership in the famous Multnomah Amateur Athletic Club has been turned to account, for, during the first five months of the year, attendance twice a week at the regular gymnastic classes conducted by Professor Krohn is compulsory.

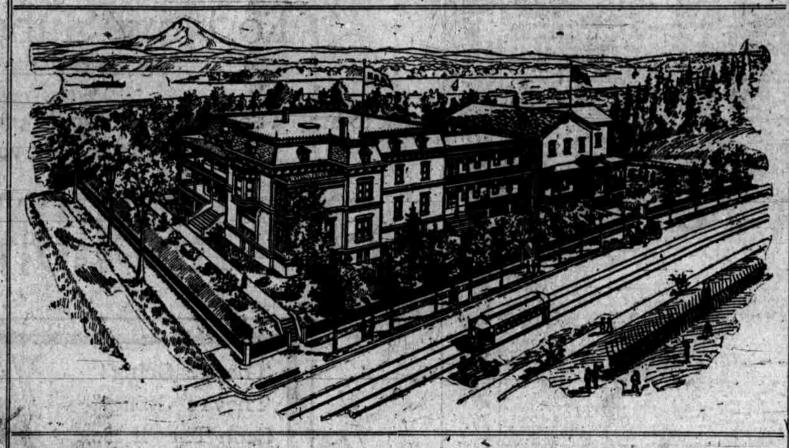

A billiard table has been placed in the boys' parlor and encouragement is given, under the direction of eachers, to all legitimate amusements.

Course of Study

The course of study, from the time a pupil enters the primary department until he graduates from the academic, demands the most careful and exact work of which a pupil is capable. The instructors are most competent and conscientious, and they base the success of their efforts upon their unceasing regard for thoroughness. Students are prepared for

business or college.

A daily record of recitations is kept, examinations are given every ten weeks, and quarterly reports are sent to parents.

The records are kept in a large register designed especially for this purpose, and are open at all times to the inspection of parents.

Frequent letters, detailing the progress of their sons, will be sent to parents by the Principal.

Students whom Mr. Newill and his teachers have

prepared have been admitted to Harvard, Yale, Co-lumbia, Cornell, West Point, Annapolis, Georgetown, Ann Arbor, Stanford, Berkeley and many other institutions.

Discipline

Aside from the regulations enforced by the military training and customs, the discipline of the Aschool and household is best expressed and exem-plified by the rules governing polite society in every phase of social intercourse. Unselfishness and a thoughtful regard for the comfort and wishes of others are the foundation of true, gentle manhood, and will fit a boy for any circumstances in life, whether in school or out of it. Ceaseless vigilance, untiring energy and enthusiasm, personal attention to every detail and consistent patience and firmness, are the methods in vogue at the N. R. A.

DIAMOND BRICK CO.

SERIES OF SERMONS ON

Temple, has arranged to preach a unique series of sermons on the little word "If." He will begin tomorrow night, and continue them each Sunday through the month of January. The dates and topics are as folows: January 1, "If I Had My Life to Live Over Again," January 8, "If I Were a Young Woman," January 15, "If I Were a Young Man," January 12, "If I Were a Millionaire;" January 22, "If I Were a Millionaire;" January 29, "If I Were a Preacher." In order to make these sermons as practical and helpful as possible, Dr. Brougher invites the reader to write him concerning the topics suggested, and specially to answer the following questions: Young man, if you were a young woman, what kind would you be? If you were a millionaire, what would you do with your money? If you were a preacher, what kind would you be? Answers to these questions will be used in the Sermons, but the writers names will not be made public.

WILL OBSERVE WEEK OF PRAYER IN ALBINA

Several churches in Albina have arranged to observe the week of prayer, the first week of January, by holding union services. The meetings will be as follows: Monday evening, 7:30 o'clock, at the Rodney Avenue Christian church, corner Rodney avenue and Knott street, subject "Revival, and How to Secure It," leader, Rev. J. Bowersox. Tuesday evening, at the Third Baptist church, corner Vancouver avenue and Knott street, subject "Prayer," leader, Rev. A. M. Rockwell. Wednesday svening, at Central Methodist church, corner Russell and Kerby streets, subject "Duty," leader, Rev. H. H. Pratt. Thursday evening, at the United Evangelical church, corner f underwear, 296 shirts and es of wearing apparel were for the clothing, 307 meals led for the hungry and 286 r the homeless; rents were families.

a total attendance of 13.

Chemistry.

A splendid opportunity is afforded for the study of unorganic chemistry at the Y. M. C. A. night school. The labora-tory will accommodate three more men. The next term begins Monday, January 2. The fees are \$6 for a three month's term. This covers the cost of chem-icals.

A GIRL'S JAW AND A STORY.

From a St. Paul Special.

Miss Neille Stover, daughter of Mrs. Kate E. Stover of 60 Summit avenue, laughed so heartily at a story told by one of a party of friends at her home that she dislocated her jaw. She suddenly ceased laughing and sat with her mouth wide open and a pained expression on her mouth. She could not close her mouth until a surgeon was called and her jaw reset.

This is the story that caused Miss Stover to dislocate her Jaw:

"A man was shaving when he cut off the end of his nose. He dropped the rasor, which cut off his big toe. The doctor put the pieces back in place and cemented them with radium water, but accidentally transposed them. They grew together nicely. Now the man has to trim a toe nail at the end of his nose and take off his shoe to meere."

OREGON TRACTION CO.'S PLANS ARE DELAYED

1904 Pianos

THE JANUARY 1, 1966!

Three planest cases damaged in shipping; several shop-work planes; some discontinued styles, and a number of planes we have called in from rental. All of the above planes, beside many we have taken in exchange as part payment toward the purchase of some of our new Steinway, Estey, A. B. Chase, Strobber, Emerson and others of our leading planes, are now being offered at prices far below their real worth. It will pay you to see them.—
Basy payments accepted—old instruments taken in exchange.

STEINWAY PIANO

People on Northrup and Overton railway company, and several property owners from Northrup and Overton streets were present. As there was no quorum, the franchise could not be con-

It was suggested by Councilman Rumelin that the engineer of the com-pany take all the members of the coun-cil over the territory, at which time the selection of the street will be made. This suggestion will, in all probability, be followed.

Council Committee Will Examine
Territory and Select Thoroughfare for Line.

The company desires to enter the city over either Northrup or Overton street and run east to Twelfth. From Twelfth the line will turn north to Stark and east on Stark to First street.

It was stated yesterday by a representative of the company that everything is in readiness to begin the construction of the road as soon as the franchise is securing a franchise for its line within the dity.

According to the survey, the road is to enter the city on Northrup or Overton street. Property owners protestegainst

WOULD WRITE OF THIS GREAT ARTIST IN IVORY

There is something about Paderewski, who gives his only concert in Portland next Wednesday at the Armory, Tenth and Couch streets, that arouses the deep personal interest of his auditors. There is a subtle, indefinable atmosphere which enwraps the hearer; and the atmosphere surcharges the hall, whether it be large or small. The brilliant woman who signs herse-f "Israfel," once wrote:

"Now every artist has his own fastinctive tone-color with which he informs his art. As you would write of Greig in silver, and Maeterlinck in chrysuprase, and good old Omar in ruby, so I would write of Paderewski in ivory, if mere words had color—smooth, polished, luxurious tones, lit from within by a strange white glow—these are yeritable massenses of the soul, manipulating its every nerve with the skilled tenderness of the sympathetic phychologist, refining on exquisite shades of emotion, waking the whole keyboard of feeling with sure sensitive touches."

The sale of reserved seats will open next Monday morning in the lobby of the Marquam Grand theatre at 10 o'clook. No subscription list. Now every artist has his own instinct-

CEINA AND BURNIA.

The hursay of statistics provides in recent issues of the consular reports tables showing the trade for many years of the United States with China and with Russia. The former was by far the greater every year of the past 20. We sold last year \$12,382,000 worth of goods to China and bought from her \$29,342,000 worth. The year before we sold \$18,000,000 and in 1902 \$24,000,000 worth.

Russia bought of us last year \$19.544,000 and sold us \$10,712,000. War preparations accounted for much the largest purchases on record. In six years we have sold much more to China.

canchise being granted on Northrup t, and ask that the road be built Overton street; people on Overton to say they will never consent to an electric, line built in front of homes, but are willing that the FOR USE OF BRIDGES

Commissioners Will Fix Rates to Be Charged Roads Crossing the River.

Early next month the county commissioners will fix rates to be charged the electric rallway companies for the privilege of running cars over the Burnside and the Madison street bridges. According to the agreement the city will derive the benefit of all money collected from the electric roads for a like privilege over the new Morrison street bridge. When the Madison street bridge was sold to the city 10 years ago, the East Bide Rallway company obtained a contract with the city for running cars over the bridge for a period of 30 years for a monthly rental of \$100. The Oregon Water Pewer & Railway company, as successor to the East Side Railway company, claims to succeed to this right. The county court is disposed to raise this rate, it is said, and an attempt will be made to break the agreement on the ground that the sum received is not sufficiently large.

Before the consolidation of the City

Before the consolidation of the City & Suburban Railway company and the Portland Railway company both lines were using the Burnside street bridge, and it was expected that \$500 a month would be received from these companies for the use of the bridge next year. Now that the companies have been consolidated it will be necessary to fix a new rate.

For the use of the Morrison street

rate.

For the use of the Morrison street bridge by the railway company the city will receive not less than \$1.000 m year to be applied to the interest on the bonded indebtedness incurred to construct the bridge. This may be increased to such amount as the city council may desire. At present the county receives \$150 a month from the City & Suburban Railway company for street car privileges over this structure, but this will now be lost.

From the St. Louis Chronicle.
"My neighbor has one of the best trained dogs I ever saw. It's wonder-

"Huh, one of my neighbors has some-thing more wonderful than that. He has a well trained boy."
