Mrs. Ross Hathaway, who conducted a rooming house at 2014 Third atreet, was his assailant. She desired, and told her troubles to Attorney Hitchings. He agreed to provide detectives who would shadow the husband until sufficient evidence was obtained to secure the separation.

Before the present session of the legislature opened the Democratic city council prepared certain amendments which they caused to be published in the Astoria papers. They also invited suggestions for further amendments. After a full opportunity for discussion so lill was framed which was introduced by Burns. When Tuttle handed Jagger the substitute bill this morning Burns demanded to know where it came from but Tuttle would not say. Burns examined the bill and says it is practically the same as the one vetoed at the last session by the governor. Apparently a scheme is on foot to reconsider the committee's report and substitute Tuttle's bill for that of Burns, in which event there will be war by the sea.

Reseburg. Or. Jan. 20.—Although the coroner's jury in the case of "Jack" Rogers, the timber cruiser, whose death resulted from builst wounds a few days ago, returned a verdict that the man had been murdered by a person or persons unknown, the local authorities have, so far been unable to lay the crime at any one's door.

One amazing theory advanced is that Rogers accidently dropped his revolver, a Colt's 28-calibre, and upon striking the floor it was discharged, the builet killing Rogers. This theory, while borne out by marks discovered which would lead to this belief, is, however, exploded when it is taken into consideration that the pistol was found in the dead man's pocket. The cheerful theories, however, presents the idea that the revolver bounced back into Rogers' pocket as he fell.

Another blow to the theory of accident is that there are no powder marks ness stand today. Friend George and Friend John were co-operating to convict
