

PAPA AND THE MINISTER GET A RIDE ON WILLIE'S WINDMILL SLED

Dear Tommy—I've just built a windmill sled. I enclose a diagram so you can make one like it.

It goes like an express train before the wind, or any other way.

Papa tried it, and was having lots of fun, when he got excited and broke the brake string.

That rattled him, and he went zigzagging all over the pond.

The minister dodged, but couldn't get out of the way; so Papa picked him up.

Finally they struck a snag, and the sled went to pieces. Then maybe I didn't get it! Yours, Willie.

PRETENDING PERCY GETS INTO THE SNOW SHOVELING BUSINESS
