ORE EXHIBITS IN OREGON INCREASE

Grants Pass and Sumpter Fitting Up Permanent Headquarters for Good Displays.

TWO PORTLAND EXHIBITS ARE BEING ADDED TO DAILY

Miners May Take Up Question of Permanent State Exhibit After Fair.

The Grants Pass Miners' association is rapidly equipping a permanent exhibit room with ore from the entire district tributary. Several volumes of the United States geological survey publications have been placed in the exhibit room, and it is the purpose of the management to enlarge this feature by putting in a good sized library.

At Sumpter the miners are also putting in a permanent exhibit. At the meeting held early in the week committees were appointed to look after the building and commence gathering ores. Contributions of money were made and arrangements were completed for equipping the room.

Ore exhibits are becoming more general in Oregon than for years. Formerly the rich specimens of private individuals were about all that could be seen. The exhibits at the Union depot, of this city, and at the Chamber of Commerce rooms, is constantly being enlarged. Mine owners seem to appreciate the value of having representative collections of ore where visitors may view them, and the general movement no doubt will result in a great state exhibit in a short time, possibly at the close of the Lewis and Clark exposition.

ORE VALUATION IS AN IMPRACTICAL BASE

(Special Dispatch to The Journal.)

Olympia, Wash., Feb. 10.—There is no prospect that the mine taxation bill introduced by the representative from Ferry county will become a law. This measure provides for basing assessments on the net value of ore in sight in mines, which most operators regard as impractical. Before taxes could be collected under this law, argue the mining men, the assessor would have to be an expert engineer, or have in his employ engineering talent capable of examining and reporting on every mine assessed. The cost and time involved would be prohibitive, and it seems quite certain that the bill has never been given serious consideration.

ROSSLAND SEES GOOD MINING YEAR AHEAD

(Special Dispatch to The Journal.)

Rossland, B. C., Feb. 10.—Since the board of directors of the Le Roi announced reappointment of A. J. McMillan as general manager of the entire properties of the company, and plans for the present year have been outlined, there is a brighter prospect about the mine that made Rossland famous. Discovery of higher grade ore on the 1,300 level has been perhaps the most stimulating influence. This, with the more satisfactory saving effected in milling, and better practice finally established at the smelter, combine to give Le Roi an encouraging aspect. The camp generally is more hopeful. Le Roi No. 2 has been doing excellent work. The War Eagle and Center Star, under the new management, are showing up better. The extensive improvements being made on four or five properties will increase their tonnage materially. The year will no doubt be one of the best for substantial, permanent results known to the Rossland district.

Worry Goes To The Stomach

Tears down the little Telegraph Lines that Operate and control the Digestive Processes.

How To Repair These Telegraph Lines.

I Will Gladly Give Any Stomach Sufferer a Full Dollar's Worth of My Remedy Free to Try.

I ask no deposit—no reference—no security. There is nothing to risk—nothing to pay, either now or later. Any stomach sufferer who does not know my remedy may have a full dollar's worth free, if he merely writes and asks.

I willingly make this liberal offer because Dr. Shoop's Restorative is not an ordinary stomach remedy. It does not, indeed, treat the stomach itself. It goes beyond—it treats the nerves that control and operate the stomach. The nerves that wear out and break down and CAUSE stomach trouble. For stomach trouble is really only a symptom that there is serious nerve trouble inside. That is why ordinary remedies fail. That is why my remedy succeeds. That is why I can afford to make this offer.

Yet do not misunderstand me when I say "nerves." I do not mean the nerves you ordinarily think about. I mean the automatic stomach nerves over which your mind has no control. I have not the space here to explain to you how the nerves control the stomach, or how they may be vitalized and restored. When you write I will send you a book which will make these points clear. But this much is certain—ailing nerves cause all forms of stomach trouble—indigestion, heartburn, insomnia, nervousness, dyspepsia. No stomach medicine will cure these ailments. Only nerve treatment will do that. No other remedy than Dr. Shoop's Restorative even claims to reach these nerves.

Is your stomach nervous? Worry probably. Mental anguish destroys their tiny fibers and tears down the telegraph lines without which the stomach has no more self control than a sponge. Overwork will do it. Irregular habits will do it. Overeating will do it. Dissipation will do it, and the effect is the same—stomach failure.

No matter how these nerves become impaired—I know a way to rebuild their strength—to restore their vigor. It is a remedy which took thirty years of my life to perfect—a remedy which is now known in more than fifty thousand communities—more than a million homes—as Dr. Shoop's Restorative.

If you have stomach trouble and have never tried my remedy, merely write and ask. I will send you an order on your druggist which he will accept as gladly as he would accept a dollar. He will hand you from his shelves a standard sized bottle of my prescription, and he will send the bill to me. This offer is made only to strangers to my remedy. Those who have used the Restorative do not need this evidence. There are no conditions—no requirements. It is open and frank and fair. It is the supreme test of my limitless belief in that I have and to do is to write, write today.

For a free order for Book 1 on Dyspepsia, a full dollar bottle, Book 2 on the Heart, Book 3 on Nervousness, Book 4 for Women, address Dr. Shoop, Box D 872, Racine, Wis. Book 5 for Men, which took first prize. Book 6 on Rheumatism.

Mild cases are often cured by a single bottle. For sale at forty thousand drug stores.

Dr. Shoop's Restorative

HONGKONG COPPER IS RESHIPPED TO JAPAN

(Special Dispatch to The Journal.)

San Francisco, Cal., Feb. 10.—Exportation of copper to the orient continues at an enormous pace. Little doubt remains in the minds of mining men that the extraordinary demand is largely from Japan, although the heaviest shipments are made to Hong Kong. Japan imports a large quantity direct, but the unprecedented shipments to Hong Kong and other parts of China, which have increased ten-fold since the Russo-Japanese war began, satisfy observant ones that Japan is receiving a large portion of this also, perhaps in some manufactured form. The effect has been to reduce the visible supply in America greatly and stimulate the market. The year 1905 is expected to see copper climb above 14 cents for a permanent position.

TAKILMA SMELTER TO RESUME NEXT SPRING

(Special Dispatch to The Journal.)

Grants Pass, Or., Feb. 10. — While there has been no recent development of importance at Takilma indicating the time when the smelter is to blow in again, citizens of Grants Pass have assurance that early spring will find the plant operating. The management has continued development work quite steadily on the Queen of Bronze, Cowboy and the Lyttle. The drifts from the deepest cross-cuts have been opened in good ore, placing it in position for easy stoping. The winter's work will undoubtedly open sufficient reserves for permanent smelting, when the management connects the properties with the smelter in such a way that the ore may be delivered as fast as it is needed.

WILL BLOW IN SOON.

(Special Dispatch to The Journal.)

Davenport, Wash., Feb. 10.—The management of the Tark Mining company gives assurance that the improved mineral smelter erected on that property is to be blown in again soon. Since the company increased its capital stock and put a heavier fund in the treasury, the scope of operations has broadened. The management believes the smelting plant being tested will ultimately prove satisfactory, and will give it full opportunity by replacing whatever part is defective. The company has mines capable of producing smelting ore, and intends to make this or some other furnace a success.

ROADS DELAY MILLING.

(Special Dispatch to The Journal.)

Grants Pass, Or., Feb. 10.—Milling at the Lucky Queen, in the Joe district, is delayed by condition of the roads. Ore has to be hauled by wagons from the tunnels to the mill, and recent weather has left the highway in bad condition. The management will improve the roads sufficiently for constant hauling after work is commenced in earnest. The mill has been in readiness for a short time, the tests given proving it to be an excellent plant.

LARGER FORCE ASSURED.

(Special Dispatch to The Journal.)

Myrtle Creek, Or., Feb. 10.—The Yellow Jewel mining property, near this place, which has been examined recently by prominent mining men, will work a larger force throughout the season of 1905. The showing for the depth attained is exceptionally good, and no doubt is felt by the owner that he will have sufficient backing to develop the Yellow Jewel thoroughly.

PROSPECT IS SHIPPING.

(Special Dispatch to The Journal.)

Baker City, Or., Feb. 10.—The Mattoon Mining company is still shipping to the Sumpter smelter. This young property of the Pocahontas district, which is in charge of A. W. Butler, is reported to have an exceptionally fine body of ore in the lower level recently established. The rock will be shipped as rapidly as it is broken down in the course of work.

RECEIVER IN CHARGE.

(Special Dispatch to The Journal.)

Baker City, Or., Feb. 10.—Since the appointment of John Veri as receiver for the Golconda there have been no developments of importance in its affairs. The move seems to be pursuant to the plans inaugurated recently, whereby foreclosure is to be pressed, leaving the stockholders the opportunity to redeem or make other provision for liquidation of the indebtedness.

BEAVERTON MEN HAVE PRELIMINARY HEARING

(Special Dispatch to The Journal.)

Hillsboro, Or., Feb. 10.—August Rossi, of Beaverton, and Lewis Tullock, of the same place, had their preliminary hearing before the justice here yesterday. August Rossi is proprietor of the saloon that was entered and damaged by Mrs. Reed a few weeks ago. Both Rossi and Lewis Tullock were charged with selling and giving liquor to the minor son of Mrs. Reed. They were each placed under $100 bonds to appear before the circuit court in March.

FRIEND TO STRIKERS LOSES MINE CONTROL

(Special Dispatch to The Journal.)

Council Bluffs, Ia., Feb. 10.—Since it was demonstrated at the annual meeting of the Portland Gold Mining company that James F. Burns, president, did not have control of a majority of the stock, there has been much speculation as to the future policy of the company. Mr. Burns in the separate report submitted of operations criticised the present management, charging it with economic mistakes. However, this has not redeemed the former manager for his attitude at the time of the great Cripple Creek strikes, when he was charged with lending the tremendous influence of the Portland mine to the aid and comfort of the strikers.

The profits for 1904 were but $814,000, or nearly $100,000 less than for 1903. Development work prosecuted during the year was in excess of 18,000 feet, bringing the total development of the Portland up to 31 miles. Up until June the milling costs in the great plant of the company had been reduced to $3.25, but after the mill superintendent of the new regime entered this was materially reduced.

RED FRONT INTRODUCTORY SALE

Is now in its height of glory. No sale held in the city has ever been so successful. We were crowded all day last Saturday—let it be so today. We regret we were unable to wait on all last Saturday, but have an extra force of salesmen for this Saturday, so there'll be no waits. The entire stock, consisting of $30,000 WORTH OF MEN'S AND BOYS' CLOTHING sacrificed at

MEN'S SUITS and OVERCOATS

Hundreds of styles to select from in hand-tailored, swell-fashioned garments—garments that are only equaled by the tailor-made ones. See them for your own conviction.

Choice of 48 different styles of Medium or Winter Weight Overcoats, short or moderately long—garments that sold at clearance sale for $10.00 and $12.00. We defy competition and could only do so by losing money, but it's our way of advertising and to reduce a large stock **$5.95**

Forty different styles in Fall and Winter Hand-Tailored Overcoats. The latest fashioned, and the very best linings. These garments wear and retain their shape like garments that will cost you elsewhere $15.00, $16.00 and $18.00, but as a way of introducing our new name, the "Red Front," we sell them at actual cost. Every purchase can be returned if not satisfactory—your money back without quibbling **$7.95**

Your full choice of 60 different styles of the very best hand-tailored, union made garments to be seen in the city, in all the new materials, some silk lined, in fall and winter weights. (We have Cravenettes at this price, too.) These garments are unequaled and we give a positive guarantee of satisfaction with every one sold or money readily returned. See them. Our only excuse for the price is to introduce ourselves **$10.40**

Your full choice of a half hundred different patterns in All-Wool Scotch Suits, hand-tailored, serge lined, self-retaining shape. You can't buy them elsewhere in the city under $10.00 to $12.00 at the great clearance sale prices now in progress **$5.95**

Hand-Tailored Suit, a selection from 65 different styles and patterns—suits that you pay at clearance sales from $15.00, $16.00 and $18.00 for. These are to be had in tweeds and cashmeres, in mixed and staid colors. No equal to these garments, and our future reputation is squarely behind them **$7.95**

Choice of over 78 different patterns and styles are here to select from at this price. Not a single old style garment in the lot. Suits that our clearance sale competitors are selling for $18.50, $20.00 and $22.50. They are hand-tailored from imported tweeds and cashmeres, the very best quality of goods, fashioned the latest, made by union workmen. Actually we are selling these garments at cost—just to advertise the Red Front **$10.85**

Youths' and Boys' Suits and Ov'rcoats

Well tailored and fashioned to suit the most fastidious youth, while the boys' suits are the kind the mother likes—they wear and look well.

Youths' Suits and Ov'rcoats

Choice of 28 different styles of new all clay worsted, cheviots and fancy mixed materials. Not a suit here is worth less than $10.00, and that's what you'd pay at so-called clearance sales. We lose money, but what's that if we get your trade in the future and your confidence. Remember, the Red Front. Overcoats at same price **$5.85**

Choice of 33 styles of Suits in clays, serges and cheviots; best hand-tailored, swell styles—all materials imported; single and double breasted. (Overcoats same price to match.) Every suit is the essence of style, fashioned the latest. We make alterations. We can afford to lose on these if we get the young man's confidence and his trade in the future **$7.85**

Boys' Suits and Ov'rcoats

All $2.00 Suits ..... 95¢

All $2.50 Suits $1.25

All $3.50 Suits $1.75

All $4.50 Suits $2.25

All $5.00 Suits and Overcoats $2.50

All $6.00 Suits and Overcoats $3.00

All $7.00 Suits and Overcoats $3.50

All $8.00 Suits and Overcoats $4.00

Better grade if you wish to pay more. We are long on Children's Clothing.

EXAMINATION OF TEACHERS ENDS

Twenty-Three Applications for County Certificates and Four for State.

(Special Dispatch to The Journal.)

Corvallis, Feb. 10.—Today the teachers' examinations that have been in progress at the courthouse are to close. There were 23 applicants for county certificates and four for state papers. The latter are Miss Maud Mattley, Mrs. Nellie Tunnison, Miss Fleming and Miss Marvet. The work of examining has been done by Prof. N. Tartar, Prof. O. V. White, of Philomath, and Professor Denman, of Corvallis.

Preparations are under way for a teachers' institute, to be held in Corvallis a week from next Saturday. Prof. T. A. Hayes and S. A. Richardson, of Albany, will assist in the work.

Mr. and Mrs. S. L. Kline have departed for San Francisco for a stay of indefinite length.

Prof. and Mrs. E. C. Maywood entertained at whist Tuesday evening in honor of Miss Winnifred Miller of Eugene. The first prize was taken by Miss Mabel Withycombe, and the consolation by Professor Shaw. The occasion was enjoyed.

The Ladies' Coffee club is to give a dancing party in Firemen's hall Monday evening.

Lewis Hollenberg, of the firm of Hollenberg & Cody, is expected home today from a trip to Iowa.

John Mills, of Salem, was a visitor in Corvallis this week.

SALOON MEN ON TRIAL.

(Special Dispatch to The Journal.)

La Grande, Feb. 10.—There are six saloon men on trial in La Grande before the circuit court, which is in session here, for keeping their places of business open on Sunday. In the election here last September gambling was closed in the city and the opening of saloons on Sunday prohibited.

No man can cure consumption. You can prevent it, though. Dr. Wood's Norway Pine Syrup cures coughs, colds, bronchitis, sore throat. Never fails.

OFFICERS ELECTED.

(Special Dispatch to The Journal.)

La Grande, Feb. 10.—Officers have been elected as follows for the Pine Needle company, near Summerville, 18 miles from this city: R. M. Ramey, La Grande; A. E. Davis, Portland; J. T. Woodell, Summerville; Turner and Mrs. Oliver, La Grande. This company manufactures fibre and oil from pine needles.
