tions for the inauguration of President Rooseveit are rapidly nearing comple-tion. The city will be illuminated for three nights on a scale never attempted before. A special feature will be made of that part of Pennsylvania avenue extending from Fifteenth street to Seventeenth street on the north front of the white house grounds. This sec-tion has been designated the Court of Honor, and many pillars of classic shape will be erected at frequent intervals. From these pillars novel effects in electric illumination will be displayed. The cath of office will be administered to President Rooseveit by Chief Justice Fuller in front of the main entrapec-the capitol, where a stand for this pur-pose will be constructed. The president then will deliver his inaugural address. He will take his luncheon at the capitol before heading the brilliant inaugural parade up Pennsylvania avenue to the executive mansion. The body of the pa-rade will be divided into two grand di-visions, military and civic, and will be a notable pageant in many respects. A body of Rough Riders will form the president's personal secort, and another a tractive feature of the parade will be a large number of Indian chiefs in na-tive costume. In addition, there will be regular troops, militia companies from many states and detachments of millors and marines.

TO REFUTE THEORY OF
