

BURNS TO MEET "TWIN" SULLIVAN Chicago Led is Scheduled for a Twenty-Round Battle With Crack Boston Man.

FIGHT TO TAKE PLACE BEFORE TACOMA CLUB

Larry McKenna, a Portland Man, is Now Manager of the Chicago Boxer.

Tommy Burns, the crack middle-weight boxer of Chicago, who was brought to this city a few months ago to meet Dave Barry and who recently severed his connection with Billy Lavigne, who was his manager, has secured Larry McKenna of this city to look after his interests in the future.

Mr. McKenna is one of the best known young men in sporting circles on the coast, and his many friends are congratulating him on securing such a promising entry as Burns in this, his first venture as a boxing promoter.

Burns is a young man of considerable experience, and is rated by many of the best authorities on the boxing game as the coming champion in the middle-weight division.

When Burns first came to the coast he was matched against Billy Woods at Seattle, who was then rated as the best man to beat in the west, and in their 20-round battle he made the colored lad look like a novice, but as the fight went on, and many of the Seattle sports had watched on Woods, the best Burns got was a draw.

In the last battle Burns had, which took place at Ballard, Wash., on January 31, he easily demonstrated his class by knocking out in six rounds Indian Joe Schildt, who is rated as one of the toughest propositions in the northwest.

Immediately upon securing the management of Burns, McKenna secured a match for his entry with Jack (Twin) Sullivan, the well known middleweight of Boston.

This bout is scheduled for Tacoma and the date of the affair has been fixed for March 7.

Sullivan, who recently boxed a draw with Kid McCoy, at Los Angeles, and is one of the foremost men in his division today, passed through Portland on his way to Tacoma Thursday afternoon, and is now in active training at the place.

Burns and his manager leave for the sound city tomorrow night, where they will commence training for the coming bout.

Second of Tommy Burns. Tommy Burns was born at Hanover, Ontario, on June 17, 1881, and is 5 feet 7 inches in height and fights at 145 to 155 pounds.

His complete ring record follows: 1900—Fred Thornton, knockout, Detroit, 5 rounds; Fred Thornton, knockout, Detroit, 5 rounds.

1901—Billy Walsh, knockout, Detroit, 8 rounds; Archie Steele, knockout, Detroit, 3 rounds; Ed. Scholtreu, knockout, Detroit, 1 round; Billy Walsh, knockout, Detroit, 5 rounds; Dick Smith, won, Mt. Clemens, 10 rounds.

1902—Dick Smith, knockout, Mt. Clemens, 3 rounds; Reddy Phillips, knockout, Lansing, 9 rounds; Tom McCune, won, Detroit, 10 rounds; Mike Schrock, draw, Detroit, 10 rounds.

1903—Jim O'Brien, won, Detroit, 10 rounds; Dick Smith, knockout, Detroit, 2 rounds; Reddy Phillips, knockout, Detroit, 3 rounds; Harry Peppers, knockout, Detroit, 2 rounds; Tom McCune, knockout, Detroit, 7 rounds; Jimmy Dugan, knockout, Houghton, 3 rounds; Bill Moore, won, Houghton, 10 rounds; Jack Hammond, knockout, Saulte Ste. Marie, 3 rounds; Jack Butler, knockout, Saulte Ste. Marie, 3 rounds; Jack O'Donnell, knockout, Evanston, 11 rounds.

1904—Ben O'Grady, knockout, Detroit, 3 rounds; George Shrober, knockout, Chicago, 5 rounds; Mike Schrock, draw, Milwaukee, 6 rounds; Tony Campion, draw, Chicago, 4 rounds; Tony Campion, draw, Chicago, 4 rounds; Joe Wordnick, knockout, Salt Lake, 1 round; Cyclone Kelly, knockout, Tacoma, 4 rounds; Billy Woods, draw, Seattle, 15 rounds; Philadelphia Jack O'Brien, won, Milwaukee, 6 rounds; Indian Joe Schildt, knockout, Ballard, 4 rounds.

Dr. B. E. WRIGHT The Scientific Basis that relieves all pain in dental operations.

A great deal is said in these days about Liquezone. Millions are telling of the good it has done; for one home in five—wherever you go—has some one who Liquezone has cured. This remarkable product has become the talk of the world. In the past two years, the sick of nine nations have come to employ it.

But so great a good could not be done to humanity without harming the interests of a few. The consumption of medicine has immensely decreased. The popularity of the few physicians who cling solely to drugs has diminished. And in numberless homes where Liquezone is in daily use, sickness has been almost banished.

These facts have injured some interests. And a few of the injured attack what they blame for the injury. They denounce that which has done the good.

The usual method is to insinuate that Liquezone itself is a medicine; that, despite our claims, it is a compound of acids and drugs.

Such statements are oft repeated; and we cannot doubt that some are led to believe them.

Our answer to all is this: The virtues of Liquezone are derived solely from gas, by a process requiring immense apparatus and from 8 to 14 days' time. The gas is made, in large part, from the best oxygen producers.

Nothing whatever enters into the product save the gas and the liquid used to absorb it, plus a touch of color.

And, to emphasize this answer, we offer \$5,000 to any one who can disprove it.

In this business, methods which are subject to criticism are most carefully avoided. We permit no misrepresentation; no claims which have not been fulfilled. Our product is too vital to humanity to be laid open to prejudice.

What we say about Liquezone is true. What we claim it can do, has, again and again, been done. And in any disease which we claim that Liquezone will help, we assume the whole risk on a two months' test with every patient who asks it.

Before we bought the rights to Liquezone, it had been tested for years in thousands of the most difficult cases obtainable. We found that diseases which had resisted medicine for years yielded at once to it. Sickness which had been pronounced incurable was cured.

The value of the product was placed beyond possible question, before we staked our fortunes and reputations on it. It was amply proved that, in germ troubles, Liquezone did what medicine could not do.

Then we gave the product away—gave millions of bottles, one to each of millions of sick ones. We have published no testimonials; no evidence of cures. We have never asked a soul to buy it.

We Offer \$5,000 As a Guarantee on Liquezone. The First Bottle is Free.

But so great a good could not be done to humanity without harming the interests of a few. The consumption of medicine has immensely decreased. The popularity of the few physicians who cling solely to drugs has diminished.

These facts have injured some interests. And a few of the injured attack what they blame for the injury. They denounce that which has done the good.

The usual method is to insinuate that Liquezone itself is a medicine; that, despite our claims, it is a compound of acids and drugs.

Such statements are oft repeated; and we cannot doubt that some are led to believe them.

Our answer to all is this: The virtues of Liquezone are derived solely from gas, by a process requiring immense apparatus and from 8 to 14 days' time.

Nothing whatever enters into the product save the gas and the liquid used to absorb it, plus a touch of color.

And, to emphasize this answer, we offer \$5,000 to any one who can disprove it.

In this business, methods which are subject to criticism are most carefully avoided. We permit no misrepresentation; no claims which have not been fulfilled. Our product is too vital to humanity to be laid open to prejudice.

What we say about Liquezone is true. What we claim it can do, has, again and again, been done. And in any disease which we claim that Liquezone will help, we assume the whole risk on a two months' test with every patient who asks it.

Then we gave the product away—gave millions of bottles, one to each of millions of sick ones. We have published no testimonials; no evidence of cures. We have never asked a soul to buy it.

Our method has been to buy the first bottle ourselves; to let the sick try it without the cost of a penny; to let the product itself prove its power.

Most of you know the result. There is no neighborhood—no hamlet so remote—but knows some wonders which Liquezone has wrought.

And Liquezone is probably doing more to cure sickness, and to prevent it, than all drugs, all medicines combined.

How petty is that self-interest which would have you go back to the old methods—to the days before Liquezone! Back to the time when the very cause of disease was unknown, or when no one knew how to meet it!

CORBETT HOPES FOR VICTORY

Denverite is Confident That His Recent Defeat Was Caused by His Imperfect Condition.

NELSON IS FAVORED AS THE BETTER MAN

Naughton Says That the Opinion of the Bay City Sports Favors the Dane.

(Special Dispatch by Leased Wire to The Journal) San Francisco, Feb. 25.—The dreary grind of training is coming to an end for Young Corbett, and in a few days he will know what called him in his last fight with Battling Nelson.

But looks and liveliness are not everything in a case of this kind. Corbett's appearance at present tells plainly that he has labored as he never labored before.

Students of Game Favor Nelson. The matter is a nutshell is as follows: Among the form students of the boxing game there are comparatively few who believe in the poor training that caused Corbett to go under in the last fight.

Corbett does not like to hear it reported that he has seen the best of his fighting days.

"Any one who talks that way must be crazy," said Corbett a day or so ago.

"Just look at facts. Here I am, not 25 years of age, yet a mere kid, you may say. How can I be placed in the same boat with fellows old in years, and who are all burned out. You couldn't even compare my case with Terry McGovern's. Terry is a fellow who has ceased growing, and between the hardest spells of fat, that comes off quickly. The way I feel about it is that I haven't begun my career as a fighter yet. I'm an athlete right now, and I don't know that I ever really felt like an athlete before. No sir, you mustn't class me with the has-beens yet awhile."

Providing unforeseen circumstances do not arise the winner of the Corbett-Nelson contest will be matched with Jimmy Britt in March. Each of the principals in Tuesday night's affair is looking forward to a battle with the "Pondy" as the eastern writers call Britt, and each has shadowed out his program for a continuation of training.

As the match with Britt will call for 112 pounds, which is two pounds heavier than Nelson and Corbett are to box at, the winner of Tuesday night's battle cannot afford to allow his weight to go up a few pounds before settling down to his preparation for Britt.

Nelson says he will loaf a couple of days before returning to "Smiling" Metzner's Larkspur headquarters. Corbett, if he is returned winner over Nelson, will keep right along at Shannon's villa, San Rafael, but will not resume his schedule of work for a few days.

BIG LACROSSE MEET PLANNED

New Westminster to Hold Championship Contests During Coming Dominion Fair.

NEGOTIATIONS OPENED WITH THE BEST TEAMS

It is Proposed to Make It the Greatest Meet Ever Held in Canada.

(Special Dispatch to The Journal.) Vancouver, B. C., Feb. 25.—It is likely that the greatest lacrosse tournament that has ever taken place in the world will be held in New Westminster during the progress of the Dominion fair in September and October next.

Just what terms will be offered the game this summer all over the dominion will take part.

The fair management intends making this a special feature and the many Americans from the eastern states who will be visiting the Lewis and Clark exposition and who will undoubtedly visit New Westminster, will have an opportunity of witnessing the fastest teams in Canada play for the world's championship.

to sweat again, there will be little fear that I'll become stale or feverish."

A Few Days Made at Every Moment. It is said that a few negotiating bids have been made on Corbett and Nelson at given money. In the ordinary course of pugilistic events, when one boxer defeats another as easily as Nelson defeated Young Corbett, the winner becomes a topsy-turvy favorite in the event of a second meeting.

Uttal within the past couple of days, reports, purporting to come from Lakspur, made it appear that Nelson—as having great trouble in getting to weight. It was also told that Nelson's left arm was in bad shape—that he could not raise it to his face.

Some of us who have known about Nelson's defective left for many moons, have wondered whether the faulty condition of the arm may not be responsible, indirectly, for the butting tactics the Dane occasionally employs when fighting. Everybody knows what a rapid, two-handed workman Nelson is in the ring, and it is just possible that to correct the stilted action of his left arm he—when at times—buts, and unintentionally. The sporting fraternity may rest assured that Nelson will be at weight, and that his condition will be as good as usually is. This means a great deal, for month in month out, no better trained boxer than Nelson ever steps into a ring.

Moreover, the left arm will be as good as it was when he arrived in these hospitable wilds. It is the same left arm he had with him when he defeated Martin Canole, Eddie Hanlon and Young Corbett. It isn't at all unlikely that the arm and weight stories were started in the fear that the backers of Corbett would be asking too much odds.

To Cure a Cold in One Day. This Laxative From Quinine Tablets. All cases refused the money I will be glad to give E. W. Grev's signature on each box.

MORE ABOUT HUGHES DEAL

Manager McCreedie Says He Made the Deal With Russ Hall in Good Faith.

WANTS NO QUARREL WITH SEATTLE CLUB

Local Manager Leaves for California Tonight—Catcher Swindells is Signed.

Article 20 in the rules and regulations of the National Association of Professional Baseball leagues may be of interest to the local fans on account of the present controversy between Seattle and the Lewis and Clark club.

"Should a club of any association agree in writing or by telegraph with another club of an association, subject to the national agreement, for the purchase of a player, and then under contract or reservation with or by it, in accordance with the rules governing, either party may file said agreement with the secretary of the board and should any club refuse to comply with its said agreement, the board may require said agreement to be complied with, and may transfer the said player accordingly."

Manager McCreedie states that he has not been informed of the re-handling of the deal closed, as I was instructed to refuse to comply with its said agreement, the board may require said agreement to be complied with, and may transfer the said player accordingly.

McCreedie regrets the present controversy with Tacoma, and is wishing his friendship for the town, but is urging this chiefly to show Mike Fisher that he is not running the league.

Manager McCreedie leaves tonight for San Francisco, where he will interview President Herz and present Portland's status of the Bakersfield controversy to the league's chief in person.

From San Francisco the manager will go direct to the training quarters where he will await the arrival of the players who are expected to reach there during the latter part of the week.

October Swindells Signed. Charles J. Swindells has been secured by Portland from the St. Louis and will play extra-inning for the local team during the coming season. Swindells is a graduate of Stanford and is well known to the fans of the northwest, having played with the Tacoma, Spokane and Butte teams in the Pacific National league. He was purchased from Butte by St. Louis last summer, and made an excellent showing in the big league. He is practicing law at Bellingham at present, but will leave for Portland in time to accompany Van Buren, Gleason and St. Vrain when they start from this city for Bakersfield next Wednesday evening.

As he has a game scheduled with the Bakersfield team for next Sunday, Manager McCreedie expects most of his men to be there by that date.

To Engage a Trainee. While in San Francisco the Portland manager will endeavor to secure the services of Dave Barry or Harry Foley to train the Portland players. All the principal eastern teams now engage the services of a training expert during the few weeks previous to the opening of the season, as their services have been found to be of great value in getting the muscles of the players into shape for hard work at the start of the season.

What Liquezone is

The greatest value of Liquezone lies in its germicidal powers. It is a

germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.

Yet it is absolutely harmless to the human body. Not only harmless, but helpful in the extreme. Even a well person feels its instant benefit.

Liquezone is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be given internally. Medicine is almost helpless in dealing with inside germs.

But germs are vegetables; and Liquezone—the very life of an animal—is deadly to vegetable matter. This fact—above all others—gives Liquezone its value. There is no other way to directly end the cause of any germ disease.

Germ Diseases These are the known germ diseases. Nearly all forms of all these diseases have been traced to germs, or to the poisons which germs create.

These are the diseases to which medicine does not apply, for drugs cannot kill inside germs. All that medicine can do is to act as a tonic, aiding nature to overcome the germs. But those results are indirect and uncertain. The sick cannot afford to rely on them. And no one needs to now.

Liquezone alone can destroy the cause of these troubles. It goes wherever the blood goes, so no germ can escape it. The results are almost inevitable. We have seen them so often, in every disease in this list that we have come to rely on them. Liquezone has proved itself so certain that in any stage of any of these diseases, we will gladly send to any patient who asks it an absolute guaranty.

Reduced Rates to California. The Southern Pacific company has placed on sale round trip tickets to Los Angeles at the rate of \$5, limit 30 days. This affords an excellent opportunity to visit the many beautiful winter resorts of southern California at a moderate cost.

EASTERN CHAT OF THE HORSE

Question of Racing Dates Still Puzzling the Followers of the Runners.

PROGRESS IN CLUB'S POOL TOURNAMENT

Standing of the Players in the Handicap Games at the Multnomah Club.

The results in the Multnomah Athletic club pool tournament to date are as follows:

Table with columns: Player Name, Won, Lost. First Class: H. P. Holmes (1-0), G. McMillan (1-0), M. S. Mulford (2-0), C. Second Class: S. L. Banks (0-1), E. Ford (0-1), S. J. Harder (1-0), K. T. Long (1-1).

Following is the schedule for next week's play: Monday, February 27—George McMillan vs. M. S. Mulford, S. L. Banks vs. E. Ford.

Tuesday, February 28—M. Dunne vs. M. Schacht, A. S. Frohman vs. J. R. Grek.

Wednesday, March 1—George McMillan vs. C. W. Zeller, S. L. Banks vs. S. J. Harder.

Thursday, March 2—M. Dunne vs. T. Zachrisson, E. Frohman vs. J. R. Grek.

Friday, March 3—E. Ford vs. S. J. Harder, M. Ross vs. M. Schacht.

MORLEY SECURES FRANK DILLON (Continued from Page Eight.) him up to Spokane. But Morley argued that he had a prior contract with Dillon and declined to surrender him.

The matter finally went up to the national commission, which decided that the award made at the time the Pacific Coast league entered the national agreement would have to stand. Morley thought he proved to the court of last resort that his contract was prior to Hanlon's, but in this particular case the decision did not hinge on this question, as it did in the case of Thielman, who was claimed by St. Louis. Portland demonstrated to the national commission that its contract with Thielman was prior to that of the St. Louis club and the decision was rendered accordingly.

Cut Out this Coupon

For this offer may not appear again, fill out the blank and mail it to The Liquezone Company, 455-464 Wabash Ave., Chicago.

My disease is... I have never tried Liquezone, but if you will supply me a 50c bottle free, I will take it.

Name... Address... City... State... Send no money. We will ship you a 50c bottle free.

Secretary of the Queens County Jockey club, is authority for this statement. According to the latest story that is going the rounds of the circles, and one which has been stamped authoritatively in to the effect that an effort will be made during the present session of the legislature to have passed a bill increasing the membership of the state racing commission from three to five.

The principal contention advanced in favor of such a move lies in the fact that it will largely do away with the cry that racing in this state is conducted in the most unbusinesslike manner. It will also remove the objections of disgruntled owners of race courses who have contended that favor has been shown to certain tracks in the matter of the annual allotment of dates and licenses.

That some move to effect a change in the complexion of the commission would be made during the present session of the legislature has been reported some time ago. It was at first believed that an effort would be made to replace August Belmont as chairman of the commission, and the name of Clarence Mackay as his successor.

Those who are vitally interested in the situation, however, and who are in a position to talk, admit that it is almost a foregone conclusion that Governor Higginson will reappoint the present members of the commission at the expiration of the present term of office on May 1.

Many eastern turfmen who have been closely watching the course of events in the western turf war, which was officially inaugurated at New Orleans last Saturday with the opening of Panama Park, are of the opinion that the clash will be of short duration. That it will be a losing game for the west is a truism. It will also remove the objections of disgruntled owners of race courses who have contended that favor has been shown to certain tracks in the matter of the annual allotment of dates and licenses.

A Wonderful Invention. The Electro Radiator advertised in another column, the invention of William Rickards of Los Angeles, is doubtless one of the greatest health-giving apparatuses in the world. It operates as a blanket beneath and above the body, heating the person to a degree as much as can be endured, and at the same time sending a perfect shower of electricity through the entire system. It has, indeed, a thousand virtues, expelling as it does, every lot of poison from the system, and with the poison out of the blood no food for disease is left.

Thomas A. Edison were the inventor he would readily clean up his millions out of this contrivance. Every hospital in the world would be buying them by the dozen. Professor Rickards is giving free treatments to all who will call at his residence, northwest corner of Fifth and Lincoln, for one week only. If any sick person reads this, no matter what the disease, that one should call immediately and be relieved.
