when he drove up to the county jall, however, to convey the prisoner to the train he was greatly surprised to find that the relatives of the young man had just sworn out a complaint charging him with insanity, and that the examination was being conducted at that time. Winslow is well known in Salem, as his parents, who are honored and respected farmers, reside a few miles west of here in Polk county and the young man has practically made this city his home. He seems to have an affinity for crime and has been behind prison bars several times. Just before the time that it is alleged he forged the checks in Pendleton he served a term in the jail there for stealing a bicycle. It is confidently believed by many who know him that his insanity is feigned, thinking thereby to soon be able to regain his freedom.
