# FIRST ADDITION GROWING RAPIDLY

## Fifty Houses Erected There in the Year Since the Tract Was Opened.

## MOST OF THESE ARE BUILT FOR HOMES

## Fifteen Residences Now Being Constructed and Several More Are Planned.

The east side office of The Journal is in the store of Mrs. F. W. McKinney, 390 East Morrison street. Telephone East 276.

There is perhaps no new suburb of Portland that is making a more rapid growth than the First addition, the tract lying between East Twenty-eighth and East Twenty-ninth and East Burnside and East Hoyt streets. A year ago the tract was named and placed upon the market, and in that time 50 residences, many of them of considerable value, have been built. At present there are half a dozen planned, work on which has not yet been started. The speculator and contractor have not promoted the growth of the suburb and practically every house was built as a home by the man who expected to make his permanent residence there. While the houses have not been unusually high in price, but few cheap houses have been built and the $1,600 to $2,500 home is the rule. Some of the houses that have been recntly completed, or that are now in the course of construction, are:

An $1,800 residence for R. W. Cook, between Twenty-ninth and Thirtieth on Couch.

A $2,500 house at East Davis and East Twenty-ninth streets for F. A. Lincoln.

A $2,500 residence for Catherine Linden on East Flanders between East Thirtieth and Thirty-first streets.

J. S. Hutchinson, house on East Flanders between East Thirtieth and Twenty-ninth streets at a cost of $2,500.

At the corner of East Glisan and Thirtieth streets an $1,800 residence has recently been completed for Harriet Smith.

Henry Swint will soon occupy his new residence at East Glisan and Thirtieth streets, the cost of which will be $2,500.

A residence costing $1,800 is being built at East Glisan and Thirtieth streets.

Harry Menzer has built an $1,800 residence at Thirtieth and East Glisan.

Joseph Selliger is having built an $1,800 residence on East Everett near Thirty-first street.

John Herlocker has recently completed a $2,000 house at East Twenty-ninth and East Glisan streets.

P. L. Reed is having constructed a house at Oregon and East Twenty-ninth streets, the cost of which will be $1,500.

James E. Blackburn will soon occupy a $2,500 residence recently built on East Davis near Twenty-ninth street.

R. C. Brooks has a house nearing completion at East Davis and East Twenty-ninth strtets, its cost being $2,000.

Two houses costing $2,000 each have been built by Van W. Anderson on East Thirtieth near East Davis.

J. J. Richardson is erecting a house at East Flanders and East Twenty-ninth streets at a cost of $2,500.

Mr. Richardson is also erecting three houses at East Twenty-ninth and East Glisan streets, the total cost being more than $6,000.

## GYPSIES BOTHER MILWAUKIE

**Romany Movers Settle in the Town and Refuse to Depart.**

Milwaukie has been afflicted with a band of gypsies for the last week and various expedients have been resorted to in the hope of inducing the roving tribe to move, but Romany refused to roam. The band is composed of 30 men, women and dusky children, and the dress, tents and habits of the company prove them gypsies of the ancient vintage of Romany. Their tents bear strange devices, one of which looks like a coat of arms. The women wear bright silk headdresses and the men rejoice in velveteens and wide-brimmed black hats.

The camp of the band is pitched near the mouth of Johnson creek west of the car barns, and for some time the curiosity of the residents led them to perch on the high banks and watch the free show in the camp below. But when grimy children began to tumble in the streets, lean dogs of bad temper devoured family pets, dusky women besought the honor of reading a palm for a dime, and fierce looking bravos usurped the best fishing grounds, the Milwaukie officials began to hear complaints from their fellow citizens, and several days ago the leaders of the tribe were told to move on by the mayor.

The gypsies, however, could not move on, because they had no wagons, and how they transported their tons of baggage is still a mystery to the townsmen. After days of argument and parleying the gypsies finally secured transportation by boat to Portland, and in their own good time will probably pull up their ancient tent pegs and embark. Meanwhile hen roosts are doubly locked and the Milwaukie dog stays under the front porch.

## HAVE BARBER, WANT SHOEMAKER

Milwaukie wants a shoemaker. Last week it was a barber, but when the shaving tonsorial read that there was an opening in Milwaukie they began to journey to the town and the empty shop will probably soon be occupied. But a shoemaker is desired ardently. Shoeless citizens walk through the dust to Sellwood, men who have lost their soles load down the Sellwood baker with their old shoes and send them to the nearest workman; farmers who break a tug or split a collar fill the air with their complaint when they arrive in town and discover there is no leather artist within three miles, and the rising generation has gone barefoot ever since the frost left the ground. In addition to this, a nice shop has been kindly prepared by the citizens of the place for a shoemaker, and the man with an awl and long-nosed hammer will receive a cordial welcome.

## CHILDREN WILL AID PUSH CLUB.

It is probable that the school children of Mt. Tabor will aid the Push club of the place in its campaign of cleaning up the district. The work of Principal Adams has for some months been along the line of civic improvement, and the classes have been interested in the cause of better home surroundings. It is proposed by the teachers that the club or business men furnish wagons and the children will show their good will by loading these with the rubbish of a hundred vacant lots, which otherwise will not be cleaned. In other suburbs the improvement clubs have offered prizes to interest the children, and money has been paid the boys to clean up vacant lots, but the Mt. Tabor children are ready to do the work for the exercise involved, if they are given an oppertunity.

## WILL CLEAN UP PENINSULA.

The University Park Improvement league has prepared 300 letters urging the citizens of the Peninsula to clean up their own property and such vacant lots as may lie near them, and this week these letters have been mailed. Though the work has devolved on a few of the leaders of the new club, they believe that the result will repay them, and that practically every resident of the peninsula will be willing to follow the suggestions offered.

## RALLY AT UNIVERSITY PARK.

An excellent program has been arranged for the entertainment that will be given tomorrow evening by the Civic Improvement club at Artisan's temple, University Park. Wynn Johnson will be one of the speakers and other interesting features have been arranged. Refreshments will be served at the conclusion of the program.

## WOODMEN CONTEST CLOSES.

The contest between the two sides of the Woodmen of the World at Milwaukie for new members ended Saturday night with an oyster supper and general good time. The month's campaign resulted in receiving 64 applications for membership to the lodge, and so active was each party that the score at the close stood 31 to 33.

## EAST SIDE NOTES.

Mrs. Sabrina J. Reed died yesterday at her home, 1070 East Morrison street, from a stroke of apoplexy. The funeral was held this afternoon from the Holman chapel, Rev. T. B. Ford conducting the service.

At the mass meeting last night of Sellwood Republicans, Maj. G. C. Bell was elected chairman and J. F. Kerpchen, secretary of the Sellwood Republican club. A. N. Wills was indorsed for councilman at large and A. H. Richmond named as the precinct committeeman.

After long delay, work will soon be started on the graveling of Shaver street, between Mississippi avenue and Willamette boulevard. Shaver has already been macadamized to Mississippi avenue.

Four young Albany boys who should have been in school were found camped out near that town feasting on chickens that they had stolen.

# NO TONGUE CAN TELL

## How I Suffered with Itching and Bleeding Eczema

## UNTIL CURED BY CUTICURA

"No tongue can tell how I suffered for five years with a terribly painful, itching, and bleeding eczema, my body and face being covered with sores. Never in my life did I experience such awful suffering, and I longed for death, which I felt was near. I had tried doctors and medicines without success, but my mother insisted that I try Cuticura. I felt better after the first bath with Cuticura Soap and one application of Cuticura Ointment, and was soon entirely well. (signed) Mrs. A. Etson, Bellevue, Mich."

## SUCCESSFUL STREET MEETINGS.

Mr. McComb, of the Chapman evangelists, remains in town to carry forward his meetings at the corner of Third and Alder streets. Last night he was assisted by Dr. Clarence True Wilson of Grace Methodist church, and Rev. Mr. Atkinson of Epworth church, and several hundred stopped to hear the earnest messages of these workers. Many followed the speakers to Grace church for the evening service. The street meeting opens tonight at 6:45.

# NAB BOB WHO WAS ABOUT TO ROB RAB

## Sylvan Farmer Finds Three Armed Lads Trying to Steal His Eggs.

Arthur Westerman, commonly known as Robert, 16 years old, was brought to the county jail this morning by a farmer named Rab, who lodged a complaint that the boy, in company with two others, entered his barn with intent to commit robbery. Westerman admitted to Under-Sheriff Morden that he intended to steal eggs, but the fact that he was armed with a .32-caliber revolver and had a box of cartridges in his pocket is taken as evidence that he and his companions were prepared to essay some act in imitation of the bad men of whom they had read in the newspapers.

Rab lives at Sylvan, south from Portland, and made the arrest of young Westernman as he was about to enter the barn at the head of his small band of ambitious youngsters. Rab could not catch the others, but thinks he knows who they are.

When asked why he was armed when he intended to do nothing more desperate than steal eggs, the boy answered, "Just for the fun of the thing."

For the present a complaint of carrying concealed weapons will be made against Westerman. He is a son of a dairyman living south of Portland.

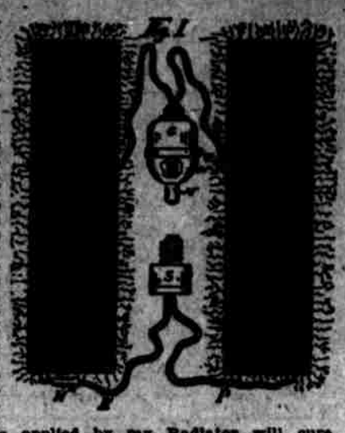
# I, PROFESSOR WM. RICKARDS,

## Want Patients Given Up as Incurable by Other Methods of Treatment, to Call and Examine My

# ELECTRO-RADIATOR



Do you know it has just been discovered what sunlight is the only effective source of relief to the awful cerebro-spinal meningitis epidemic raging in New York city? Why? Simply because SUNLIGHT is nothing more or less than ELECTRICITY.

Professor Tyndall in his work on "HEAT AS A MODE OF MOTION" has shown that the sun is the eternal source of all terrestrial energy—then electricity is surely the great source of all HUMAN or life energy, for the life energy in man or beast so far as physical energy is concerned, comes from the sun. It is upon this theory I have perfected my wonderful Electro Radiator and for the last four years have been curing people given up as incurable. I want everyone suffering from RHEUMATISM, STOMACH TROUBLE, ASTHMA, chronic diseases of all kinds, Dropsy, eczema or any disease caused by IMPURE BLOOD, a poor circulation, to come and take a free treatment. You are not taking a step in the dark—it costs you nothing if I can't demonstrate my treatment as applied by my Radiator will cure. Then you are only out your time in taking the free treatment.

It's not so-called Electric belt treatment. I get my electricity direct from the great electric power house. I can give you 120 volts, but there is not even the slightest shock, but on the contrary, a pleasant, soothing sensation when the current passes through you from head to foot. My Radiator covers the whole length of the body, and is so simple anyone can regulate the current. These machines are sold to individuals and can be used in any residence located in a town or city where there is an electric plant. Just make it a point to take an hour and come and examine my Radiator. You will never regret it. If you are not afflicted you may need one sometime. If you are a sufferer come in and take a free treatment. My Radiator is based on scientific principles and heat and SUNLIGHT are two of the great fundamental principles of my invention. Come in and I will explain it more fully, as I cannot do it justice on paper. First treatment free; 5 treatments for $5.00; 12 for $10.00.
