your feet are the center of some of your most sensitive nerves

The selection of properly shaped, well made shoes is imperative. The "Walk-Over" shoe improves the feet and the appearance of the man, too.

No chemically tanned skins used in the "Walk-Over" and they do not draw the feet.

They are made over foot form lasts, fit the foot and retain their shape.

That's the force of the name "Walk-Over" on shoes, and that's where their real value is realized.

\$3.50 and \$4.00

Requires no "Breaking-in." The only shoe "as easy as an old shoe" when first put on, is the "Walk-Over" shoe.
