

Meeting to Be Held at Portland Hotel Attracts the Attention This Week.

MINNESOTA POTATOES ARE DUE IN THIS CITY

Eggs Slightly Lower at Close of Week-Dressed Veal Has a Heavy Drop.

Front Street, April 22.-6 p. m.—The prin-tipal features of the Portland wholesals mar-bets the past week are: Menesota postatoes are due. Colorado potatoes are due. Colorado potatoes are due. Dersseel veal has big slump. Chickens stiff at formar price. Egg market is not so firm. Butter to drop and then stiffen. Changes in provision market. Receipts of strawbarries heavier. Gregon 'grass forces others out. High cherries come this week. Australis grapes solling high. Great interest in hop combine. Spring lamba are dull feature. Wheat trade is nominal. Oriental flour asles are heavy.

Oriental flour asks are heavy. Hop Combine Croates Interest. The news of the projected forming of the combine of the hop growers and dealers of the Pacific coast, which was exclusively told in The Journal Monday, has created a great deal of interest among the hop fraiternity. The meeting is scheduled for next Tuesday afternoon t 20.00ck, the Portland hotel being the sp-pointed place. The meeting was called by issac Pincus & Son, of Tacoma, one of the larger holders of hops in the computy. The idea of the meeting is to get all those who will have hops into a combine which will fave for its purpose the holding of stocks would justify an advance in prices and the lesting go of the supplies. At the present time, the hop market is in a rather compli-cated shape. There are quite a number of redors in the market at present values, but dealers are unable to purchase on account of the determination of the growers to hold until they see what will be accomplibed at the meeting next Tuesday. All the hop growers and deslers that can possibly attend will surely be there, for personal invitations have been then the market as A number of growers ers that can possibly attend will a for personal invitations have been in many instances. A number of grow-dealers in the state of Washington went out in many instances. A number of grow-ers and dealers in the state of Washington have siready signified their intention of at-tending and some will come from California. Preseivally speaking, the hop market seems a triffe more firm at the close of this week than it was during the previous period. The warmer weather all through the country is, of course, the more important factor, for hrew-ers will not feel like buying more readily at walket advance in prices than they would during the cold and rainy season when stocks could be obtained for less money. Those who still have large blocks of hops unsold are holding just as tight as ever, but it cannot be denied that some of the smaller growers are not quite so firm in their views. The meet-fing next Tuesday will very likely show which way the wind is going to blow. The only trans-action of importance moted during the week way the sale of the Fry lot of hops to is judged is the finest in the state and saturally its sale created some talk. The bops were purchased by Mr. Nucke during the that were early in the season at 320 a pound, the highest of the season being paid. Just what the hops were sold at by Mr. Moreke is unknown, as both huyar and seller refuse to say. By the beam the price is given as 25%, but is budged that the right price will be obtained. This is but a slight improvement over previous sales. Heavy Bales of Wool. In the essen part of the state sales of wool

Heavy Sales of Wool.

In the eastern part of the state sales of wool have been quite heavy during the past week. There is a fight on between manufacturers of woolen goods and buyers and each is trying to outdo the other in securing supplies direct from the grower. The fact that the past

wool men do not care to sell at present values. Mohair Prices Are Stiffer. The season on mohair is rapidly drawing to a close and the tone of the market is improved. Dealers are very anxious to purchase, but do not care to excite the market by calling atteu-tion to the great strength shown in market conditions. Prices continue to rule around the very top. Minagenta Potetors Are The

The very top. Minnesois Potatoes Are Due. Oregon has always been classed as a pro-diver of the very best Burbank potatoes that could be raised. This state has also had the reputation of raising very heavy supplies, which were sent to all parts of that territory west of the Rockies. This year there was a great miscalculation in the smouth of stocks grown and the reput is that supplies have are be-coming so short that potatoes are being brought in from outside places. During the week it transpired that about five care had been bought in Mintesota for delivery in this city and these were sent to all parts of that territory west of the Rockies. This yrear there was a great miscalculation in the amount of stocks grown and the result is that supplies here are be-coming so short that potates are being brought in from outside places. During the week it transpired that about five cars had been bouch in from outside places. During the week it is Minnesota for delivery in this city and these mer now almost due here. During the latter part of the week several cars of Colorido trutts there was a decline of about like per sold at tigures above the dollar mark. During the week there was a decline of about like per 100 pounds in the buying price on account of a similar frop in values in San Francisco. The onion market was firm all the way through, but stocks were light and prices nominally quoted at the top. Balmon Prices Are Made. At the sanuth meeting of the salmon canners of the Columbia River Packers' amo-ciation in Astoria Friday afternoon, the season's price on canneed ealmon was made. The PERSH MEATS-from sont strees. Dest.

bette stocks were light and prices nominally works at the top. Balmon Prices Are Made. At the sounds new same as almon canneers of the Columbia fiver, srhich was hold at the citation in Asteria Friday aftersoon, the season's price on canneed salmon, was made. The prices are fore, first 00 [1-97 works are lefts [1] first on canneed salmon market. The prices are fore, first 00 [1-97 works are lefts [1] probably be obtained by refusing to sail under that faure. THE C. GEE WO CHINESE MEDICINE CO. 353 Alder street, Portland, Or. State-way of 251% Alder street leads to af-fice. Mention this paper.

(Brech Dispets to The Journal.) Oragon City, April 22.-The last of the Clackamas county teachers' insti-tutes for this season, and one of the most successful, was held today at Park Place. The attendance was good. Nearly all the teachers of the county were present, and there were many vis-tiors from Portland and from points south-as far as Eugene. The season was presided over by County Superin-tendent J. C. Zimer, and the program was arranged by Mr. Zinser, W. Gilbert Beattle and Miss Fannie G. Porter. At noon a spiendid luncheon was fur-mished by the Mothers' club. Taptain Apperson made a very inter-seting speech on the agricultural work of the state. This contained much in-formation of values to teachers and was highly apprecisted. Trincipal D. P. Mathews of Canby the of 'Ethical Training,' and went into details of plans to improve the ment is and manners of the pupile. The aftermoon Principal W. Gilbert Beattle of West Oregon City told of the benefits of music in the schools for teachers on the work of the schools for teachers on the work of Molala made spectical address on "Elementary Ag-riculture,' and W. W. Dizon of Tangent told "How to Teach Geography.' ERNYROYAL CU
