## NOONDAY SALE

Tomorrow,  
Wednesday,  
April 26th

Canadian  
Money Ac-  
cepted at Par

More goods were moved at our Wednesday sale a week ago than during any other one hour's sale in the history of the house. Values equally tempting are listed below, and we are even better prepared this week to accommodate the throngs of buyers. Last Wednesday's sale introduced scores of articles to buyers who never had used them before, and our profit on these transactions rests solely in the trade we build up in these articles offered just once at these reduced prices.

Dozens of disappointed customers asked to obtain these prices after 1 o'clock last Wednesday, but in justice to all we were compelled to adhere to our strict rule to make not one sale (at these prices) after the gong strikes one. One lady pleaded that she was delayed by the power having gone off the trolley line, but we simply couldn't violate our rule to close the noonday prices at the end of noon. So, be sure and come as early as possible to avoid disappointment.

The gong rules the sale. The instant it clangs NOON, the prices drop; the instant it clangs ONE, the prices are restored.

Spring days are salad days, and Wood-  
lark Olive Oil is the best salad dressing.

### WEATHER IS GOOD FOR GERMINATION

Growth of Crops During the Past  
Week Remarkable—Soil is  
in Good Shape.

SPRING WHEAT SEEDING  
IS PRACTICALLY DONE

Best Sugar Acreage in Grand  
Ronde Valley Shows a Very  
Heavy Increase.

(Latest crop report of Department of  
Agriculture.)

The weather during the week has been  
favorable for germination and growth  
and the soil is in good working con-  
dition. A large amount of summer fall-  
owing has been done and the planting  
of corn, potatoes, sugar beets and gar-

### About Seal Rings

There's something more in  
the seal ring than the mere pos-  
session of it—it's the serving as a  
family heirloom. It, therefore,  
personifies the proper gold  
quality, the weight, the finish and  
the individuality of style. This  
you'll always notice in ours, with  
a special attention to workman-  
ship as well. The attractive  
prices are sure to be approved.

dens has been pushed. Spring wheat  
seedling, except on very low land, is  
practically completed. All grains, and  
grasses have made excellent growth dur-  
ing the week, and these crops are gener-  
ally in a very promising condition. The  
sugar beet acreage in the Grand Ronde  
valley has been considerably increased.  
Cut worms have made their appearance  
in the onion fields of Washington coun-  
ty, but the damage done by them has  
been slight. Hops are thrifty; the  
vines in many yards reach to the top  
of the poles and their training is in ac-  
tive progress. Stock everywhere is in  
fine condition; the flow of milk in the  
dairy districts is abundant; the increase  
of lambs is above the average, and sheep  
shearing has become general.

Peaches, pears, plums, cher-  
ries and apricots have been more or less  
injured by the late frosts; in some low  
localities very light yields are expected,  
in other sections the outlook is much  
better. The late varieties of apples have  
not bloomed as full as usual. Strawber-  
ries are doing well.

Grant District.  
Scappoose, Columbia county, J. C.  
Johnson.—Splendid growing weather;  
pastures in splendid condition; late ap-  
ples in full bloom and look very prom-  
ising.

Knappton, Clatsop county, Charles D.  
Warren.—Weather warm and favorable  
for crops; good prospect for early fruit;  
gardens look fine; grass growing well.

Bay City, Tillamook county, Captain  
J. J. Dawson.—Weather cloudy and  
damp, making the ground too wet to  
finish harrowing and covering oats; also  
for gardens, except the transplanting  
of cabbages; the plums, prunes and cher-  
ries that were nipped by the frosts the  
first part of the month are falling off,  
and the second crop of buds is bursting  
open; all grain, low land grass and tide  
land pastures growing rapidly; late ap-  
ples in full bloom; cultivated and  
wild berries indicate large yields.

Newport, Lincoln county, D. H. Wil-  
liams.—First part of week pleasant, lat-  
ter part showery; all vegetables growing  
nicely; potatoes up; pastures good; stock  
improving.

Myrtle Point, Coos county, L. Strong.  
—Weather favorable, but more rain will  
be needed soon; grass and grain growing  
nicely; farmers busy plowing and plant-  
ing; milk supply increasing rapidly;  
stock doing unusually well; fruit and  
berries in good condition.

Corbin, Curry county, W. F. White.—  
Alternate rain and sunshine; rain not  
severe; no snow nor hail; grass and gar-  
dens growing nicely; stock doing well.

Willamette Valley.  
Bridal Veil, Multnomah county, R. T.  
Smith.—Weather favorable and all crops  
doing nicely; fruit forward and, except  
Barlett pears, in good condition; spring  
sowing and potato planting progressing.

Tualatin, Washington county, George  
Gibbreath.—Heavy rains during the past  
week; frost Friday night damaged some  
early strawberries; cut worms are work-  
ing on some of the onions, otherwise the  
crop is promising; grain and clover do-  
ing well.

Stafford, Clackamas county, J. L.  
Krusen.—Weather very favorable for  
growth; rain Tuesday and Wednesday  
hindered plowing and seeding for a few  
days; winter and spring grain are in  
fine condition; early gardens making  
rapid growth; fruit seems to be unin-  
jured; grass in meadows and pastures  
growing nicely and stock improving;  
spring seeding well advanced.

Dallas, Polk county, Frank Butler.—  
A good rain Tuesday with a thunder-  
storm; all crops have made fine pro-  
gress; in my 29 years' residence here I  
have not seen so promising an outlook;  
goats all sheared; no sheep have yet  
been sheared.

North Yamhill, Yamhill county, J. T.

### 'PHONE INVENTOR'S DAUGHTER MARRIES

(Journal Special Service.)  
Washington, April 25.—A wedding of social note today was that of Miss Miriam  
Graham Bell, daughter of Professor and Mrs. Alexander Graham Bell,  
and David Grandison Fairchild. The ceremony took place at Twin Oaks, the  
country home of the bride's grandmother, and was followed by a largely at-  
tended reception. Mr. Fairchild is a botanist and has a long list of titles  
conferred at home and abroad. Miss Bell has been her father's assistant in  
his laboratory and a lecturer on scientific topics.

Patterson.—Fine growing weather; hard  
hail in some localities Tuesday, but no  
serious damage done; grass looks fine;  
seedling completed; potato planting and  
gardening in progress; stock doing  
well.

Shaw, Marion county, J. G. Stein-  
brenner.—Weather fine during days with  
a good many light frosts at night; fall  
wheat thrifty and looks fine; it is fully  
a month in advance of last season;  
stock rapidly gaining in flesh; weather  
very favorable for lambing; hops grow-  
ing nicely and vines being trained; prunes  
trees have finished blooming and the  
crop will be almost a total failure; only  
a very few of the late blooms on the  
Italian trees will set; petite prunes will  
probably be one fourth to one half of

a crop; apples are coming into bloom,  
with a light crop indicated; pears and  
cherries also promise light yields.  
Lebanon, Linn county, C. D. Steen.—  
Fall crops are growing nicely; pastures  
are good for this time of year; spring  
seedling mostly finished; stand of all  
kinds of grain is good; early frost has  
injured some fruit, especially pears, but  
Kentish cherries.

Goldson, Lane county, J. M. Goldson.  
—The late frosts killed nearly all of  
the peach crop and injured cherries;  
other fruits uninjured; wheat and oats  
are in excellent condition; pastures  
good; gardening and potato planting in  
progress.

Southern Oregon.  
Wilbur, Douglas county, W. B. Lamb.  
—All crops look good; some corn  
planted; weather quite warm; cow-  
sheep and goat shearing about finished;  
Italian prunes a complete failure;  
cherries damaged some, but there will  
be a fair crop; all other fruits unin-  
jured.

Kerby, Josephine county, James  
Spence.—Weather cool; all grains and  
grasses doing well; gardens making  
slow growth; the frost on 10th and 11th  
was more disastrous to fruit than all  
supposed; peaches and plums about all  
killed; all early blooming pears killed;  
cherries are nearly all dropping off;  
early blooming apples injured; late ap-  
ples bloomed light; strawberries in-  
jured.

Climax, Jackson county, L. F. Taylor.  
—Weather cloudy and cool, too cold for  
good growth of anything; hay and grain  
look fine; corn planting about done;  
some corn up; fruit is not hurt much.

Columbia River Valley.  
Hood River, Wasco county, P. D.  
Heinrichs.—Apples will not be a full  
crop, but pears, prunes and strawberries  
are loaded with bloom; light frosts, but  
no damage done; rain is needed for  
clover and timothy.

Moster, Wasco county, J. M. Carroll.  
—Fore part of week cloudy, latter part  
clear and warm; dry for this time of  
year; pasture good; all fall grain in  
fine condition; potatoes and corn are  
being planted; fruit prospects continue  
good; apples in bloom.

Wasco, Sherman county, W. C. More-  
house.—Weather quite warm; early  
sown spring wheat growing very  
rapidly; seeding is about completed and  
summer fallowing has begun.

Condon, Gilliam county, F. B. Stevens.  
—Fine growing weather; spring sowing  
about finished; every one planting  
potatoes and plowing summer fallow;  
lambing almost completed and increase  
is above average; all stock doing well.

Lexington, Morrow county, Edwin R.  
Beach.—Week favorable for germina-  
tion and growth; except peaches, all fruit  
is blossoming and setting nicely; early  
sown "drilled in" grain is looking well;  
late sown not "drilled in," but sown  
broadcast, is spotted and in every way  
inferior.

Weston, Umatilla county, Maud M.  
Baker.—Weather warm and clear; wheat  
making rapid progress; fruit trees in  
bloom; pastures excellent.

Haines, Baker county, J. K. Fisher.—  
Weather a little cool; no frost to dam-  
age fruit; good rain Tuesday evening;  
everything growing nicely; farm work  
well advanced, and early sown grain is  
up and growing nicely; pastures grow-  
ing nicely; stock looking good.

Island City, Union county, A. Black-  
land.—First of week rainy and cool; last  
few days warm; grain making excellent  
growth; all fruit trees in bloom; prob-  
ably half a crop of pears and cherries;  
apples not damaged so much; best seed-  
ing in progress; in this immediate  
vicinity the average is about the same  
as last year.

Marion, Clatsop county, J. T.

Marion, Clatsop county, J. T.

### OUR ENTRANCE ON PINE ST. IS PRIVATE

Use it when you like, and keep in mind that we advance most  
liberally on diamonds, watches, silverware and all articles of

interest. All transactions  
with us are Absolutely  
Safe and Confidential.

### THE RELIABLE LOAN OFFICE

"AN EXCHANGE AS THE NAME IMPLIES."  
I. R. HOLZMAN, Prop. 61 Third Street, Cor. Pine

Spencer.—Weather cool, but not dam-  
aging crops, which are all looking good;  
no high winds nor frost and very little  
rain.

### FATHER BY 'PHONE ENDS AN ELOPEMENT

Romance of Young Girl Nipped  
in Bud by Irate Parent  
and the Sheriff.

(Special Dispatch to The Journal.)  
Minneapolis, Mont., April 25.—The sen-  
sational elopement of pretty 17-year-old  
Ethel Jobb, daughter of James Jobb, a  
prominent and wealthy farmer of Ra-  
valli county, with W. H. Davis, a farmer  
in the employ of her father, was nipped  
in the bud by Sheriff Sutherland, of  
Wallace, Idaho, who stationed himself  
at the recorder's office; and when the  
young lovers from Montana appeared he  
took them into custody.

Strenuous denials to the effect that  
they were not the couple wanted availed  
little, for Miss Jobb refused to

talk with her father over the telephone,  
saying that the man was a stranger to  
her, she finally broke down, and then, in  
a rush of tears, confessed that she was  
Ethel.

The young lady said she was within  
two months of being old enough to se-  
lect the husband she wanted; and when  
the time arrived she would marry Davis.  
Davis is 25 years old, and told of being  
drawn by a faded cayuse during the  
darkness of the night, and their fear of  
being overtake by the irate parent of  
the girl, who measures over six feet  
and boasts of having the fastest team in  
Ravalli county.

Pie's Cuts—40 years on the market, and still  
the best for Coughs and Colds.

Preferred Stock Canned Goods.  
Allen & Lewis' Best Brand.

MUNICIPAL LEAGUE MEETS.  
(Journal Special Service.)  
New York, April 25.—The National  
Municipal league began its eleventh an-  
nual meeting in this city today, the ses-  
sions being held at Cooper union. Ad-  
vocates of municipal reform are present  
from cities throughout the country and  
they will engage in discussions covering  
a wide range of questions looking to  
the betterment of city governments.
