GOVERNMENT SAYS IT IS TOO COOL

Climatic Conditions Past Week Unfavorable for Rapid Growth of Crops.

GOOD RAINS FELL JUST WHEN MOSTLY NEEDED

Condition of Grain Crop Satisfactory Hops Continue Very Uneven.

Latest crop report by A. B. Wollaber, dotting station director. The weather during the past week was showery and too cool for crops to make satisfactory advancement. Good rains fell in all sections of the state, those occurring in the western portion being especially copious and timely.

Reports relative to the fruit crop continue very conflicting. In some localities the fruit crop is reported to be fair, while others near by indicate fairly good yields. This is also true of individual trees, some being well set with fruit, while others have none.

Weather showery and very cool, too cold for growing; ground in good condition for plowing, also for transplanting cabbage, bean, onion, radish, pastures good, grain improving.

Weather cool and showery; growth of all kinds very slow, except grass and weeds, which seem to be doing finely. Wheat and barley growing slowly, but look well; summer fallowing completed; early garden truck plentiful; late gardens all planted.

Weather cool, but moderating; a plentiful supply of rain has fallen; grain has grown nearly done; most vegetables growing nicely; stock getting fat; milk supply increasing; prunes dropping; catapillars very numerous; fruit is expected to be light crop.

Weather cold and showery; too cold for rapid growth; some wheat getting yellow; oats and grass doing well; spring grain benefited by cool weather, but fall grain needs more sunshine; some wheat heading; early potatoes look well; fruit uneven; some trees well filled, but showery, some hail; spring garden, some county, J. C. Brant.

Looking Glass, Douglas county, George Marsh—Weather showery and too cool for rapid growth; pastures improved by rains; too cold for corn and garden; warm weather and sunshine needed for all crops; early oats heading; all grain looks well.

Gray Hair Restored to Natural Color Free.

I WANT to place in the hands of every person whose hair is turning gray a free sample bottle of Mary T. Goldman's Hair Restorer.

The idea of restoring it by giving new life and secretions to the pigmentary glands is quite a different thing—a natural and proper cure.
