

OREGON EXHIBIT TO LEAD OTHERS

Mineral Superintendent Already Anxious About Space for Entire Collection.

NEW ANNEX WILL ALL BE FOR OREGON PRODUCT

Other States Will Have More Select Ores in Less Quantities Than Oregon.

Tons of ore are being arranged in the Mining and Minerals building at the fair. The greatest display, of course, will be by the home state. But all other western states are to put forth their best products.

It is apparent that the miners of this state have been too generous in their allowance. They seem to have been informed that there will be no limit to exhibit space and that quantity in what is desired.

The Oregon exhibit will be in place by the opening day, but it does not seem possible that all the other states will be so prompt.

There is little snow in Bohemia now, and prospectors are going to their headings in good numbers.

TREASURE MILL IS ON SIDING NEAR EUGENE

C. H. Park, manager of the Treasure mine, Blue river district, was in the city portion of the week, and has returned to the south.

Construction is to be rushed on the mill, which will be erected in the near future.
