Judge Cleland Sustains Former Finding of Circuit Court for Them.

NEW LAW POINT IS ALSO DETERMINED

Appeal on Estate Cases May Include Rehearing of Evidence by Higher Tribunal.

That a case involving the final account of an administrator of an estate of the executor of a will, when appealed from the county court, may be tried anew in the state circuit court on the evidence and other facts, is the substance of a decision handed down by Judge Cleland this morning.

The case was appealed to the circuit court and tried before Judge Cleland when the heirs and executor were heard.

Other decisions by Judge Cleland were: W. C. Noon, Jr., against H. H. Clarke, demurrer to the complaint, sustained.

FAIR CROWDS NOT HEEDING WEATHER

Gloomy Morning Does Not Seriously Affect Size or Ardor of Multitude.

EXHIBIT PALACES ALL ARE THROGGED

Government and Forestry Buildings Are Proving to Be First Attractions.

Dull, gray clouds overhung the sky at the beginning of the second day of the exposition. During the early morning it was cold, a chill wind blew, and about the middle of the forenoon it began to drizzle.

Ignoring the despondent aspect of the weather Portland retained its holiday attire. Streamers and bunting floated from every part of the city and cars leading to the grounds are faucally decorated.

At 8 o'clock the gates were thrown open. Few entered at that time, but the crowds increased until noon when the opening day, was gratifying. The exhibit buildings were crowded today. The Government building and the forestry exhibit drew thousands.

DELAYS ACTION ON PENCE'S PROJECT

City Park Board Hears Promoter and Petitions Favoring His Flume Plans.

DECIDES IT MUST WAIT TWO WEEKS MORE

Elention Results May Have an Effect — Commercial Bodies Now Approve Scheme.

No action was taken at the meeting of the City Park board today on the petition of Life Pence or petitions favoring a water pipe or flume line through Macleay Park. The members of the board desired to defer the matter until the next meeting, as they did not think it best to take hasty action.

Several resolutions, two favorable and others against the proposition of Life Pence to divert the waters of Balch creek from the canyon and run it through the park in flume to be used in washing down the hills in the vicinity of Willamette heights in Guild's lake, were read.

Although the chamber of commerce expressed its disapproval of the project some time ago a resolution was presented to the board this morning asking that the petition be granted, on condition that the flume shall be laid in a trench which shall be covered so as to form a substantial walk and that the flume shall be subject to such rules and regulations as the board shall see fit to make, and also that water be allowed to flow through the park to keep the stream at its present stage.

The communication stated that if the proposed scheme was allowed to materialize it would result in great advantage to many interests, both public and private, for which reasons, it seemed desirable for the board to grant the petition.

The executive committee of the board of trade also presented resolutions favoring the granting of the franchise for the flume.

On the other hand, the Willamette Heights Improvement association presented resolutions signed by 27 residents of that neighborhood, remonstrating against the proposition on the ground that the beauty of Macleay park would be destroyed if the waters of the canyon should be diverted.

Other resolutions protesting against the board granting the petition were read from the Journal, and a letter from the family fireless, will reach Portland tonight on his way to British Columbia.

Mr. Lewis disapproved of the plan of the promoters building fills and dirt dams above the park where waters would be restrained.

Although the majority of the board expressed themselves in opposition to the flume being built, they agreed with Mr. Lewis that no dirt dams should be constructed. Mayor Williams expressed himself in emphatic terms against such a plan.

Mr. Pence with his attorney, C. M. Iordan, said he would urge that the petition be taken immediately. N. J. Levinson and C. Lombardi spoke on behalf of the promoters.

POPE PIUS OBSERVES SEVENTIETH BIRTHDAY

Rome, June 2.—Pope Pius X is 70 years old today, having been born in the village of Riese, in the diocese of Treviso, June 2, 1835. Since his accession to the throne of St. Peter he has changed little, those close to him say, though naturally it has been necessary to make some change in his habits and mode of living in order to conform to the restrictions imposed upon him by his high office.

Stories to the effect that his holiness failed to realize the duties of his high office are wholly without foundation. His brother and sisters, nieces and nephews, when calling on him have never overstepped the mark of decorum, and the contrary has been stated.

Now that the hot weather has set in they will be sent by the pope to pass the summer in Castle Gondolfo, which, actually in fact, is an actual temporal possession of the pope. The palace there has immense grounds and commands both the Mediterranean and Lake Albano. It is about an hour's journey by rail from Rome.

PUBLIC SERVANTS MUST BE CAREFUL

"Due diligence must be exercised in all departments of the public service," said County Judge Webster when he and commissioners Barnes and Lightner this morning suspended for one month C. Hutchins, a drawtender on the steel bridge, for dereliction of duty.

It was found that Hutchins was fending the east approach to the draw when a car was passing over it and the boat struck the car, causing a few days ago. Before the car left the draw Hutchins signaled to the engineer that all was clear, and the car was derailed. The engineer found that Hutchins had not signaled for the car to stop on the bridge. He had not exercised due diligence, Judge Webster said.
