FIRE IS CLIMBER IS GASOLINE CAR

Vehicle Easily Slips Up Grades That Cause Engines to Complain Bitterly.

TESTS IN CITY PLEASE RAILROAD OFFICIALS Model After Design of Yacht Reliance, With Trucks of Unique Design.

For the first time since its construction, the Southern Pacific's new gasoline motor car No. 1 yesterday encountered a grade of 197 feet to the mile...

The car started from the union station at 2 o'clock, with the following on board: General Manager J. P. O'Brien, General Superintendent M. J. Buckley, Division Superintendent Fields of the Southern Pacific, J. F. Graham, superintendent of motive power...

This is the most important test the car has had, said General Manager O'Brien. "If it will do business here it will work on any ordinary railroad."

The design of the car presents some features, it is modeled after the lines of the racing yacht Reliance, inverted. The rear of the car is rounded to avoid the formation of the vacuum present with square-ended cars...
