

HIAWATHA UP TO DATE.

(Copyright, 1905, by W. R. Hearst.)

Forth from out the pathless forest
Came the dreaded Trusterodites,
Making strange and hideous noises,
Noises like a greedy porker,
Noises like a hungry tiger,
Noises like a college freshman—
Roundabout the white man's cabin
Danced a furious fandango;
Fired arrows at the white man,
Cried, "Come out, we want to scalp you!"
Then their leader, Coal Oil Johnnie,
Clambered on the cabin roof-tree.

Took a bunch of tainted money,
Poured some standard oil upon it,
Dropped a lighted match upon it,
And the conflagration started.
Wildly from his blazing cabin
Rushed the terror-stricken white man,
Shrieking, "Spare me I surrender!"
Instantly the Trusterodites
Pounced upon their trembling victim,
Kicked him swiftly round the circle,
Biffed him in the solar plexus,
And, with cries of jubilation,
Dragged him off into the forest.

BEHRING SEA IS CLEAR OF FLOATING ICEBERGS

(Journal Special Service.) Seattle, June 6.—A dispatch received by the Northwestern Commercial company from Nome yesterday conveyed the news that the Behring sea, as far as the eye can see, is clear of ice and that the steamer Corwin, which left Seattle May 18, arrived there June 2 with all well aboard. The Corwin is the first vessel to reach the northern port this year and had the same honor in 1914. This news makes it clear that the five vessels which left here since June 1 will not be delayed in reaching Nome, and it is expected they will make fast trips.

Owing to the large number of persons left over from the first boats sailing, the Alaska Steamship company announces that on June 14 it will send the Farallon to Nome. She has not been on that run since 1910.

NEW YORK TO CHICAGO IN SEVENTEEN HOURS

Pennsylvania Beats All Records—Average Speed Fifty-Three Miles an Hour.

(Journal Special Service.) Chicago, June 6.—The Pennsylvania railroad has broken all records between New York and Chicago, making the run of 487 miles in 17 hours. The feat was accomplished by two special trains, one running from New York to Pittsburg in 8 hours and 50 minutes, and the other making the trip from Pittsburg to Chicago in 8 hours and 10 minutes. All the way from Pittsburg to Chicago the special train bearing railroad officials and employes encountered severe headwinds, which retarded the speed, but despite this handicap 487 miles were made at an average rate of 57.7 miles an hour. The New York and Pittsburg end of the run, necessitating a mountain crossing, made an average rate of 43 miles an hour. The combined runs were made at an average of 52.3 miles an hour, which is the fastest time ever made between the two cities. The run from Warsaw, Indiana, to

They all speak in praise of the exposition and predict a success for the enterprise of the Portland people. "The exposition was opened by Vice-President Fairbanks and senators and congressmen and got a good send-off," said Senator Carter. "I think it is a very creditable fair in every sense of the word and will undoubtedly prove a great drawing card for the northwest, bringing many visitors into that section. The government is making an especially fine exhibit. There were a number of Montana people present on opening day. Montana has a nice agricultural and mining exhibit. While the state has no building, the exhibits from this state are given an advantageous location in other buildings."
