TONIGHT'S AMUSEMENTS.

When the pioneers of Gregon assemble at the Armory June 15 for their opening session at is probable that more old residents will be present than at any previous gathering of this sort. Secretary Himes has been kept busy for weeks answering the hundreds of letters from inquiring pioneers. The opening session at the Armory will begin at 2 o'clock June 15, will be addressed by H. H. Gilfry, and will adjourn at 5 o'clock for the banquet given by the woman's auxillary. A business meeting and a campfire will be held in the evening. June 16 is pioneer day at the fair, and those wearing badges will be admitted to the grounds free between 1 and 2 o'clock in the afternoon. After an address we welcome by President. Goods the pioneers will spend the afternoon in viewing the fair. Other details of the program will be arranged by the committees this week.

ATTENDANCE INCREASES WITH GOOD WEATHER

On Wednesday and Saturday Much of the Wheat Required Nights Display of Fireworks Will Be Made.

The sun burst radiantly upon Portland this morning and particularly upon that portion of it which commands the most attention—the Lewis and Clark exposition. Good crowds arrived at the gates early and the indications are that today's attendance will be greater than that of yesterday.

About 11,000 persons saw the sights yesterday. With the exception of opening day, this was the best attendance last night was good, and while a large crowd gathered around the bandstand to enjoy the music of innes' players several thousand hit the Trail.

F. E. Davidson, chief of the admissions department, stated this morning that the exposition attendance is entirely satisfactory to the management.

"Good weather is all we need for a good attendance," said Mr. Davidson, "and the weather is very encouraging."

The Oregon National Guard will ex-ecute a series of maneuvers for the benefit of exposition visitors commenc-ing July 19 and lasting three days, if

ing July 19 and lesting three days, if present plans go through.

Adjutant-General Finzer has taken up with President Goode the matter of a state encampment at that time, and intends having 2,000 troops engage in a sham battle on the evening of July 21. One side will be intrenched on the hills west of the exposition while the attacking force will start from the good. tacking force will start from the gov-ernment peninsula.

# BE SEEN AT FAIR FLOUR FOR ITSELF

at Hongkong With Eight Thousand Bags Capacity

BIG EXPORT TRADE WILL BE LOST TO THE COAST

Will, However, Be Shipped From Portland.

Flour milling interests of the Pacific Flour milling interests of the Pacific coast will have strong opposition in the orient at an early date, and very little of the product will be sent there after the heginning of the year. A Briffsh syndicate is establishing a flour mill plant near Hongkong that will coat \$1,000,000 and will be capable of turning out \$,000 begs a day. It will have greater capacity than any mill in Caligreater capacity than any mill in Call-fornia, Oregon or Washington. Full details of the venture have been

sent to a number of the local shippers who believe that the day of big flour shipments from this port to the far east is nearing an end. It is believed, how-ever, that the wheat to run the plant members of the syndicate have given it out that they intend, if possible, to buy the terest in countries flying the British flag. That means they will make an effort to get it from India, as that is about the only wheat-producing section over there that grows grain in great quantities. But taking one year with another it is stated by those locally interested that India can-not be depended on to keep the big plant unning, as crop failures there are a ommon occurrence. So the opinion is prevalent among

the local exporters that the bulk of the raw material will have to be progured on the Pacific coast. In that event the regular freighters leaving Portland for the far east will carry wheat instead the far east will carry wheat instead of flour. Taking away the markets of the orient from the Portland and Puget sound millers it is claimed that they will be forced to curtail their output very materially. For it is the avowed intention of the Hongkong millers to supply not only China with flour but Japan as well. When the province of Manchuria is thoroughly developed grain for the mill will be shipped from there.

Further than that, he declined to talk on the subject, explaining that he had reasons for not making a public statement at this time. Asked where wheat would be procured to keep the plant in the orient running, Mr. Wilcox said:
"Manchuris will soon be developed and will undoubtedly become a great grain-growing country."

Many of the exporters whose attention has been called to the matter are of the
