Though the developments were less sensational than those of yesterday afternoon, when Takner told the story of Mitchell's return from Washington on last December and his desperate efforts to avert the indictment which threatened him, still the evidence given today will pray an extremely important part in the case.

In view of the widened scope of the testimony it is now thought probable that the case will occupy the greater part of next week. It is evident that the government's evidence will not be con-cluded tomorrow and at least a day will be required for the submission of evi-dence by the defense. It is doubtful whother the case will reach the jury before next Wednesday.

Mitchell's Pamous Letter,

I wrote that the government had compelled Kribs to give up the checks which he had given to the firm, and said that the government would be able by those checks to trace the money into Senator Mitchell's bank account, and thus show that he received one half of these fees. I suggested as the only explanation that could be given that he had received this money in the nature of an overfirst.

The introduction of this line of evidence was warmiy contested by the defense in their opening address to the feense, but Judge De Haven held that it was admissible. The entire morning was occupied by the testimony of Judge Tanner, who was questioned closely as to the transactions in question.

Kribs for services rendered by the senator in expediting the patenting of Kribs timber claims. Judge Bennett, in his opening address to the jury, clearly intimated his intention to show that Mitchell was in ignorance of the fact that he was receiving a part of the fess pald by Kribs to Tanner, the senator's partner.

District Attorney Hency read at length from the authorities and from court reports in support of his view.

He attempted to show that the delay in prosecuting Elliott was due to an understanding between him and the district attorney, to the effect that if he would testify against Rumelin the case against him would not be pushed. Mr. Wood Eulogizes Ris Client.

Then came the eulogy of Mr. Wood of Councilman Rumelin, in which the city legislator was held up to public gaze as the one man who, when grafters were fattening at the treasury crib, first stepped forward alone and unaided and demanded that this looting of the people's money stop, and that the grafters be "relegated to the "demnition bow-wows."
