## ONCE PROMINENT BASE-BALL PLAYER INSANE

Osborn's mental trouble arose through domestic differences with his wife, who left him several months ago for Portland. Osborn imagines that he is going to die and is in a pitiful condition. He will be given an examination tomorrow.

# TRADE WILL COME WITH PEACE

## Great Oriental Firm Will Run Line of Steamers Between Japan and Portland.

### SHIPS NOW IN USE AS GOVERNMENT TRANSPORTS

**Mitsui Bussan Kaisha Prepared to Do Heavy Transportation Business With This Country the Moment Hostilities With Russia Cease.**

T. S. McRath is perhaps taking a keener interest in the proceedings of the peace commissioners at Portsmouth, New Hampshire, than is any other Portland citizen. He is local agent of the Mitsui Bussan Kaisha, one of Japan's leading steamship companies, which will begin running a line of fast steamers into this port as soon as the war is over. The ships, which are subsidized by the mikado and are a part of the imperial naval reserve, are serving as transports.

Mr. McRath recently returned from a trip to San Francisco, where the full details of the venture were discussed with the Mitsui agent there. As soon as the news arrives that peace has been declared between Russia and Japan, McRath states that he will at once begin business for the new trans-Pacific line. The steamers are large carriers and up-to-date in every feature.

Before the war broke out the ships of the Mitsui fleet were plying between Japanese ports and Shanghai, Hongkong, Manila, the Straits' settlements, Rangoon, Java and other far eastern places. The aggregate amount of business transacted by the company for the year preceding the war was 90,000,000 yen, of which the foreign trade alone was 70,000,000 yen, or one seventh of the whole foreign trade of Japan. The principal articles of the company's export trade were coal, cotton, yarn, raw silk, habutai, rice, cotton cloth, copper, silver, camphor, coral, cement, timber, railway sleepers, warships, locomotives, steel bridges, electrical machines, canned meats, wheat, flour, opium, tobacco, drugs, wire, lead, tin, zinc and machinery of all kinds.

It is expected that at first the principal articles shipped from Portland on the steamers of the Japanese fleet will be grain and flour, but trade in other lines will be quickly worked up and fruits, livestock, lumber, minerals and machinery will crowd the holds of the steamers.

Besides the steamship company named the Mitsuis own a dozen of the leading banks of the empire; a score of the largest dry goods stores; coal, silver, lead and sulphur mines in various parts of the country and engineering works. They are also leading shareholders of the following companies:

Bank of Japan, Yokohama; The First Bank, Hokkaido Colliery & Railway company, Sanyo railway, Nippon railway, Kiushiu railway, Tokio Street tramway, Japan Mail Steamship company, Tokio Marine Insurance, Kanegafuchi Cotton Spinning, Oji Paper Mill and the Formosa Sugar Refining company.

## COMERIC LOADS LUMBER.

**British Ship Begins Taking on Cargo at Inman-Poulsen Mills for China.**

Work at loading the British steamship Comeric with her lumber cargo was begun at the Inman-Poulsen mills this morning. The steamer arrived at the mills yesterday afternoon. She is in command of Captain G. B. McGill, and came to this city from Ladysmith, British Columbia, where she had been lying for over a month.

The Comeric's last cargo was coal from Comox, British Columbia, to Nome. During the early part of the year the steamer sailed from New York for Japan with a general cargo. She was in Yokohama, Kobe and Moji last April and May, and there witnessed numerous celebrations of Japanese victories. The steamer came across the Pacific light from Japan to San Francisco, hoping to get a cargo in the Bay City for Yokohama and reach the mikado's seaport before July 1, but she was unable to do so.

While lying at Ladysmith, one of the Chinese firemen informed the engineer on watch that he was going to do just as he pleased. He began to cut up capers in the engine room and refused to be calm, so the toe of the engineer's boot was used to soothe him. The Chinaman tried to make the ship pay for his wounded feelings, and all Ladysmith was excited over the affair. The engineer won.

The Comeric will take out 3,500,000 feet of lumber for north China. Her officers are: Captain G. B. McGill, First Officer T. McMullen, Second Officer W. Stevens, Third Officer W. Clayton, Chief Engineer J. Norris, Second Engineer Borthwick, Third Engineer J. Smith; Fourth Engineer Buchanan and Steward Jones.

## NUMANTIA IS DUE.

**Will Arrive This Evening and Begin to Take Cargo for Japanese Ports.**

At 6 o'clock this afternoon the Portland & Asiatic company's steamer Numantia is expected alongside the Montgomery dock and will begin discharging her cargo early tomorrow morning. She left up from Astoria at 9:30 o'clock this morning, having arrived there at 7:45 last night. A full cargo of grain and flour is awaiting the steamer. This cargo will be sent direct to Japan, and the steamer will not touch a Chinese port during the next voyage; she will take what cargo is offered at Japanese ports and return to Portland. This is the first time in many months that one of the Portland-Asiatic's regular liners has not touched at Chinese ports during a voyage.

The next steamer due of this company's fleet is the Arabia, which is expected September 18. A full cargo of flour and grain will be awaiting her, this for Japan also.

## IMAUM CHARTERED.

**Britisher Coming From Moji to Take Grain for Balfour, Guthrie & Co.**

Balfour, Guthrie & Co. have chartered the British steamship Imaum to load here for the orient. It is supposed that a full cargo of grain and flour will be ready as soon as she arrives. The Imaum is owned by E. Bates & Co. of Liverpool, was built at Belfast in 1890, is 400 feet long, 45 feet beam, 28 feet hold, 2,704 tons burden, and is en route from Moji.

**Grave Trouble Foreseen.**

It needs but little foresight to tell that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by Skidmore Drug Co., 161 Third street, at 50c a bottle.

# ALLEGES FRAUD IN UINTAH LANDS

## Former Chief Ranger and Chief of Indian Police Makes Sensational Charges.

### THOUSANDS OF ACRES ALLOTTED DEAD MEN

**Personal Interests Looked After at the Expense of the Public in Opening Reservation—Mysterious Irregularities.**

(Journal Special Service.)

Vernal, Utah, Aug. 22.—G. Clark, former chief ranger and chief of Indian police on the Uintah reservation, charges that at least 52,000 acres of irrigable land of the Uintah reservation has been allotted to dead Indians. He declares that he is ready to furnish evidence to substantiate his statements should investigation be made by the proper authorities. Clark says:

"Personal interests have been looked after at the expense of the public in making the allotment. It is my belief, having been among them for 14 years, that there are not more than 1,200 Indians on the reservation. Estimate a fourth of them as heads of families, entitled to 80 acres apiece, and you have 24,000 acres. The other 900 women and children are entitled to 40 acres each, or 36,000 acres, a grand total of 60,000 acres.

"Information that 112,000 acres of land have been allotted to Indians makes clear the purpose of many mysterious irregularities, which to my certain knowledge have been practiced in connection with the opening of this reservation."

Charges were recently filed at Washington against Land Commissioner Richards by the Gentiles of Salt Lake, accusing him of partiality and unfairness by unduly favoring Mormons in matters pertaining to the reservation opening.

## WASHINGTON BOARD OF CONTROL OPENS BIDS

(Special Dispatch to The Journal.)

Olympia, Wash., Aug. 22.—The following bids were opened by the board of control yesterday for doing the structural steel work at the state penitentiary at Walla Walla. No award was made by the board for the reason that no bids were received for the brick work: Minneapolis Steel & Machinery company, $15,900; Mester Bros., St. Louis, Missouri, $16,905; Western Iron Works company, San Francisco, $19,165; Pauly Jail builders, St. Louis, Missouri $26,895; Stewart Jail Works company, Cincinnati, Ohio, $24,946; J. E. Davis, Deibold Safe & Lock company, Canton, Ohio, $18,554; Van Dorn Iron Works company, Cleveland, Ohio, $28,710.

## ARE YOU GOING EAST?

**If So, Learn About the Very Low O. R. & N. Rates.**

September 7, 8, 9 and 10, the O. R. & N. places on sale very low rate long-time tickets east, account I. O. O. F. grand lodge meeting, Philadelphia, Pa. Particulars by asking at city ticket office, Third and Washington streets, Portland.

## ALONG THE WATERFRONT.

The Columbia will arrive this evening from San Francisco with a full passenger list. She sails for the Golden Gate next Thursday evening.

There was a slight falling off in the number of up-the-Columbia passengers on the steamboat Bailey Gatzert this morning. It is supposed that many had planned to make the trip, went over to look at the fire and missed the boat.

The steamboat Nellie is undergoing extensive repairs at Supples' shipyard.

Captain Theodore Baker, lighthouse inspector for this district, sailed this morning on the lighthouse tender Manzanita for an inspection tour along the Oregon coast.

**Boat Races Stopped.**

No more races between the greyhound steamboats Charles R. Spencer and the Telegraph, for awhile at least. This morning the owners of the Telegraph changed her leaving time from 7 a. m. to 7:30 a. m. The Spencer leaves at 7 o'clock, thus preventing racing. Yesterday's race did not tell which was the speedier steamer. The Telegraph had on more steam, so it is said, when she pulled out than her rival and for awhile it looked as though she would catch the Spencer before the mouth of the Willamette was reached, but as soon as the Spencer got under full steam the boats ran even.
