The Last Week of "The Last Days

The spectacle of a mountain top suddenly opening and belching forth first and flame, while houses were shattered and rased to the earth by a terriffe tremble, was again witnessed by not less than 5,000 people at the amphitheater built for this production at the Oaks last night. This being the last week of "Pompell," doubtless the scating capacity will be taxed to its utmost every night. Certainly the fets is different from anything that has ever been will

"You are respectfully requested to meet the other members of the Republican state committee in Portland, Thurkday, the 12th of next month; and you will please invite a goodly number of representative Republicans of your county to come and take part in the reunion; and should there be in your county aspirants for state or district office, invite them also to be in attendance and participate."

While ostensibly the gathering is to be simply a love feast, held for the purpose of henling the wounds and removing the differences that threaten the party's success in the next exampling, its rest object is understood to be the organisation of a Republican machine.

CLOTHING FAKES

Since the big stock of Holland Bros., consisting of over \$100,000 worth of fine clothing, hats, shoes and furnishings, has been on sale at First and Salmon streets, its great success is causing imitation sales to spring up in every direction. It's possible that strangers may be caught in their meshes, but sales of the fake order cannot last long, for the public is not so easily guilled as these fly-by-night fakers may suppose. Holland Bros. stock, sold through Samuel Gans & Co., is a sale of real merit, and is saving the public many dollars on desirable and fine qualities, while the prices quoted are ridiculously low. The merchandise is as described in their advertisements, and big as the immense double store is, at First and Salmon, it is piled mountain high with suits, overcoats, pants, shoes, etc.

WILL TRY TO RAISE SUNKEN SHIP JEROME

(Special Dispatch to The Journal.)

Wallula, Wash, Sept. 5.—An effort will be made by the owners to raise the freight steamer Jerome, which was wrecked in West rapids, below the mouth of Snake river, Saturday afternoon. An examination of the boat yesterday revealed the fact that she is not so badly injured as first thought. A saping hole in her bow is the only apparent injury, although it is possible that her bottom was punctured when she settled on the recky viver bed. The boat lies in about 16 feet of water. The deck is submarged, but the cabin and upper works are clear of water.

An experienced hostman will-im

will be fished out and an effort made to tow the steamer to shallow water so that repairs can be made.
