Newsboys Freely Admit Their Procession Was the Finest Ever Seen Here.

TWELVE COMMANDERS PRESERVE THE DISORDER

With No Music Save the Sound Their Own Voices, the Serried Ranks Tramp Proudly Through the Crowded Marts.

Oregon's future newspaper editors, annagers and writers paraded the treets this morning. From a row of nickerbockers with the suspicion of a cy in them, to Grand Marshal Otto rag, mounted and enveloped by 11 ids, also on horseback, the dignity and trength of the newspaper profession

We are the fellers that make the

Order was manifest everywhere, tha Order was manifest everywhere, that is newsboy order, which meant every man for himself and the printer's devil take the hindmost. But the newsboys paraded, and the people of Portland were made cognizant of the fact, and will remember the pageant among the multitude of spectacles that have passed along the streets since June 1.

The intersection of Fourth and Salmon atreets was the rendezvous. There was ample public property to bear the the brunt of the waves from the storm center, forming a breakwater for private holdings near. Also there were abund-ant officers in close proximity and the executive force of both county and city

the schedule being for a start at 10 o'clock. The Reform School band was to lead the pageant, but the train was late and the tide of juvenile humanity could, not be restrained by Special Officer Hawley more than an hour. About 11 o'clock the parade began, Chief Gritzmacher had detailed a platoon of officers to lead, which was under the command of Officer Welch, a veteran of the Philippines. It was apparent that the chief had prepared an emer-

honor.

Grand Marshal Otto Prag struggled to lead a band of 11 aids, firmly grasping the saddle horn with one hand and the reins with the other. His demands that the procession stay behind him and let the marshal have the opportunity to breathe for a moment the air of a leader, were touching. Each aid had a quadruped, the brand ranging from diminutive cauyess to horses. The aids took different formations, from a football flying wedge to a polo team in action, and shifted front with remarkable facility. Most of the riders used the left hand in an affectionate embrace of their steeds necks, which had the suggestion of a safety precaution. precaution.
" carried the national colors, and

"Abs" carried the national colors, and was often to be seen above the cobble-stones, bravely shaping his course by the wake of the grand marshal. The column following was en masse order. It was an unfortunate situation to be in front of another, and all save the rear man was kept buelly dodging blows. There was admirable rhythm in the step, which was strictly without any military restraint or red tape and gave the sound which was strictly without any multary restraint or red tape and gave the sound

restraint or red tape and gave the sound of rain pattering on the roof.

Down Fourth street to Morrison, Morrison to Third. Third to Washington, up to Sixth, south on Sixth to Morrison and thence to Fourteenth, where cars were boarded, was the line of march. ds gathered on the walks to greet

It was clear to the most casual ob-server that this was the real event of the season, the indelible achievement of the Lewis and Clark fair.

HELENA WILL ENJOY **FIVE-CENT CAR FARES**

(Special Dispatch to The Journal.)

Helena, Sept. 5.—Howard S. Reynolds of New York, representative of J. G. White & Co. of New York, arrived in Helena today and on September 11 will assume control of the plant of the Helena Light & Traction company, lately purchased by his company. Thomas A. Marlow, president of the existing company, will retire when the new owners assume control.

Among the improvements to be inaugurated by the new company will be the reduction of the fare to 5 cents on all lines in the city. The fare was formerly 10 cents. The service will be extended and the rolling stock increased (Special Dispatch to The Journal.)

Missourian Heard City Was Perilous Place-Would Borrow From Helen Gould.

New York, Sept. 5 .- Edward Addisof Columbia, Missouri, was committed to the Tombs today in default of \$1,000 bail on a charge of carrying concealed weapons. Addison had two loaded revolvers in his possession when taken into custody. He had also \$180 in cash, a gold watch, rings, other jewelry worth several hundred dollars and a check for a trunk placed with a storage com

He says the trunk contains oriental rugs worth several thousand dollars, and explained his armanent by saying he had been told that New York was a perlious place, and he had prepared to defend

To the magistrate Addison said h came here to borrow money on Missouri real estate from some one who wouldn't charge interest. Among the various persons to whom he applied was Helen Gould, but he failed to see her.

SENSATION IN COURT

(Continued from Page One.)

E. S. Brubaker, M. J. Kinney, W. C. Seachrest, D. B. Mackie, C. L. Seaquest, Andrew Allen, Joseph Ellis, E. H. Virgel, John Seener, Wilson Benefiel, John Keating and John Prideaux. All

mare said to be married men.

Many are of the opinion that so light will be thrown on the murder Mrs. Kaspar Van Dran in the trial.

POLICE HOLD CHASE

While the police deny that they have any evidence directly connecting Fre-mont R. Chase with the poisoning of Mrs. Minnie B. Van Dran, they do not attempt to conceal their belief that he has knowledge of the murder and that

has knowledge of the murder and that sooner or later facts will develop clearing up one of the most mysterious crimes in Portland's history.

Satisfied as they are that Chase was induced to leave the city by Joe Young, the saloonkeeper who shot and almost killed Kaspar Van Dran, the natural question that has arisen is why was he got out of the way?

got out of the way?

There were three eye-witnesses to the shooting, and the testimony of any two of them, with that of Van Dran, in the opinion of Deputy District Attorney Moser, who is handling the affair for District Attorney Manning, would have been sufficient to convict. That such is the belief of the prosecution is shown by its determination to go ahead with the trial of Young instead of waiting for Chase to be extradited and returned here.

Kinney and the two women are held kinney and the two women are held at San Francisco, as well as Chase. Chief Gritsmacher wired Chief Dinan to hold the four at all hazards until Detectives Day and Vaughn arrived there. The officers left last night, and it is believed that when the prisoners are clearly constituted something wars.

it is believed that when the prisoners are closely questioned something may be learned which will warrant placing charges against Kinney, and perhaps against the women.

One of the women is said to be Kinney's wife, though he permitted her to live in disorderly houses. The other, "Little May," as she was known to her acquaintances here, has been an associate of Chase. Kinney was once a runner for the International hotel, according to former Detective Weiner, but left the city four months ago and returned in July. Weiner says he was never arrested for an offense in Portional befor us to wipe out the impression ble for us to wipe out the impression.

NO RECORD OF DEAD BABIES

(Continued from Page One.)

several without compensation at other

Mrs. Blackhall also said that she had Mrs. Blackhall also said that she had no knowledge of the antecedents of the children that came to her, as it was the policy of the home to keep such records elsewhere so that those who are in charge of the home should remain ignorant as to who the children are and whence they came. Mrs. L. W. Sitton, president of the home, in each instance sent the children to the home and signed the order therefor.

Mr. Dunning stated that he had taken the bodies as an accommodation for the

the bodies as an accommodation for the officers of the home, that he asked the officers of the home, that he asked the county to pay expense of the buridi, but that the county officials refused it. He then telephoned to D. D. Jackson, superintendent of the poor farm, who sent a man to take them there, where they were buried.

He had nothing to do with the making of death certificates, as he did not act as the undertaker. The undertaker who buries the body is expected to make cerification therto, and he could not do that, as he did not bury them.

that, as he did not bury them.

Dr. Bell's Statement.

Dr. James F. Bell, physician for the home, stated when seen this morning that the deaths which had occurred were not unusual, although the summer complaint that developed during the hot weather had been malignant.

"We lose some cases each summer." said he, "in the hot weather, but not many. This summer we have lost five, three during the past month, two in August being within 24 hours of each other and one 12 hours later. The trouble was attended in the usual manner and the losses cannot be said to be unusual at all."

Dr. J. A. Petitt, who is the attending

Dr. J. A. Petiti, who is the attending physician, was not reached by telephone, as he was away from the office during much of the morning, but his assistant explained regarding the five permits at one time as follows:

explained regarding the five permits at one time as follows:

"The deaths covered a greater period than the dates of the permits indicated. This is due to the fact that the certificates originally filled out were lost in some manner. I do not know if the loss was chargeable to the undertaker or other source. We were asked to fill out certificates and did so. Meanwhile two of the others came in, and I suppose that the other three have been located since and were filled out by Dr. Petitt or Dr. Bell."

LAND FRAUDS

(Continued from Page One.)

o intimidate them and to prevent them from testifying against the defendants. Judge Eura on Beach. Judge W. H. Hunt, United States district judge for Montana, arrived last evening from Helena and is presiding at the trial of the case. He will remain in Portland until the land fraud trials

in Portland until the land fraud trials are concluded.

Before entering on the trial of the Williamson case the court gave opportunity for motions in other cases and District Attorney Francis J. Hency requested an order consolidating two of the pending indictments relating to frauds in the Blue mountain reserve. Senator Mitchell, Congressman Hermann and others are defendants in the two cases, and John M. Gearin, as attorney for Hermann, interposed objection to the proposed consolidation. He also gave notice that he would ask for a separate trial for his client. Similar notice was given in behalf of Senator Mitchell by his attorney, Judge Bennett.

Wants Cases Consolidated.

Wants Cases Consolidated.

"As to Senator Mitchell, I have no objection to granting him a separate trial," said Mr. Hensy, "for he has recently passed through one trial and the government does not care to place him on trial again so soon. But as to Con-gressman Hermann we shall oppose the motion for a separate trial."

motion for a separate trial."

L. H. Tarpley, attorney for S. B. Ormsby and C. E. Loomis, two of the defendants in the Blue mountain case, stated that his clients would interpose no objection to the proposed consolidation. Judge Hunt thereupon entered an order that the cases be consolidated, subject to reconsideration after hearing the argument for a separate trial for Hermann. The matter will be argued next Monday.

slow progress was made in securing the jury in the Williamson case and when court adjourned at noon only three had been accepted—John Bain, cashler of the Oregos Mortgage company; J. Marcus Freeman, who is in the employ of Allen & Lewis, and Thomas G. Farrell of Everding & Farrell, Front street merchants. All three are residents of this county.

Judge Bennett's motion for a con-nuance was based on the grounds that the panel was not properly drawn and that the interests of the defendants had that the interests of the determination been seriously prejudiced by an article published yesterday morning in the Oregonian, in which it was intimated that efforts were being made by them to the alleged crime was committed. Not a juror on the panel, he said, lives within 160 miles of Crook county.

Passing to the second ground on Passing to the second ground on which continuance was caked Judge

"In the Oregonian of yesterday n "In the Oregonian of yesterday morning an article of the most inflammatory character was published in which it was broadly intimated that these defendants have been intimidating the government's witnesses by baraburning. The article was published on the eve of the trial with the deliberate purpose of prejudicing the defendants. We cannot say whether the article was instigated by any of the detectives connected with this case, but its effect cannot but be prejudicial to the defense. Probably every man on this panel has read the article."

turned in July. Weiner says he was never arrested for an offense in Portland and does not believe him the kind of man who would be guilty of the crime of murder.

Detective Resing has secured evidence that Chase once worked as drug clerk in the east and is familiar with the action of toxic substances. Recently, it is said, he made a number of experiments with drugs in his room. This information the police regard as of considerable importance.

Several days ago a young man met Detective Frank Snow and told him that in all probability a woman was connected with the murder of Mrs. Van Dran, as one had fold him something about the crime not generally known. He promised that before long he would give the name of the woman to the detective. Detective Snow is trying to locate his informant today.

In view of the prejudice which the article must have excited Judge Bennett asked that the panel be quashed and a new panel be drawn.

Mr. Heney replied to the objections to the regularity of the panel by reading from the statutes and showing that they had been strictly followed, a view with which Judge Hunt coincided. As to the second ground of the motion for a continuance, Mr. Heney said that there was nothing to indicate that the Oregonian's article had attracted the attention of the talesmen, and he thought it safe to say that nine-tenths of them, like himself, had never read it. Judge Hunt was of the opinion that the facts did not warrant a continuance and the motion was To view of the prejudice which the article must have excited Judge Bennett asked that the panel be quashed and a new panel be drawn.

Mr. Hency replied to the objections to the regularity of the panel by reading from the statutes and showing that they had been strictly followed, a view with which Judge Hunt coincided. As to the second ground of the motion for a continuance, Mr. Hency said that there was nothing to indicate that the Oregonian's article had attracted the attention of the talesmen, and he thought it safe to say that nine-tenths of them. like himself, had never read it. Judge Hunt was of the opinion that the facts did not warrant a continuance and the motion was thereupon overruled.

In addition to the three jurors accepted this morning, six others were examined, but rejected. D. N. Plerce of Rowland, Louis J. Galdsmith of Portland, W. O. Plue of Rainier and Edward C. Frost of Portland were all excused for cause, on challenges by the defense. Frits N. Voos of South Mount Tabor was challenged by the defense on the ground that he had formed an opinion, but as the court refused to sustain the objection he was dismissed on a per-

"In the minds of some of our members the idea prevails that the establishment of a letter-carriers' home embodies both the matter of providing a retreat to which incapacitated and superannuated letter-carriers can go and under certain regulations spend their declining days in comparative comfort, while along with this they contemplate the establishment and maintenance of a sanatorium at which our members can regain their health. To my mind, a home for aged letter-carriers is well regain their health. To my mind, a home for aged letter-carriers is well nigh impractical. The thing above all others which will act against the establishment of such a home is the fact that the average letter-carrier is a man of family. Therefore it would be necessary to make some provisions for his wife, and in fact we could not place the husband into a comfortable berth where his material wants are provided for, and at the same time leave his wife to the tender mercies of the world. Any plan for the establishment of a home which does not at the same time provide for the aged carrier's wife as well as for himself is impracticable, because essentially unjust.

"This brings us to the second phase
