

HEAD-HUNTERS ON THE TRAIL

A band of Igorrotes is at last encamped on the Lewis and Clark exposition grounds and will at a late hour this afternoon hold the first dog-feast that Portlanders have ever had the opportunity of witnessing.

Feast Dance of the Igorrotes.

This afternoon and before tonight visitors will witness the unique spectacle of the natives in their canine banquet. In the half hundred natives of the band now at the fair there are probably 20 women. They are attired in blouse and skirt, but sometimes, while the male members of the tribe wear only a breech-cloth. They are fine specimens of physical manhood, being as a rule muscular, well-formed and normally developed, except as to height.

Although there are three chiefs in the tribe, the ruling spirit is Domingo, an aged man, feared and respected, for he has 17 hands to his credit, which was the first and, in fact, the only essential to his election as supreme chieftain. It is said that more people were attracted by the Igorrotes at the St. Louis fair than any other exhibition, and that promises to be the case here, at least for the last six weeks of the exposition.

LADY'S TERRIBLE RAW ECZEMA

No Tongue Can Tell Suffering—Body and Face Covered with Itching, Bleeding Sores—Awful Pains—Doctors and Medicines Failed.

ANOTHER WONDERFUL CURE BY CUTICURA

"No tongue can tell how I suffered for five years with itching and bleeding eczema, until I was cured by the Cuticura Remedies, and I am so grateful I want the world to know, for what helped me will help others. My body and face were covered with sores. One day it would seem to be better, and then break out again with the most terrible pain and itching. I have been sick several times, but never in my life did I experience such awful suffering as with this eczema. I had made up my mind that death was near at hand, and I longed for that time when I would be at rest. I had tried many different doctors and medicines without success, and my mother brought me the Cuticura Remedies, insisting that I try them. I began to feel better after the first bath with Cuticura Soap, and one application of Cuticura Ointment. I continued with the Soap and Ointment, and have taken four bottles of Cuticura Resolvent, and consider myself well. Any person having any doubt about the wonderful cure by the Cuticura Remedies can write to my address. Mrs. Allie Eton, Bellevue, Mich."

BIG ARMY HERE TO TAKE PORTLAND

Photographers of the Pacific Coast Gather in Annual Session at Arion Hall.

THEY LOOK PLEASANT AND ENJOY CITY'S BEAUTIES

Some Capital Examples of Their Art in Scenery, Life and Still Work Shown on the Walls of the Meeting-Room.

Two hundred photographers of the Pacific coast are "looking pleasant" today in Portland.

They are here to attend the fifth annual convention of the Photographers' association of the Pacific northwest and the second annual meeting of the Photographers' association of California, held jointly in Arion hall, Second and Oak streets.

There are displayed the proofs of the high level to which photographic art in the far west has climbed, among them photos of distinguished men taken by members of the associations. Such familiar faces as those of Vice-President Charles W. Fairbanks, Governor G. E. Chamberlain, Theodore B. Wilcox, John Minto, R. Livingston and others are shown; and there are pictures of Indians and scenery. The photographers have not expended any effort in hall decorations, but have gathered their best products and display them on plain black backgrounds.

Portland, Silverton, Elgin, Salem, Corvallis, Mount Vernon, Newberg and Baker City are the Oregon towns represented by displays, and there are exhibits from several California towns, and from Spokane, Tacoma and Seattle.

Noted artists from Boston, F. E. Childs and Frank Barrows, are attending the conventions and they have exhibits that have elicited many compliments. Mr. Childs shows an especially fine collection of sketchwork by photographic process, finished in water colors. They are on platinum paper.

H. D. Trowbridge of Salem is president of the Northwest association; E. W. Moore of Portland, vice-president, and Charles Butterworth, secretary-treasurer.

This morning the conventions heard a paper by J. Savannah of Victoria, British Columbia, on "Art Principles as Applied to Photography," after which there were discussion and answers to queries drawn from the question box. Frank Barrows of Boston gave an informal address.

This afternoon demonstrations in printing aristo-platino and aristo-gold paper with the aristo-electric lamp were given by R. W. Barbeau, W. G. Masters and A. J. Peterson. J. Dietrich gave a demonstration of platinum printing and Mr. Dahlgren and Mr. Hinton of Woodard, Clarke & Co., worked with several varieties of printing papers.

This evening W. G. Emery of Corvallis will read a paper on "The Country Photographer," officers will be elected and the next meeting place chosen. Several other addresses will be given.

Tomorrow afternoon and evening the convention displays of pictures will be open to the public. In the forenoon S. E. Goodall of San Francisco will speak on "Cleanliness in the Studios in General," and there will be demonstrations of carbon printing processes by experienced workers, under the direction of Henry Ritter of Portland.

BURN FAIR BUILDINGS.

Grand Spectacular Show That Would Sell Anything World Ever Saw.

Like all things that are original, burning the fair buildings at first glance may seem preposterous. After the close of the Lewis and Clark fair there will be a score of buildings that would not amount to much when once stripped of the plumbing, doors, sashes and other bits of easy portable value. What to do with them is a difficult problem for the officials to solve. They are worth little or nothing and it takes

months and, in some cases, years to tear them down and remove the debris. Paul Strain has this plan: "Here is my plan, which will mean thousands of dollars to the fair fund and hundreds of thousands of dollars to the business interests of Portland. The program can be prolonged through several nights, or carried out in one night. I would say, do it in a night. After all the exhibits have been removed and the buildings stripped of such parts as are desirable and will bring a price, then set a night, say, Thanksgiving evening; announce weeks ahead that the greatest spectacular fire ever set to program will be carried out, "The Burning of Rome." Drill 1,000 or more people as actors, bands of music soldiers, citizens and officials. Place the same under the direction of some drillmaster, and at about 11 p. m. set the buildings on fire. The railroads would run excursions and 100,000 people would attend to witness the great event. I will not attempt to describe the details, but the admission price should be placed as low as \$1. A much larger sum could be realized, from the buildings in this way than any other. There is no necessity of endangering any property. The building that is to be preserved can be protected.

WHAT TO SEE IN HAWAII AT THE JOURNAL'S EXPENSE

HONOLULU, the capital of the young territory, is in many ways the most beautiful of tropical cities. THE NUUANU PALI, a cliff with one thousand feet face, at the gap in the backbone ridge of the Islands of Oahu is one of the natural wonders of the world. PEARL HARBOR, the wonderful enclosed locks, where the United States will build its most extensive Pacific naval station, is but a half hour from Honolulu. HILO, the second city, from whose bay, surrounded by tropical verdure, one may look up to the eternal snows on Mauna Kea. KILAUEA, the greatest of living volcanoes, lies beyond Hilo, reached by combined rail and carriage trip through cane field and fern forest. HALEAKALA, whose dead crater takes first rank for extent, offers rare views from two miles above the sea. KAUAI, whose rare valleys, great canyons and impressive waterfalls are all too little known, calls for a voice of beauty. Every road is full of striking possibilities and the industries, the views, the people, the spectacles are all worth seeing and knowing.
