ready anticipating the event.

It is learned that the Northwestern Improvement company's options on probable terminal ground have been growing. Last week something like \$100,000 is reported to have been paid on these, as the time for the first installments has arrived in several cases and the company began to perfect title. The acquisition of ground by options has been extending south toward Hoyt street from the former buildings of the company along Front street. Almost everything available between Ninth and Twelfth streets, and Hoyt and Front streets has been secured. The Mc-Craken property, Columbia Engineering works and one or two other properties have not been taken, as they have large improvements, and it seems that the company will be able to fill out all needed terminal grounds without making such heavy purchases. The area controlled is as large as the old property of the Northern Pacific Terminal company, and is so situated that the railway is able to get to the river and into the big warehouse and wholesale district of the city.

Property owners throughout the city are in a state of high confidence. With

the atmosphere is surcharged with boom elements. Men with the keenest foresight believe that a big boom could be developed, but there is a general sentiment against opening anything of a pyrotechnic order. Business men ex-

outbursts, which would likely be followed in a few years with a measure of reaction. They point out with pride that the city already has resolrces warranting wast improvement, and that when an advance of 50 or even 60 per cent has been made in general values, the pyramid will be on its base, rather than its apex.

The most stimulating effect of the railway work is in the north and of the city at present, where there has been warm bidding for property, but the influence is spreading until every property owner having inside possessions is braced with new confidence. With this condition opening the fall season, when heaviest trading is usual, dealers and realty owners are preparing for a rush.

LAWSON'S HOME IS SOLD AT AUCTION FOR TAXES

Boston, Mass., Sept. 11.—Many interested spectators will attend the public auction in front of the courthouse this afternoon, when Thomas W. Lawson's Back Bay property, including the homestead, stables, etc., will be sold for taxes. It seems that the property was transferred by Mr. Lawson to his wife, Mrs. Jennie A. Lawson, two years ago. Mr. Lawson at that time overlooked the fact that the taxes for 1902 and 1903 had not been paid. Tax Collector McDonald, failing to collect the taxes and secrued interest, amounting to 35,540, advertised it for sale and set the auction for this afternoon.

When Mr. Lawson, of "Frenzied Finance" fame, heard of the announcement of the sale he was at first inclined to send his agent to the collector and let him pay the taxes, but on second

let him pay the taxes, but on second thought he decided not to spoil the fun of the suction. In regard to the matter Mr. Lawson said to a friend: "I do hope the city will get sufficient to pay that \$5,540. Otherwise we would have to throw in a dog or two." It is expected that Mr. Lawson or his agent will bid in the property at the auction.

MEGORDEN ON TRIAL FOR MURDER OF WIFE

Dr. C. Gee We, the Great Chinese Doctor, is well known and famous throughout the U.S. because his wonderful and marvelous curse have been heralded broadcast throughout the length and breadth of this country. He treats any and all diseases with powerful Chinese roots, herte, huds, barks and vegetables that are entirely unknown to medical science in this country, and through the ass of these harmlees remedies he guarantees to cure enterth, asthms, lung troubles, rhesmattam, nervousness, stomach, liver, Ridney, fomale troubles and all private diseases. (Special Dispatch to The Journal,)
Ontario, Or., Sept. 11.—Circuit court
for Malheur county convened at Vale
today with Judge George E. Davis of
the ninth judicial district presiding.
There are 37 civil cases on the docket.
The most important case or the one There are 37 civil cases on the docket.

The most important case, or the one that will excite the most interest, will be on the criminal calendar, and is that of Holover-Magorden for the murder of his wife, which tragedy occurred at their home near Nyssa on the evening of March 28. Some difficulty will ne experienced in securing a jury,

Several other important criminal cases will also be tried this term. Patients out of the city write for blanks and circular. Inclose & stamp. Address The C. Gee Wo Chinese Medicine Co., 169% 1st Sc., cor. Morrison, Portland, Cr.

German Ship Adolf in Port in Command of Gallant Captain Reimer.

BIG CARGO OF GENERAL FREIGHT FROM ANTWERF

met in the voyage.

The captain was at Portland last winter as mate of the Gurman ship Carl. While McKinley was president he saved a number of American saflors from going down on a wreck on the Atlantic coast, and the government awarded him a gold medal. Beveral German societies also gave him medals for the same act. The Adolf brought a full cargo of general freight, the principal shipment consisting of 13,279 barrels of cement. The balance of the cargo is made up of 190 tons of steel beams, 134 bales of brimstone, 400 bags of brimstone and 190 tons of steel beams, 134 bales of brimstone, 400 bags of brimstone and two cases of furniture. The steel beams will be discharged at the Star Sand company's dock, where the vessel is moored. The cargo is consigned to Balfour, Guthrie & Co. This is the first shipment of any great quantity that has been received from Europe for almost six months. The cement is badly needed, as the supply is almost exhausted.

By the arrival of the Adolf the disengaged grain fleet in the harbor is increased to four vessels; the others are the German ships Arthur Fitger, Elibek and Oregon.

MACHINERY FOR JAPAN.

a Big Shipment of Lumber.

ery will also make up a part of the cargo.

As the Numantia will go no farther than Japan on this trip it is thought she will be able to get to Portland within six weeks. Since her hull has been cleaned it is expected that she will make an unusually quick voyage.

Inquiries for flour and grain are still being received from Japan and it is bene lieved that another cargo will soon be ordered. Exporters say that another tramp steamer is likely to be chartered to load for Japan any day. Five tramps is are already on the engaged list to carry grain and flour shipments to the far east from this port, and they represent nearly 20,000 tons register.

A portion of the wheat on board the steamer F. A. Kilburn was damaged when she met with an accident last week in Coos bay. Nothing else was injured. Charles E. Steelsmith, the local agent of the line, received a talegram this morning from Marshfeld stating that nearly all the cargo had been removed and the most of it is in excellent shape. Passengers having tickets for San Francisco will leave today for that city on the steamer Breskwater and those for Eureka will go on the steamer Kursham from San Francisco.

M. P. Plant. The Kilburn struck Gunn fock.

rock.

It is not yet known just how badly she is damaged, but it is believed she will be patched up temporarily and brought to Portland for repairs. Mr. Steelsmith is of the opinion that she will not miss more than one trip, and the company will make an effort to get another steamer to take her place. Newport, R. I., Sept. 11.—Today is the 93d anniversary of the battle of Lake Eric and this city is celebrating the day as Perry day in an unusually elaborate manner. Commodore Perry, who commanded the American squadron in that battle, was a native of Newport. The city is profusely decorated with flags and pictures of Commodore Perry are exhibited in many windows. In honor of the day the warships of the coast

WILL DOCK TELEPHONE.

Arrangements have been completed for placing the steamer Telephone on the drydock to have the bottom of her huil cleaned and painted. She will probably be docked tomorrow and by the middle of the week will be placed in regular commission—very likely on the route between Portland and The Dalles.

On her maiden trip yesterday to Cascade Locks and return the Telephone made an excellent showing. Although the river is at an unusually low stage above Vancouver she made the run from the locks, a distance of 70 miles, in a trifle more than three hours. She only draws 3.8 feet of water, less than any steamer of her size on the river, and for

Pirst Shipment of Merchandise of Any Quantity That Has Been Received From Europe in Nearly Six

Captain Reimer, master of the German hip Adolf, which arrived last night com Antwerp, says he encountered time at frequent intervals at the

a Big Shipment of Lumber.

This morning the work of loading the oriental liner Numantia was started at the flour mills and it is the intention to have her ready to sail for Japan on September 18. Flour and grain will make up the major portion of her cargo. Tonight she will move over to the Eastern & Western mill to take 290,000 feet of lumber consigned to importers at Tokohama, the first port at which the steamer will call. It is more lumber than the regular freighters lumber than the regular freighter usually carry. Five carloads of machinery will also make up a part of the

Astoria. Or., Sept. 11.—Arrived at 11:15 a. m.—Steamer George Loomis, from San Francisco. Sailed this morning—Barkentine Isaac Reed, for Redondo. Arrived down during the night of Sentember 2 and sailed at 10:26 a Little Wheat Was Damaged.

VA WEEK
