

The Manual Training Voting Contest Begins Today

FATHERS AND MOTHERS, WHAT ARE YOU DOING FOR YOUR BOY?

Are you letting him just drift along in the rut, attending school when it's in session—then three or four months of play—then back at school again—the same old routine—studying the same things the other boys study, regardless of whether he is making the progress he ought to make?

Or are you watching his development carefully, keeping in close touch with his school work, his play and his leisure occupations generally—in short, are you giving the same close attention to your boy's physical, mental and moral development that you're giving to your business or social duties?

Do you believe in a practical education for boys—the kind that fits, rather than unfits them for life?

Do you believe that a boy should be taught to apply the knowledge gained in school? To learn practice as well as theory?

Do you want your boy to become a useful citizen, instead of a mere social ornament?

"COMFORT" AIR TIGHT WOOD STOVES.
 Made of sheet steel, something new, all parts made by machinery and dies, therefore, all parts are alike and fit perfectly. Top double seamed to body, no rivets, highly finished, pleasing and smooth in appearance.
"QUICK STEEL HEATERS" FOR COAL.
 The improved manner of attaching the top and bottom to the body makes it absolutely air tight. Being made of heavy steel in place of cast iron, it becomes heated through quickly and radiates the heat into the room shortly after starting fire, thus saving coal. It presents a pleasing and smooth appearance and is a new feature in Heating Stoves.

Overflow News of the Week's Doings at Portland's Foremost Store

You read yesterday's full page of sparkling news from the store—Wasn't it brimful of interest? But a page couldn't hold it all—there's more to tell you this morning—and much remains untold. Come and let us tell it to you here. Store gossip is full of intense interest these new Autumn days—be sure you don't miss a bit. Of course the most important subject talked on now is Fashion. We believe with Fielding that Fashion is the great governor of the world. It presides not only in matters of dress and amusement, but in law, physics, politics, religion and all other things of the gravest kind. Indeed, the wisest men would be puzzled to give any better reason why particular forms in all these have been at certain times universally received, and at other times universally rejected, than that they were in or out of fashion. Hand in hand at this store walk Quality and Price with Fashion. The highest quality with the lowest price. Come and see.

FINE FALL MILLINERY AT MODEST PRICES

"BIJOU SALONS—ANNEX SECOND FLOOR.
 This store is famous for its handsome millinery, its elegance, refinement and exclusiveness. While society leaders of wealth do not hesitate at the prices asked by some of the "exclusive" millinery establishments, all recognize that the intrinsic value of some hats never warrants their fancy prices. Any style can be and is copied after a short season. While in our own workrooms we copy many imported styles, our expert trimmers have a creative genius of their own and our millinery has a distinctive elegance that belongs to the store as much as does the building itself.
 Portland women await with eager interest the first showings of this great "Style Store." And the enthusiasm increases with each day as the season advances. This year our millinery folk have fairly outdone themselves in their magnificent and charming selections. The exclamations of delight and flattering encomiums that reach our ears daily are ample proof that the new hats have made a tremendous hit. Many of the styles are confined locally to this store, and no other Portland house has the artists to successfully copy them.

 "Cheap" stores are never allowed the selections we choose, but have to content themselves with our "discards"—hats YOU certainly don't want. We invite your inspection today, whether you have buying in mind or not. Here are the correct and authoritative styles with no more to pay than you would be asked by stores of absolutely no standing in the style world, for inferior productions of questionable parentage. Choose as you will.
