Eighty-Room Building at Eleventh and Columbia Streets Will Go Up Soon.

MORGAN AND OUTSIDE CAPITAL PLAN WORK

for Residences Cause Demand Steady Increase in Operations and Growing Population's Needs Will Be Greater Than Those of Visitors

Bids will soon be asked for an 80room apartment-house, which is to be
situated at Eleventh and Columbia
streets, near the six six-room flats beingbuilt by the Misses Shogren. W. L.
Morgan is having plans and specifications for the apartment-house prepared

and when these are finished will let contracts so as to have the building finished about February of next year.

The building will be put up by Mr. Morgan and California associates, and will have three stories and a basement, hydraulic elevator, steam heat, electric lights throughout, baths with each suite and every convenience that can be given a modern structure of this type. The exterior will be quite ornamental, and the interior finishing will be of the best.

best.

Apartment-houses and flats are the most popular class of buildings for the city this fall. The enterprises that have been undertaken are to be sugmented by several others before the season for building closes. Property owners realize that the city must have greatly enlarged accommodations for the growing population next year. Fair visitors this season do not require the number of new buildings that the new population will need next year, and investors are rushing work on flats, dwellings and apartment-houses with all possible speed.

Simonton & McGowan are building four flats at Seventeenth and Glisar streets, the total cost of which will be about \$9,000. The work is being directly will be ished early this year. The flats will be sightly buildings, and finished for high-class residence property.
