

GOV. ATKINSON OF HAWAII VOTES

Chief Executive of Islands Which The Journal's Guests Will Visit Hails Their Coming.

PLANS GLORIOUS TIME FOR YOUNG WOMEN

Tomorrow's Journal Will Tell the Plans He Has Made for Their Entertainment—How the Vote Stands in Various Parts of the State.

Votes by the thousands have been tallied during the last two days in the Journal's contest for a trip to Hawaii. Some of the ballots came from Honolulu. Some were sent by Acting Governor Atkinson of Hawaii, who has taken an active interest in the contest. For whom Acting Governor Atkinson voted and some of the plans he has for entertaining the Journal's guests in the island next winter will be told tomorrow. He has suggested one plan that has been acted upon immediately.

Miss Clara Swain.

by prominent people of Hawaii and this alone makes it sure that the eight young women of Oregon will not have a dull moment during their visit. Several changes have been made in the standing of the candidates in the heavy voting of the past two days. In the first district Miss Sallie Madigan, of the Olds, Wortman & King store, still leads and now has 26,487 votes to her credit. Miss Minnie Phillips, deputy clerk of the circuit court, is a strong second, being less than 2,000 votes behind the leader. Miss Wintermantle retains third place and Miss Laura Baty takes fourth place with 24,428 to her credit. Miss Gretchen Kurth is fifth and Miss Ruth Lee is sixth. For seventh position several candidates are very close and a few votes for any one of them would give them a good hold on it.

The second district continues to show active voting. Miss Katie Nash, of La Grande, takes first place with 14,267 votes. Miss Pendleton continues to make a hard fight for the first place and Miss Agnes Fletcher of that city is second with 11,591 votes. Miss Fletcher's friends say they hope to have their favorite in the lead when the next canvass is made. Miss Emilie Crossen of The Dalles again leads in the third district with 12,461 votes, while close behind her is Miss Stella Richardson of Hood River with 11,491 votes.

The fourth district, where the contest is waged vigorously, has a new leader. She is Miss Clara Swain of Burns, who jumps to the head of the list with 11,551 votes. Miss Hattie Barton is a close second, having 11,689 votes to her credit. The other candidates are running in close order and the race in this district is very interesting. In the fourth district Miss Daley Battery of Vale is a new candidate. Her nomination was accompanied by 494 votes. Miss Battery is a school teacher and has a host of friends who will work in her behalf.

Miss Williams of Kelso continues as leader in the fifth district with Miss Katherine Gore of Kalama second. In the sixth district Miss Madge Batten of Eugene continues to lead, having 13,094 votes. Miss Lucy Moreton of Woodburn and her friends are making an active fight and she is a strong second with 10,449 votes. Miss Bertha Courtemanche of McMinnville retains first place in the seventh district with Miss Hazel Kennedy of Lafayette second. In the eighth district Miss Edna Paraley of Beesburg is the leader with 12,153 votes and Miss Dale Harmon is second.

YOUTH'S WILD LIFE LEADS TO ATTEMPTED SUICIDE

(Special Dispatch to the Journal.)

Walla, Wash., Sept. 16.—Dependent because of the life he was leading and the trouble that he has caused his parents Thomas McFale, 17 years old, made a desperate attempt to commit suicide at the Delmonico lodging-house early yesterday morning by swallowing a dose of arsenic large enough to have killed three men. A woman who was with McFale at the time summoned a doctor in time.

CITY STREETS TO BE IMPROVED

Officials Begin Crusade That Will Make Portland's Thoroughfares Better.

EAST MORRISON MAY BE CLOSED TO ALL TRAFFIC

Council Holds Consolidated Responsible for Condition of Some Paving and Will Try to Compel It to Maintain Roadways Properly.

City officials have begun a crusade for better streets, and the city council will improve many thoroughfares which are in a deplorable condition. Some of these streets are in the heart of the business district, including First and Second streets, where the pavements have become so worn that the car tracks project several inches above the grade.

The Portland Consolidated Railway company is said to be responsible for the poor condition of many of the thoroughfares. It has opposed the work under threat that the streets would be blockaded and franchises revoked.

At the meeting of the city council yesterday resolutions were adopted requiring the railway company to assist in the improvement of Shaver street between Mississippi and Maryland avenues and Second street from Market to Madison streets or to take up its tracks over which cars have not run regularly for several weeks.

The committee personally inspected Second street and found it in a bad condition and a great drawback to the shutting property. It was decided to improve by the use of some smooth surface pavement to be decided on by the property owners.

Councilman Kelleher stated that the property owners in East Portland in the vicinity of Grand and Union avenues and East Oak and East Stark streets were anxious to have the old elevated roadways abandoned and fills made. The recent fire in that locality had proved a lesson and that the people desired no more roadways built on stilts.

East Morrison street was given considerable attention by the committee. It was stated that the Pacific Bridge company has a contract with the property owners to fill the thoroughfare, but the Portland Consolidated Railway company did not desire to have the work started until after the fair, as it would seriously interfere with streetcar traffic to have the road torn up. Proceedings have been started for the fill, and the city engineer will have the estimates prepared within a short time.

"Something should be done immediately with this street," said Councilman Kelleher. "If an attempt is made to delay the improvement the street should be barricaded to prevent teams, streetcars and foot passengers from crossing the bridge until the cooperation of the property owners are willing to proceed with the work."

Mark O'Neill stated that property owners in South Portland had decided not to take the payment of the assessment of cost of the fills in the Waterfront into court. He was of the opinion that they would soon make the payments on the improvements.

FAIR WILL ENRICH ALL OREGON

Results Obtained by the St. Louis Exposition Will Be Duplicated Here.

MISSOURI METROPOLIS HAD SHOWER OF FORTUNE

Remarkable Increase in Business and Real Estate Values Will Be Seen Throughout State as Result of Advertising in the East.

In data gathered by the Portland Commercial club to exactly ascertain the nature of results that have followed expositions in other cities are found many convincing facts to prove that Portland will forge steadily ahead and her commercial and real estate interests will feel no ill effects from the closing of the exposition.

"The investment of \$10,000,000 by St. Louis in the stock of the exposition has paid more than tenfold. The exposition has given us 10 new railroads and five new trunk lines running into St. Louis—one from Memphis, one from New Orleans, one from El Paso, one from Kansas City and a double-track road from Chicago," is the way it is summed up by Festus J. Wade, prominent in St. Louis' commercial world and member of the Business Men's league.

"The exposition has firmly established St. Louis as a financial center. It has advanced and solidified every form of legitimate business enterprise, vastly increased the population and wealth of the city and thoroughly established the values of St. Louis' real estate."

While the natural conditions in and about St. Louis do not present any special features explaining the marvel, it is said there has been a wonderful growth in the population and industries of the city ever since the Missouri Historical society first suggested, in 1898, the giving of the Louisiana Purchase exposition.

Figures Show Benefits.

"At that time," says Mr. Wade, "the taxable wealth of St. Louis aggregated \$360,000,000; today it is \$437,000,000. The banking capital of St. Louis in 1898 was \$29,000,000; today it is \$80,000,000. The total bank and trust company deposits in 1898 were \$122,000,000; today they are \$252,000,000. To meet these deposits, cash and cash items are held by the banks and trust companies aggregating more than \$101,000,000, or practically 40 per cent reserve against the entire deposits, a showing no other financial center approaches.

"The total clearings of St. Louis in 1898 were \$1,465,462,062; in 1904 they will aggregate more than \$2,800,000,000. In 1898 the wholesale jobbing trade in dry goods and kindred lines in St. Louis aggregated \$40,000,000; in 1904 it will exceed \$80,000,000. In 1898 the retail dry goods business in St. Louis aggregated \$14,000,000; in 1904 it will exceed \$30,000,000.

"He adds that in 1898 there were but one or two establishments in St. Louis with a volume of business as large as \$4,000,000. Today a dozen St. Louis merchants are transacting annually a business of more than \$10,000,000 each. In 1898 the capital of the largest bank and trust company in the city was only \$4,000,000. Today there is one institution with a capital of \$15,500,000, another with \$10,500,000, a third with \$5,500,000, one with \$3,500,000, and numerous others with capital larger than that of the largest one seven years ago.

Property Values Increased.

"While there was, and still is, an absence of activity in the buying and selling of real estate on account of the exposition, nevertheless, no interest has been so largely and permanently benefited as the real property owners in St. Louis. The exposition has firmly established real estate as a conservative and safe investment. It has educated all classes of St. Louis property owners to the wisdom of supporting and encouraging the municipal government in enlarging and developing all good public improvements. It has opened the eyes of our homes, the greatness of our commercial establishments, the magnitude of our manufacturing industries, the solidity of our financial institutions, the beauty of our public parks. It has been calculated by an astute and experienced advertiser (that if all the free reading notices about St. Louis, printed as a result of the exposition in the newspapers and periodicals of the country, were counted at regular advertising rates, it would be found that St. Louis had received advertising that could not have been purchased for \$10,000,000 cash."

Results Will Be Seen Here.

Comparing these statements and figures with conditions in Portland and Oregon, it is estimated that this country will receive 10 times the benefit St. Louis received as a result of the exposition. This city and state are richer in resources, more desirable in climate and more beautiful in natural form, and the opportunities here are so much more extensive and numerous for the profitable investment of both money and brains that it is regarded as certain that the proportion of profit to Oregon from the Lewis and Clark exposition will be far greater than were reaped by St. Louis commercial interests from the Louisiana Purchase exposition.

ORINO Laxative Fruit Syrup

Pleasant to take and does not gripe or nauseate

Cures Chronic Constipation, Stomach and Liver Trouble

Stimulation Without Irritation.

ORINO Laxative Fruit Syrup is a new laxative syrup combined with the delicious flavor of fruits, and is very pleasant to take. It will not gripe or sicken. It is much more pleasant and effective than Pills, Tablets and Saline Waters, as it does not derange the Stomach, or irritate the Kidneys, Liver or Bowels.

Constipation.

ORINO Laxative Fruit Syrup will positively cure chronic constipation as it restores the natural action of the intestinal tract. Ordinary cathartics may give temporary relief but the stomach is upset and the bowels are irritated without any permanent benefit having been derived.

Why ORINO is different.

ORINO Laxative Fruit Syrup is the only preparation that really acts upon all of the digestive organs. Other preparations act upon the lower bowel only and do not touch the Liver. It can very readily be seen that a preparation that does not act upon all of the digestive organs, can not cure Chronic Constipation, Torpid Liver, Indigestion, Sour Stomach, etc.

For Biliousness and Sick Headache.

Take ORINO Laxative Fruit Syrup. It sweetens the stomach, aids digestion and acts as a gentle stimulant on the liver and bowels without irritating these organs.

Clears the Complexion.

ORINO Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Refuse substitutes.

OUR GUARANTEE Take ORINO Laxative Fruit Syrup and if you are not satisfied your money will be refunded.

Prepared only by FOLEY & CO., Chicago, Ill.

AGRICULTURE CLUB'S GREAT CELEBRATION

The Agriculture club of Oregon proposes to make its days at the exposition—September 28 and 29—among the most notable of the fair. Each county will advertise the celebration extensively in the county papers. Other features will be the giving of 4,000 valuable prizes, the distribution of five carloads of fruit and the expenditure of \$1,000 for floats and costumes, for a great parade, emblematic of the evolution of agriculture from 1804 to the present time. There will be another parade the second evening. Cash prizes amounting to \$100 will be given for the best decorated vehicles appearing in the latter.

Reorganized Letter Day Saints.

The Reorganized Letter Day Saints will dress their reunion Sunday night. Preaching at 11 a. m. by T. W. Chatburn, and at 8 p. m. by President Joseph Smith. Prayer and testimony meeting at 2:30 p. m.
