(Special Dispatch by Leased Wire to The Journal)

New York, Sept. 15.—A riot in which
several hundred people were engaged in
front of the Academy of Music at Fourteenth street and Irving place tonight,
as the result of rival out of door political meetings and the objection of the
theatre managers to the collection of
crowds, in front of the playhouse,
marred for a time the progress of the
play "Way Down East" and ended in a
disturbance in which—heads were battered. The police reserves from the
East Twenty-second street station were
called out and three arrests were made,

(Special Dispatch by Lessed Wire to The Journal)
New York, Sept. 18.—Gwing to the
congregation in large numbers of Russian gentiles in the eastern portion of
the United States, the headquarters of
the Russian orthodex church is being
removed from San Francisco to New
York. The actual change takes place
September 27, on the arrival of Archbishop Tikhon and his assistants, Father
Poposs, Father Grevsky and Descon
Deluass.

As a result of this he believed many Russian gentiles will emigrats to this country, while on the other hand many Russian Hebrews who are now here will return to Russia to take advantage of the countiless commercial possibilities which the natural resources of Russia afford. These gentiles who will leave Russia owing to this, will, he expects, gettle in the eastern part of the United States.

# SOCIAL SECRETARY REIGNS IN WASHINGTON

Highly-Connected Women Hard Up Financially Ruling Society -What They Do.

(Washington Bureau of The Journal.)
Washington, Sept. 16.—This is the era of the social secretary. Nowhere is the new regime so apparent as in Washington. Once on a time the gentle born, whom cruel fortune had reduced to the extremity of earning her bread, cast about for a soft government job. Now, the highly connected, beauteous maiden gets her influence together for the purpose of entering the household of some big official or millionaire resident as the social arbiter.

big official or millionaire resident as the social arbiter.

There are about 10 social secretaries in Washington who wield a tremendous power, politically as well as otherwise. Miss Isabelle Hagner is easily the first, though when it comes to feathering one's nest, there is nothing to be urged against the efforts of Miss Helen Squire, the assertive young woman who does the writing for young Mrs. Chauncey M. Depew.

Archbishop Tikhon will take up his residence with the Rev. Alexander Hotovisty at 15 East Ninety-seventh street, the rectory of the Russian church, which adjoins the church on the same street. Eventually this church will be made the cathedral of the Russian church in the United States.

In discussing the change the Rev. Hotovisty said that the growth of the orthodox church in New York is assured. As a sesult of M. Witte's visit to this country as a peace envoy a more liberal and broader treatment of the Hebrews by the Russian government will occur. Instead of being restricted to zones he anticipates that in a short period of time the Russian Hebrew will be accorded the same rights and freedom as are accorded to the gentiles.

As a result of this he believed many Russian gentiles will, emigrate to this received.

Railroads Preparing for Record Movement of Colonists During Fall Months.

SPECIAL RATE IS NOW IN EFFECT FROM EAST

Those Who Have Been Planning to Seek New Homes Are Given Op portunity and Thousands Are Sure

Railroad people expect a much large vest this fall than ever before. The railroads are making preparations for

railroads are making preparations for handling a great many homeseckers," said Willism McMurray, assistant general passenger agent of the Harriman lines in Oregon, yesterday.

The one-way colonist rate of \$25 went into effect Priday and will continue until October 12. It applies from all points in Missouri river territory, and a few dollars more will bring the homesecker from Chicago or St. Paul or St. Louis territory. The middle west is expected to supply thousands of people to increase the population of Oregon, Washington and Idaho svery year from this time forward. People of those states have been favorably impressed by the advertising that has been done by the railroads, the Lewis and Clark exposition, the commercial bodies and merchants of the Pacific coast states, and these impressions have been strengthened by statements made by thousands who have come to the Lewis and Clark fair and have seen the country and returned home.

Last spring the railroads put in a one-way rate of \$25 from Missouri river territory to the Pacific northwest, and

Last spring the fairball souri river one-way rate of \$25 from Missouri river to the Pacific northwest, and one-way rate of \$25 from Missouri river territory to the Pacific northwest, and it continued in effect three months. It was accompanied by a half rate on freight consisting of emigrant equipment in car lots. Eastern homescekers were not at that time fully acquainted with conditions here, and had not made sale of their livestock and property with a view to moving immediately, and they did not have sufficient time to make preparation and move before the rate time limits expired. They have had forewarning that the one-way colonist rate would give them opportunity to come this fall, and it is said many have made arrangements to come here to live.

Hundreds who were among the fair visitors and investigated the state on the round trip excursion rates this summer, have gone back to complete arrangements for moving to Oregon. Washington or Idaho this fail, and for them the one-way colonist rate will prove beneficial. The colonist rate is really for those who have come and made personal examination of the country and made up their minds to bring their families here to live. The railroads will not again apply the half-rate
