PHILADELPHIA TURNS ON THE BOSSES

Anti-Ring Convention Names Ticket Which is Indorsed by the Democrats.

(Journal Special Service.)
Philadelphia, Sept. 21.—The anti-boss convention held by the new non-partisan city party, amid scenes of great enthusiasm last night nominated the following ticket, which was indorsed by the Democrats:
Sheriff, Wilson H. Brown; coroner, J. M. E. Jernan; city commissioner, Ralph Blankenburg; and H. W. Anderson; judge of common pleas court No. 1, Craig Biddle; judge of orphans' court, Morris Dallett; Judge Biddle and Dallett are at present on the bench and are the regular Republican nominees for reelection.
The entire convention marched to the city hall and acquainted Mayor Weaver with the result. City Chairman Edmunds told the mayor, who was lifted to a table in the reception-room, of the convention's action and the mayor replied, stating that the present work was only the beginning of the fight for the people against corruption and that while Philadelphia had been corrupt she would show the world that she was not contented.
The platform states the city party has been formed for the redemption of Philadelphia from the "control of corrupt and criminal conspirators, calling themselves Republicans" and aims to put an end to the regime of graft and to substitute a government by and for the people. It concludes with an indorsement of Mayor Weaver.
The Democratic platform commends Mayor Weaver for his "bravery, with the gang and espousing the cause of the people."

MILLS MAKING RAILS INSTEAD OF PIG IRON

(Journal Special Service.)
Pittsburg, Pa., Sept. 21.—An order for pig iron sent out by one of the large finishing mills in this city was returned today with the remark that owing to the great demand for rails and structural work the mill, which had formerly turned out pig metal and steel billets, is now making rails. An investigation shows that many of the big mills at Clairton and Duquesne, which formerly made billets, are now turning out rails. The managers of the local finishing works are becoming alarmed over the scarcity of pig iron and rough steel and fear that it will seriously interfere with their ability to turn out their orders. It is stated on good authority that not enough pig iron and steel billets will be turned out each week for some time to come to supply the demand. An investigation has been ordered and in a few days the local mills will probably decide upon some plan to remedy the trouble. The demand for rails and structural iron is unprecedented and the mills are working night and day.

Freeman Raises Price of Work on First Story of East Side High School.

OFFER WAS MUCH LOWER THAN THAT OF OTHERS

Board of Education Postpones Awards Until Monday and Attends to Business of Transferring and Assigning and Electing Teachers.

M. E. Freeman submitted a bid of \$21,900 for building the first story of the east side high school, the material used to be Tenino sandstone. There were eight other bidders, including Bingham & McClelland, G. Zanillo, Palmer & Ellis, W. B. Steele & Son, John Bingham, George Langford, Friberg Bros. and P. Hobbick. Freeman's bid was lowest by nearly \$7,000.

At the meeting of the board of school directors last night, when the contract was about to be awarded to Freeman, he stated that local stonemasons whom he had relied to cut the stone, had failed to keep their contract with him, and he would be unable to furnish the material for the amount named in the bid. He asked the board for an additional \$2,000, which he said would be the amount he would lose if the contract were not awarded at the figures submitted. After lengthy discussion it was decided to defer action until the regular board meeting Monday night, at which time it is expected that a call will be made for new bids.

TO BRING OWENS RIVER INTO LOS ANGELES CITY

(Journal Special Service.)
Los Angeles, Cal., Sept. 21.—The city having voted in favor of issuing bonds to the amount of \$21,000,000 for the purpose of bringing the Owens river to this city in a conduit 240 miles long, the municipality will begin the enormous task without delay. It is not expected that the placing of the bonds will meet with any difficulties, and it is stated that many inquiries from eastern and San Francisco banks in regard to the proposed bond issue have been received. The preliminary surveys will be made as soon as the arrangements can be made.

Owens valley is in Inyo county, due north of this city, and catches the drainage from 120 miles of the high Sierras, including Mount Whitney. The supply is estimated at 30,000 miners' inches, and while the estimated cost of the piping is about \$25,000,000, the value of water from Los Angeles is generally estimated at \$2,000 an inch. The city will furnish the water at about cost.

The brotherhood includes a junior department with 400 chapters and about 5,000 members in the United States. The brotherhood idea has also taken root in Canada and the Brotherhood of St. Andrew in the Church of England in the Dominion of Canada has been formed and has now over 200 chapters with more than 1,500 members.
