

WILLIE WESTINGHOUSE GIVES THE TWINS A SHAKING UP

Dear Tommy: Here's a diagram of a Ferris wheel I built for Jim's twins.

They balance so nicely it didn't take much weight to turn the machine.

But I tried a little more weight to get on extra speed.

It was too heavy, and the thing started to spin like a pinwheel.

It nearly shook the twins apart before the weight reached the bottom.

They weren't hurt a bit; but, my! Jim was mad. Yours, Willie.
