

MISS HEAVEN TO THE FORE

Vancouver Miss Makes Surprising Gain in The Journal Contest for Trip to Hawaii.

EIGHT THOUSAND VOTES GAINED IN TWO DAYS

Fendleton Snatches the Lead From La Grande in the Second District—How the Votes are Rolling in Elsewhere About the State.

The feature of The Journal's Hawaiian trip contest during the past two days in the way Vancouver and Fendleton have forged to the front. When the canvass of votes was completed last night it showed that the candidates in these two cities had made wonderful gains and now lead their districts. The most remarkable gain was made by Miss Florence Heaven of Vancouver. In two days more than 8,000 votes were cast for her, making her total vote 19,729 and giving her a substantial lead in the

Miss Florence Heaven.

Fifth district. The first position in this district has been held for some time by Miss Williams of Koloa and although she made quite a gain she failed to overcome the great spurt made by Miss Heaven. The friends of Miss Heaven now declare they are going to manage her campaign to "make it grow without watching." Miss Katherine Gore of Kalama is third in this district, with 15,753 votes.

Fendleton Downs La Grande.

The gain made by Miss Agnes Fletcher of Fendleton was another feature of the past two days. Miss Fletcher, who has been leading the Fendleton delegation in the Second district, made a gain of more than 4,000 votes in two days and has wrested the coveted first position from La Grande. Miss Fletcher now has 24,435 votes to her credit and her friends declare they will continue to keep her in the lead in the district until the contest closes. They will, however, have to work hard for strong forces are working in favor of La Grande. Miss Katie Nash of La Grande, who has been the leader, has also made quite a gain in the past two days and now has 21,524 votes to her credit. Miss Mollie Probstel of La Grande is third in the district with 17,450 votes.

The Dalles vs. Hood River.

The battle in the Third district continues apparently between The Dalles and Hood River but at present the former place has the advantage, for two of

its candidates hold first and second positions. Miss Bessie Crossen leads with 19,451 votes and Miss Crain is second with 18,912 votes. Miss Stella Richardson of Hood River has third place with 17,076 votes to her credit. In the Fourth district Miss Mattie Barton of Baker City is the leader with 14,849 votes and Miss Swain of Burns is second with 14,512 votes. Miss Mae King of Ontario is third with 12,869 votes. Eugene continues to forge to the front in the Sixth district. Miss Madge Bates of that city is the leader with 21,167 votes and Miss Blanche Brown of Salem is second with 14,912 votes. Miss Lucy Morcom of Woodburn has third place with 14,668 votes. Miss Fay Cooley of Brownsville is a new candidate in this district and starts with 25 votes.

ORDER OF EVENTS AT THE FAIR FRIDAY

- The order of events at the fair tomorrow will be as follows:
- 8 a. m.—Gates open.
- 9 a. m.—Exhibit buildings, Government buildings and Trail open.
- 9 to 10:30 a. m.—De Caprio's Administration band, Agricultural building.
- 10 to 11 a. m.—Concert by United States Artillery band, Government terrace.

- 8:30 p. m.—Grand electrical illumination of exposition buildings and grounds.
- 10 p. m.—Foreign and Oriental buildings close.
- 11 p. m.—Gates close.
- 11:30 p. m.—Trail closes.

KNIGHTS THROU FAIR IN SPITE OF WEATHER

It is estimated that at least 1,900 Knights of Pythias attended the celebration of K. of P. day at the exposition yesterday, notwithstanding the showers of the forenoon. At 3 o'clock the uniformed rank appeared and, shortly after marching into the grounds, a competitive drill took place in front of the Oregon building, the teams from Astoria, Hubbard and McMinnville participating, while hundreds of visitors watched the maneuvers and applauded. Astoria was awarded first prize for proficiency (\$125), with Hubbard second (\$100) and McMinnville third (\$50). The last was given for the greatest percentage of membership. None of Portland's teams were entered. The judges were Captains Murphy, Dunbar and Smith of the Oregon National Guard, while Grand Chancellor Marston F. Davis presented the prizes.

CAPITAL CHOOSES SELLWOOD

Place Runs a Close Second to St. Johns in Race for Manufacturing Plants.

SCOURING MILL IS CHIEF NEW INDUSTRY PLANNED

Paint Factory May Be Erected on Five-Acre Tract East of Suburb and Company Secures Johnson Creek Site for Power Plant.

The east side office of The Journal is in the store of J. M. C. Miller, 290 East Morrison street. Telephone East 370.

Sellwood is running a close second to St. Johns in the race for prominence as a manufacturing center. At present there are industries actually secured and others rumored that will materially add to the already large business of the suburb. Sellwood has the only stream of water of any size in East Portland and this, with railroad facilities and large tracts of lowlands fit only for factory sites, causes the investor to look with favor on the place. The scouring mill, which will be erected on the site of the old Portland woolen mill, is the chief new industry secured. Work will be commenced on this plant during the present month. The flume of the woolen mill is in fair repair and easily can be made serviceable. Two buildings of the old mill remain from the ruin caused by the fire two years ago, and these can be used to advantage until new structures are completed. The site is beside the Southern Pacific main line, a spur already connects the main building left standing and but a short distance away the new line of the O. W. P. company to Estacada offers transportation facilities. When completed early in January the scouring plant will treat wool enough for all the Oregon mills and besides, the wool buyers to send their product to the eastern markets in salable condition, instead of in the greasy, as has been necessary heretofore. Negotiations have been opened by southern Oregon people looking to the construction of a paint factory on a five-acre tract two miles east of Sellwood. W. F. Johnson of St. Johns has been in the field looking over the situation as engineer and plant importance may be built. This is the same enterprise that came near locating at St. Johns, but withdrew because the board of trade and council did not think the company offered enough inducement for the granting of the bonus asked. This week several lots on lower Johnson creek have been sold to an out-of-town capitalist, who announced to the agent making the sale his intention to utilize the water power on the stream in a manufacturing plant. The nature of the enterprise is being kept secret until additional capital has been secured for the project.

STREET IS USELESS.

South Grand Avenue Closed to Traffic and Even Pedestrians.

The condition of South Grand avenue is not only making teaming on that street impossible but is causing a general complaint from residents who are forced to walk several blocks in order to discover a few spots dry enough to enable them to board a streetcar. From Harrison to Stevens street on Grand avenue the conditions are worse than on any other part of the thoroughfare, and so deep is the mud that the crosswalks and car tracks are covered and heavy wagons, even when empty, have a hard time getting through. The pavement placed some years ago has so disintegrated that no trace of it is left, save an occasional plank submerged in the mud. The street, if in repair, would be a busy one, as it is the only direct outlet for a considerable traffic. Non-resident property-owners are said to be the cause of this condition, they not desiring to pay assessments for the replanking or macadamizing of the thoroughfare.

WASTE TRACT CLEARED.

Home Will Take Place of Last Brush District in Sellwood.

After having sold more lots in Sellwood this summer than had been transferred in the suburb during the last four years and after starting a boom in the building of homes that has resulted in more than 50 families being added to the suburb's population, the promoters of the district, especially those representing the estates and individuals who own large tracts of yet wild land in the city limits near the golf links, have commenced to improve tracts which a year ago seemed liable to lie idle for a decade. The lands on the southern border of the place are being cleared and will be placed on the market this winter or next spring. These for the most part are on graded streets, or macadam county roads, and little grading and filling will have to be done to make them suitable for building purposes.

EAST SIDE NOTES.

The South Mount Tabor school, which is not connected with the Mount Tabor district, has this year a manual training and domestic science department, operated along the same plan as those laid out by the city superintendent for the Portland schools. A room has been equipped with tools and material and all the grades have instructors in both branches. The Milwaukee town hall will be built only when the saloons and poolroom there pay enough to enable the town to erect the building without acquiring a debt. Mayor W. Schindler and the council have adopted a pay-as-you-go plan and refuse to let the contract until money is on hand to meet the obligation. Epworth Leaguers of city Methodist churches will give a farewell reception to Miss Laura F. Austin, who will leave San Francisco tomorrow for the subcontinent in India. The reception will be held at the Centenary church tomorrow evening. Residents of Waverly and Woodstock want a 10-minute car service, and a petition asking this favor of the Consolidated company has received numerous signatures. The company will not take action on the matter until some time after the close of the fair.

Injured in Runaway.
(Special Dispatch to The Journal.)
Rainier, Or., Oct. 12.—Mr. and Mrs. Lovelace and their daughter, Miss Marjorie, were returning home from here in a farm wagon drawn by two horses, when a halter broke, causing the horses to run away. The occupants were

A UNIQUE EXHIBIT

Orchestrelles in All Styles Presented This Week—A Few at Special Prices.

Piano Exhibition Also Continues—Baby Grands and Uprights.

The Most Elaborate of \$1,500 Styles, as Well as Instruments at \$1,000, \$850, \$600, \$400 and Down to \$150 Are Included—Impromptu Recitals Daily.

Of all forms of instrumental music that of the Orchestrelle is the most beautiful. Itself, the aggregation of all the accepted means by which man has ever expressed himself in music, the Orchestrelle is a masterpiece of human genius. Any single instrument that in the home music with anything like Orchestrelle effect must, therefore, appeal to everybody who knows what good music is, or has any taste for it whatever. Such an instrument is the Orchestrelle.

With remarkable melody and with a beauty and variety of tone coloring impossible to describe, it simulates the various voices of the orchestral family. If one is a musician, the Orchestrelle can be played with the keys the same as any accepted instrument in music. It can be played even better with the Aeolian Company's perforated music rolls, in which case no technical knowledge is necessary, and only a short period of practice.

During this Exposition Orchestrelles will be shown from the simplest form costing \$150, through a vast array of choice instruments in oak, mahogany and fancy walnut casings, up to the most elaborate of \$1,500 and up to \$2,500.

A FEW SPECIALS.

We offer today a very fine mahogany Aeolian, the regular \$450 style, with \$20 worth of music, for \$275. This is a discontinued style, but strictly new, wanted, and very fine.

We have also a very elegant special style Aeolian in oak, case the \$450 style, for \$320, accompanied also by \$20 worth of Aeolian grand music.

A very nice \$600 style Colonial Aeolian, splendid combination, special price today, with \$20 worth of Aeolian grand rolls, \$350.

Another very similar style, \$365, beautiful light mahogany case.

The above two instruments are exact duplicates of the instruments sold to His Holiness, Pope Leo XIII, also to the late Queen Victoria, to Jean de Reszke, and to many other notables.

A large number of very fine little Aeolian Orchestrelles, the new Princess style, in mahogany case—regular retail price \$150, now \$110 down to \$85 a month (accompanied by \$15 worth of Aeolian grand music rolls). Miss Helen Gould recently purchased one of these instruments at Aeolian Hall, New York, and they are used extensively throughout the land. Just the thing for small apartments, where beautiful quality of tone is desired rather than great volume and variety.

Probably the biggest value in an Orchestrelle is the beautiful oak-cased sample instrument displayed in the west window, an instrument that should be sold for \$250, and will go to the first Orchestrelle buyer who sees it at a discount so large that we dare not publish it in print.

Orchestrelles are sold throughout the land under contract to maintain regularly established factory prices, and it is only on the rarest occasions that such opportunities as the above are presented. In this collection will be found today the beautiful style "O" solo Orchestrelle instrument; also the new style "V," price \$1,500, and the "W," price \$1,800.

One of the famous style "V" solo Orchestrelles came in Friday, but was immediately sold to a prominent home in Idaho. A duplicate of this solo Orchestrelle is expected within the next few days, price \$3,500, and at that time every single catalogue and several special offers of Orchestrelles will be played at the Eilers salesrooms.

NOTABLE PATRONS HERE.

Orchestrelles we take pleasure in enumerating the following prominent residents of this city and state, viz: C. A. Aikley, J. M. Arthur, E. Buchner, Mrs. L. N. Foster, William M. Ladd, Charles E. Ladd, J. Wesley Ladd, W. F. Olds, Portland Hotel, Tacoma Hotel, Green Bay Hotel Springs Hotel, Hot Lake Sanitarium, George J. Turrell, Seattle.

Impromptu Orchestrelle and Pianola recitals will be given daily during this week at Eilers Piano House, 361 Washington, Corner Park (Eighth) street.

thrown out and Marjorie Lovelace received internal injuries. She will recover.

LARGEST OCEAN GREYHOUND

ON VIRGIN VOYAGE

New Hamburg-American Line
Amerika Leaves Dover for New York.

(Journal Special Service.)
Dover, Oct. 12.—The new Hamburg-American liner Amerika, Captain Saugman, now on its virgin trip across the Atlantic, left here today with a full cargo of passengers and freight for New York and is expected to arrive there on October 18 or 19. The Amerika is one of the largest passenger steamships ever launched and her displacement of 42,000 tons is greater than that of any other vessel in the world. The steamer has a length of 687 feet, a beam of 74 feet 6 inches, and a depth of 53 feet. Her gross tonnage is about 39,000, and when loaded she will carry more than 14,000 tons of cargo. The steamer is not built for speed, but will have fair speed, considering her size and construction. Her twin screws are revolved by quadruple expansion engines indicating 15,000 horsepower. They are built on the balanced principle, which reduces vibration. The steamer embodies many novel features, among them a restaurant, where meals will be served a la carte. The restaurant is on the sixth of the enormous decks and accommodates 120 persons. Its decorative scheme is in Renaissance, with elaborate effects in chased bronze. Other novel features are an electric passenger elevator, a nursery for children, trained nurses for those who happen to be ill, a women's hairdresser, a florist shop, a candy store, luxurious hydropathic and electric baths, with massages; a gymnasium, suites de luxe in exquisite color, state room telephone service and Marconi wireless telegraph. Saloon travelers have three decks for promenading. The ship has accommodations for 3,057 travelers, while the crew consists of 529 men. Great care has been taken to thoroughly ventilate the ship in all its parts and all the latest safety appliances have been adopted.

Chastet Death.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them on hand since, as I did they have no equal." Skidmore Drug Co., 131 Third street, guarantees them at 50c.
