FOR OREGON

Ex-Governor Moore Expresses Sentiments of Garden City for Metropolis.

NEEDS OF TWO STATES

Portland Business Men's Excursion Cooperation Is Desired.

(Special Dispatch to The Journal.)

Walls Walls. Wash., Oct. 20.—Walls Walls walls. Wash., Oct. 20.—Walls Walls's friendship for Portland and her business men was aptly illustrated by ex-Governor M. C. Moore in his address of welcome to the Portland business men who were here yesterday at the reception tendered the excursionists at the Walls Walls club. The expression of sentiment was not only roundly applauded by the visitors, but by every Walls Walls merchant and business man in the audience, and there were fully 150 of them. Governor Moore said:

"In behalf of the Walls Walls Com-

walled by the visitors, but by every Walle Walle merchant and business man in the audience, and there were rully 160 of them. Governor Moore such that they do the models are conserved to the state of the Walle Walle Commercial city and our citizens generally. It gives me pleasure to welcome you to the Garden City.

"Our people have always had a neighborly feeling fee the Cregon metropout of the Walle Walle Walle. We do not forget that until 1852 were down to the Garden City.

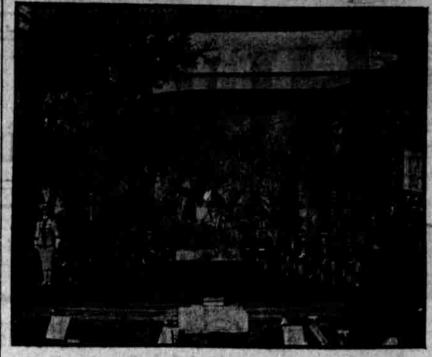

"Our people have always had a neighborly feeling fee the Cregon metropout of the Walle Wa

unqualified support for such measures as are necessary to give effect to the president's policy, as under present conditions railroad corporations are possessed of arbitrary and unwholesome power, and some of them exercise it in an arbitrary and unwholesome fashiou. There must be some check, some power that shall say, Thus far shall thou go and no further.

"In has last report Mr. Hill says that the average rate of freight on the whole system is .792 of a cent per mile, this covers all classes of freight, high-class and low-class traffic. Applying this rate to wheat (which is low class) to the 250-mile haul between here and Portland we should have a rate on wheat of \$1.98 per ton, against a rate of \$2.15 late the younger men of your party upon which we now pay. We will confidently expect that when the road down the magnificent opportunities that await them. You are living in the golden age north bank of the Columbia is comof the republic. Never in all history party will be a provided this benevolent moreover will be a provided that the provided the provided that the provid

destinies in their hands to place all the coast cities on the same footing in the matter of rates. Portland has the advantage of the down-hill haul, but you must not overlook the fact that this advantage is offset in some degree at present by the disadvantage of insufficient water for the largest class of ships. To hold the rich trade of the interior you must be alert, you must be enterprising, you must be accommodating and you must help us in our fight for better train service. At present Portland has the advantage in this respect, but it can be improved.

"If you want our people to visit you and to trade with you it behooves you to make travel as comfortable as possible, and freight rates as cheap as

to make travel as comfortable as pos-sible, and freight rates as cheap as possible. We want your assistance in our demand for a wider sone in which to distribute our goods and our manu-factures. We have a common interest in this, and we hope for your coopera-tion.

Magnificent Opertunities.

expect that when the road down the north bank of the Columbia is completed this benevolent monopoly will put this rate in force, and if it does not then you will assist in the effort to persuade him of the reasonableness of the request.

"There is another question seriously affecting the interest of wheatgrowers. In the campaign of education Mr. Hill is conducting he points out how damaging in effect to the lumber interests a distance tariff would be, how it would cut them off from the markets of the Mississippi valley, and the argument is not without force; but there is another side to the picture. A distance tariff, if put in force, would preserve to the Pacific coast farms the markets of the orient, to which, by every geographical consideration, they are entitled. A year or two ago Mr. Hill was making a rate of \$8.25 on flour from Minnesota wheatfields to Askatic ports, and a rate of \$8 from Spekane. This may be broadgauge railroading, but it does not appeal to the farmers of the inland empire as

GERMANS PLOT TO INSTALL NEW TURKISH SULTAN

Would Violate Law of Succession by Placing Prince Burhan Eddine on Throne.

New York, Oct. 20.—A special to the Times from Paris says: "According to private information there is a project at Yildes Klosk to make the favorite son of the sultan, Prince Burhan Ed-dine, his immediate successor."

This will constitute a violation of the

law of succession hitherto observed in Turkey, by depriving of their rights to the throne the legitimate heir, Prince Rechad, the sultan's brother, and Prince Yussuf Izzeddine, the next heir in the line of succession. People are said to be indignant at the mere idea of an inbe indignant at the mere idea of an in-fringement of the ancient national tra-dition, and the indignation is not dimin-ished by the conviction that Germany has encouraged the project. Prince Bur-han Eddine has been brought up by Ger-man tutors, and is imbued with German ideas.

HEAVY SNOW FALLS IN DAKOTA AND MINNESOTA

(Josmal Special Service.)
St. Paul, Minn., Oct. 20.—Six inches of snow fell at Luverne, Minnesota, yesterday, the heaviest ever known at this season of the year.

At Mitchell, South Dakota, when the snow storm ended last night, two and one half inches covered the ground. At Pierre, South Dakota, about four inches of snow fell.

At St. Paul a snow followed the dristing rain of yesterday, lasting until early this morning.
