KAUFFMAN READY FOR O'BRIEN

One-Round Al Will Have His Hands Full Next Friday Evening in San Francisco.

PHILADELPHIA BOXER IS IN FINE FETTLE

Eastern Fighter Will Enter Ring as a Nine to Ten Favorite, Yet Many Native Sons Are Putting a Few Bones on the Former Club Man.

(Journal Special Service.)

San Francisco, Oct. 24.—Judging from the amount of discussion and the general interest taken in the coming fight between Philadelphia Jack O'Brien and Al Kauffman, Woodward's pavilion should be crowded to its utmost capacity next Friday evening when the two big fellows clash before the San Francisco Athletic club. Betting on the fight has not opened as yet, but on account of his long ring experience O'Brien will probably be a 9 to 10 favorite over his famous "one-round" adversary. The club management is already in receipt of many requests for seats from out-of-town fight fans, and barring accidents to either of the principals the match bids fair to be well attended.

Kauffman was in a particularly talkative mood while resting after a hard day's work yesterday. "If there is one man in the world I know I can beat, that fellow is Marvin Hart. If they call him the champion for beating Root, then it won't be long before I can claim the title. Hart looks like a push-over for me, and wouldn't last as long as Jack Munroe before Jeff. By the way, I'd like to get a chance with the real retired champ. He's the boy I want to fight in the long run. I might be counting my chickens, and all that, but with all his experience, I don't see how O'Brien is going to win from me. Have a bet that he don't last the limit." Kauffman wants to get to the top, and is simply bubbling over with confidence in his own ability to do the trick.

As usual, Jack O'Brien gave his little exhibition before a crowd that packed the gymnasium. Nobody was knocked out yesterday, but he was just rough enough with Sparring Partner Gorman to make things lively. No amount of work seems to impair his breathing apparatus, and his condition needs but a few finishing touches to be perfect.

Both O'Brien and Kauffman are well satisfied with the club's selection of a referee.

Yesterday Kauffman boxed six rounds with big Joe Kennedy and six rounds with Willie Fitzgerald just to test his staying qualities. He also put on the gloves with a big railroad man, and Al knocked him out in the second round.

FRATERNITY RIVALRY STIRS WASHINGTON

(Special Dispatch to The Journal.)

University of Washington, Seattle, Oct. 24.—As a result of a fraternity row on the football team of the University of Washington, three veteran star players and one promising freshman player have withdrawn from the team. Homer Tilley, Roy Shaw (last year's halfbacks), Babe Christy and Poil Crim turned in their suits yesterday with the explanation that Coach Cutts was favoring the Phi Gamma Delta fraternity members on the team.

Shaw and Tilley allege that every night they have been subjected to sharp rebukes by the coach, while favored members have escaped with slight censure. Winsor in the game with the Chemawa Indians made seven fumbles between center and quarter, for which he and the coach blamed the center, but which the withdrawing players say was solely the fault of Winsor in the way he received the pass. Winsor is a fraternity brother of Captain McDonald's and the opposing members of the team claim he is only allowed to play through the favoritism of the coach and his pull with McDonald.

Christy has been playing end and was quarter on the team of the Seattle Athletic club last year. The game with the University of Idaho next Saturday may have to be canceled as the team is without any halfbacks and lacking one end. Crim's position can be filled by a second team man.

Cutts lined up the mutinous squad last evening and told any man to step out that wanted to leave the squad and every man held his position.

The sympathy of the students is largely with the striking members as the Phi Gamma Delta fraternity has long held sway over athletics at the university.

Goodman and Corbett.

(Journal Special Service.)

Boston, Oct. 24.—After many unsuccessful attempts a match has finally been consummated between Young Corbett and Kid Goodman, the 130-pound fighter of New England. They were matched by Ben Benton, the fight promoter of Boston, to try conclusions in a 15-round bout before the Douglas A. C., Chelsea, Massachusetts, on the night of October 31. This is the second bout which Corbett has on his hands for this month, which shows that he intends to engage in many contests this winter. Corbett will fight Young Erne first in a six-round bout at Philadelphia, and then proceed to Boston, where he will fight Goodman.

WHAT IS THERE IN IT?

Scott's Emulsion is a careful blend of the purest cod liver oil, hypophosphites of lime and soda, glycerine and a dash of flavoring. The combination of these valuable ingredients emulsified as in Scott's Emulsion represents the greatest remedy yet discovered for weak lungs, poor blood, low vitality, child weakness and all wasting diseases.

SCOTT & BOWNE, 409 Pearl Street, New York.

CORVALLIS TO LEAVE FOR SUNNY SOUTH

Oregon Agrics Start Tomorrow for California to Meet Berkeley on Saturday.

(Special Dispatch to The Journal.)

Corvallis, Oct. 24.—The O. A. C. football men are to leave Wednesday evening for Berkeley to play the University of California team Saturday. Their headquarters will be at Oakland, where they should arrive Friday morning. They expect to leave for the homeward trip Sunday evening. The injury to Lawrence on Sunday by the accidental discharge of a revolver will keep him out of the game. The wound is three inches above the ankle and in the rear of the limb, through which the bullet passed, but no bones or ligaments are involved, and there is no fever, so that there is promise of a speedy recovery. Lawrence is a powerful tackle, tipping 183 pounds, and a player of great dash, boldness and experience. Griffith, who plays left end with Emily, goes to left tackle in the place of Lawrence, and Emily will be left in full charge of the position he has shared with Griffith. The loss in strength is perhaps measurable by the difference in weight of Emily and Lawrence, perhaps 27 pounds, something of a handicap because Lawrence's avordupois is nearly always at the head of the interference.

The lineup of the team will be: Left end, Emily; left tackle, Griffith; left guard, Dunlap; center, Walker; right guard, Bundy; right tackle, Dolan; right end, Cooper; right half, Captain Root; left half, Williams; quarter, Rinehart; fullback, Abraham. The substitutes to be taken will supply material for two substitutions for any given position in case of emergency. The men to go as reserves are McKinnon, Porterfield, Little and Cherry.

SAYS PRESIDENT ELIOT IS A PROFESSIONAL

Cambridge, Mass., Oct. 24.—According to Professor Edwin H. Hall of Harvard, President Eliot of that university is a professional athlete under the intercollegiate rules now in force. Professor Hall says that when an undergraduate, President Eliot was a star oarsman on a crew which rowed for a money prize and won it, the supposition being that the money was divided among the members of the winning crew.

This bars President Eliot, under the rules, from participating, should he wish to do so, in any intercollegiate contest. Said Professor Hall:

"A professional who receives money for his athletic prowess should not be a member of any team which may fairly represent the athletic ability of the student in a school or college. University faculties sound the cymbals loudly as in a Salvation Army walk around for undefiled college sport. But let the test come and watch them scatter to cover. They say they want reform. They lie. If they really wanted it they would have it.

"No special student should take part in intercollegiate contests. No holder of a degree should represent the school without at least one year's residence. I would rather have my boy play in summer baseball than be a waiter at a summer hotel. If the present rules were set aside there would be vastly less scandal and lying than there is now."

RACING GOSSIP.

Hamburg will undoubtedly close the season at the head of the winning sires. He has more than $150,000 to his credit. Melton, the sire of Sysonby, comes next. With Meddler the only other of the sires with three figures to the credit of his progeny. Other winning sires whose sons and daughters have annexed $50,000 or more are these: Sir Dixon, Hastings, Ben Strome, Water Cress, Star Ruby, Ben Brush, Kingston, Lamplighter and Octagon.

* *

E. R. Thomas and Sidney Paget have joined forces in the racing game and propose next season to have one of the finest strings of horses in training which money and skill combined can get together.

* *

The first special horse train for Los Angeles, consisting of five cars and a Pullman coach attached, will leave Jamaica on November 2. Of the five horse cars James Blute has two and W. T. Anderson, Joe Weber and M. H. Tichenor one each. The train will go from here to Chicago and then follow in the wake of the California express over the Santa Fe, running on regular passenger time. The Pullman car is the first one that has ever gone through in a service of this kind and will prove a great convenience for the owners and trainers that have horses on the train.

A special horse train will leave Aqueduct for New Orleans on the day following the close of racing in New York state. The train will consist of seven horse cars and one Pullman for the owners and trainers and their families.

* *

The New California Jockey club will begin its 150 days of winter racing on Saturday, November 11. Good accommodations and facilities for horsemen are guaranteed by the splendid and modern race courses—Ingleside, Oaklawn and Tanforan. Owing to the very prosperous condition of racing in California, the association at San Francisco is able to materially increase its annual stake offerings over any preceding year. Including the fixtures for 2-year-olds, a total of 19 stakes, with an added money value of $47,000, is announced.

* *

There is much speculation as to what John A. Drake is going to do in the racing line next season. The talk has been caused by the fact that Mr. Gates has recently picked up a number of good horses and is on the lookout for more. Two reasons are advanced for this. One is that the western millionaire plunger is accumulating a first-class stable and intends to have a big string next year. Another is that he has bought three horses simply so that he may put them into soft places, scorch the ring and get back the money he lost earlier in the season. Whatever his intention may be, Mr. Drake is like Brer Fox, "he lay low and say nothin'." It may be said in passing, however, that if the latter hypothesis is true he has accomplished his purpose, for he has put a crimp in many a bookie's bank roll in the last few weeks.

Lewis and Walcott.

Detroit, Mich., Oct. 24.—Willie Lewis, the welterweight fighter, evidently does not fear Joe Walcott's blows, for he has signed articles to fight the colored cyclone for 15 rounds before the Michigan Athletic club of Detroit, Michigan, on October 28, for a guaranteed purse of $2,000. They will box at 142 pounds, weigh in at the ringside. It certainly looks as if Lewis was making a mistake in fighting Walcott, for if the latter gets into shape Lewis will have to fight as he never fought before in order to beat him.

SPORTING GOSSIP FOR ROOTERS

Baseball Has Been Transferred to California for the Balance of This Season.

MULTNOMAH'S CHANCES ON THE GRIDIRON

Saturday's Game With Fort Stevens Was Not of the Variety That Pleases — Play Was Ragged at Times.

The scene of Pacific Coast league baseball activity is now in California and will remain there until December 3, when the second half of the 1905 season will close. This afternoon the week's series will begin at San Francisco, Oakland and Los Angeles; the Seals engaging Portland, the Commuters tackling the Tigers and the Angels going after the Siwashes.

So far the race has been a rather close one, but during the past week Los Angeles passed Oakland, taking first position, and widening the distance somewhat between first and last positions. The work of Los Angeles has been very good during this half of the season, though suffering several hard jolts at the beginning. Oakland has not kept up the splendid winning streak of a month ago, losing games with regularity. San Francisco is tied for third place and stands a very good chance for higher honors, as the pitching staff is coming around into winning form again. Portland is tied with the Seals for third place, but no one this side of heaven can tell or even guess what these Giants will do under McCredie's erratic and juvenile handling. The Giants are really a formidable aggregation, and can play good ball if they wish but they do not care to exercise themselves.

Seattle has had a hard luck trip in the south, but Russ Hall hopes to be able to land his men up a few pegs before the closing days come. Tacoma has taken a terrific slump, occupying last place. There is no reason why Tacoma should be in last place excepting that Mike Fisher wants it so. Mike doesn't want to win the second half, and he is doing splendidly toward accomplishing the occupation of the cellar. That is no idle jest either.

Football at Multnomah.

While the opening game of football on Saturday last at Multnomah field did not drive the followers of Multnomah into raptures of ecstasy over the showing the club eleven made, yet sufficient was shown to warrant the opinion that the club will once more be well represented on the gridiron, and that the local devotees will have no cause for heart failure for a long time to come.

One cannot judge of the merits of a team so early in the season, for the reason that the boys have not been accustomed to playing together, and the natural tendency of the younger men to be a trifle nervous in the initial scrimmages. The letting through of Hoover in Saturday's game, and poor punt of Breed and his failure to recover the ball were instances of nervousness and a lack of not knowing what to do on the spur of the moment. It seems a difficult task to make some players understand the prime importance of falling on the ball, whenever an occasion presents itself. It is really the first rule or order in football. Fall on the ball whenever you see it on the ground.

It is true that Multnomah will miss several of last year's heavy players, but Coach Overfield thinks that he can offset this loss by the substitution of younger and faster players. Parts of Saturday's game were very ragged, so much so that if Fort Stevens had had a real live captain things could have been made mighty interesting for the club. Breed at fullback, did not come up to expectations, but this was his first game here. James played good ball on defense, but was a trifle slow in getting under way on offensive playing. Eddie Dowling suffered a severe injury to his shoulder which will keep him out of the game for the balance of the season. Captain Jordan has called a practice for this evening and Dave expects to put his men through a long and vigorous football entertainment. This year Corvallis, Oregon, and Willamette have the strongest teams in their history and they will certainly make Multnomah get up and do something. Corvallis has a powerful aggregation of veteran players, stronger than last year, and those who recall the game on Christmas last can readily appreciate what a tough proposition Multnomah had to win that match, 11 to 10. It was a difficult task to beat Willamette last year 6 to 0, and this year it will be just as hard. Multnomah must be up and doing if she wants to win the honors this year.

DOUBTFUL RUMORS

And Still Scores of Portland People Accept Them as Facts.

The published statement of some stranger, residing in a faraway place, may be true enough; but it is generally accepted as a doubtful rumor. How can it be verified? The testimony which follows is convincing proof, because it comes from a resident of Portland:

T. W. Shangland, who is a streetcar conductor on the Woodstock streetcar line, residing at 710 Elsworth street, says: "Some time last fall I began having considerable trouble and annoyance from a dull, aching pain in the back over the kidneys. I think it was caused from the constant shaking and jarring of the car. I thought at first it would disappear as quickly as it came, but this was not the case. Learning of Doan's Kidney Pills, I procured a box and took them according to directions. The result was entirely satisfactory. The backache grew less and less and soon disappeared, and as far as I can tell it has gone for good, for there have been no symptoms of a recurrence."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

EX-CHAMPION DISCUSSES NELSON AND BRITT

(Journal Special Service.)

Detroit, Mich., Oct. 24.—Harry Gilmore, the ex-champion lightweight, takes exceptions to the statements of some well known fighters that Battling Nelson would be foolish to try to gain in cleverness. These critics claim that the Dane's natural slam-bang style of fighting just suits him, and that any attempt to improve on it by the addition of clever tricks would be harmful rather than beneficial.

"The argument is that Britt, as an amateur, was a knocker-out and continued so even into the professional ranks until he acquired cleverness," says Gilmore. "It is true that Britt disposed of his opponents in the amateur ranks easily and had little trouble in scoring knockouts over Hegarty, Lavigne and Frank Erne. Could he not repeat this same performance right now? Since the Erne battle Britt has been compelled to face more formidable foes. With such men as Fitzgerald, O'Keefe, Canole, Corbett and Nelson, the all-fought-out Lavigne and Erne could not be compared. Jimmy Britt, in my opinion, has as good a punch as he ever had, and with his much reputed cleverness should know how to use it; but, as I have previously said, he is facing harder and tougher men today than opposed him in his knockout battles. While strength and ruggedness are among the essentials of the successful fighter of today, it is ridiculous to say that it would be useless for a fighter of the slam-bang, mixing order, such as Nelson, to attempt to become clever. Both cleverness and aggressiveness can be used together, and there is no reason why one should crowd out the other."

Managers Appointed at Whitman.

(Special Dispatch to The Journal.)

Whitman College, Walla Walla, Wash., Oct. 24.—The executive committee of the Student association has just met and appointed the managers of athletics for the year. Ridgway M. Gillis has already been chosen football manager, but others were chosen as follows: Baseball, Alfred R. Gardiner, member of the freshman class and honor graduate of the academy last year; track, Harold Ellis, of the junior class, who was track manager last year, and so comes to his work this year with the benefit of a season's experience; and basketball, Radford Rigsby, of the sophomore class. All the managers of the various student activities for the year, with the exception of manager of debate and oratory, have now been appointed and will begin at once to plan for the success of their respective departments this year.

Manion to Box Herrera.

(Journal Special Service.)

Los Angeles, Cal., Oct. 24. — Eddie Manion arrived here yesterday and this morning began training at Santa Monica for his fight with Aurelio Herrera on November 3. Eddie was accompanied by Spider Kelly, Dan Manion and Frank McDonald.

SAYS COLLEGE GIRLS ARE BEST MOTHERS

(Journal Special Service.)

New York, Oct. 24.—An instructor at Vassar college has a collection of photographs, the babies of young women who are college graduates. The babies in this collection are strong and beautiful. They number 300. The instructor said:

"I began to collect pictures of the children of the female A. B.s and A. M.s because I heard so much talk about the higher education unfitting woman for their natural sphere. My collection proves that the higher education makes mothers of an excellence hitherto unknown.

"Highly educated women do not weaken themselves with tight corsets, dancing and card playing. They are athletic and strong. Their bodies as well as their minds are developed.

"They enter upon the duties of motherhood with unique courage, wisdom and strength, and the result is that their babies are the biggest, strongest and handsomest."

George Meredith Breaks Leg.

(Journal Special Service.)

London, Oct. 24.—While leaving his residence George Meredith, the novelist, fell and broke one of the bones of his left leg. His advanced age causes fears that the injury may prove serious.

BAD ROADS CLOSE THE SMELTER

Takilma Plant, in Josephine County, Is Forced to Hibernate for the Winter.

IMPROVEMENTS BEING MADE FOR NEXT SEASON

Compressor for Heavy Development and Another Matting Furnace Is Expected to Be Installed by the Time That Work Resumes Again.

(Special Dispatch to The Journal.)

Grants Pass, Or., Oct. 24. — The Takilma smelter has closed for the winter on account of the condition of the roads. An air compressor is being installed and a second matting furnace is expected to be in place for next season's run.

Development work will be continued all winter at the Queen of Bronze, where the rich copper ore was uncovered some time ago.

Since the people of the district are made to feel that this important industry is compelled to suspend work because of bad roads, greater interest is aroused in the work of affording the smelter every possible convenience for steady work. Assurance is given that the smelter could have run for a considerable time yet, possibly all winter, if it was closely connected with the railway. The investigations made for installing a traction engine outfit on this road proved that this was impossible, for the bridges and culverts were too weak to sustain the weight. The county court alone can strengthen these sufficiently for the requirements of a traction outfit.

If a traction engine were used, and rough macadamizing were done along the route, the road would soon be in condition for the heaviest outfits, as these engines pack the way. But of greater importance to the district than work for traction outfits is encouragement to some of the railway enterprises which are taking shape. No doubt remains that railway work will commence into the Illinois basin some time next year and it is apparent that the people of this entire community will give it all possible encouragement.

BADGER'S MATE RICH.

Strike on Bull of the Woods Opens Second Ore Shoot That Has Promise.

(Special Dispatch to The Journal.)

Baker City, Or., Oct. 24.—The Bull of the Woods mine at Susanville, which is operated by the Badger company, is the scene of a new strike. Another ore shoot equal to that from which the company has taken shipping ore the last few months has been opened. The old shoot was stoped to a depth of 200 feet. The tunnel on the 200 level of the shaft, from which rich ore was mined, has been extended a distance of 500 feet further on the ledge, at which point another rich body of ore was opened which promises to be equally as extensive and rich as the previous ore shoot.

The Bull of the Woods mine is situated near the Badger, of which F. W. Bradley is managing engineer, and a short tramway connects it with the Badger mill. During the past summer the Bull of the Woods has produced enough shipping ore for a large number of teams and now that a second ore shoot has been opened the owners expect to double their output.

NEW MILL IS STRONG.

Merrill Grinder Handled Fifteen Tons of Talcose Ore in Twenty-Four Hours.

G. I. Merrill, the inventor of the new crushing mill which has been on exhibit at the fair during the summer, has manufactured one for a mine at Dixie, Idaho. Mr. Merrill recently completed an iron frame for the grinder and finds that he is able to control the vibration absolutely. With a wooden frame one of the troubles experienced was the excessive shaking of the mortar and entire mill, but a metal frame has made a great difference.

After erecting the new frame Mr. Merrill made a test run on a quantity of coarse rock with which he mixed much pipe clay to determine how the mill would handle this terror of the millman. The new plant put the stuff through at the pace of 15 tons a day, which was better than ever had been attained by the old plant with any kind of rock.

MINING NOTES.

Grants Pass, Or., Oct. 24.—Aleck Brown, the prospector who discovered the Preston Peak copper property, which he soon afterward sold to Dr. J. F. Reddy and associates, has made another strike of copper at Crown Peak, near the scene of his first discovery. He says that he has seven feet of vein, which is heavy with bronze ore, carrying a high percentage of copper sulphide.

Dr. David T. Day, in charge of the experimental work with coast black sands at the exposition, will depart today for Washington, where he is to remain 10 days conferring with his chief of the United States geological survey. He said today that he has been authorized to continue his experiments here until about the first of the year, after which he will go to Montana to look into the possibilities of the sands of the more remote interior. Much of the work to be done here from this time on will be in electric smelting of magnetite and further perfecting the concentration methods.

Baker City, Or., Oct. 24.—S. O. Trescott of Denver, who for years has been identified with the mining industry of Cripple Creek, is in Baker City, having just returned from looking over his mining property in this section. In company with several other men Mr Trescott owns the Gold Cliff mine, near Weatherby, and is intending to open the property soon. The mine was purchased last January and as soon as the new machinery arrives, which has already been ordered, active work will begin.

Baker City, Or., Oct. 24.—A complaint has been filed in the circuit court by William Gordon and William Abrahams against the Oregon King Mining company for the payment of three promissory notes amounting to $11,042.12, which are alleged to be past due. The plaintiffs have a mortgage on the mining property of the company, which is near Bourne, and it will be foreclosed if settlement is not made.

BREAKS HIS LEG— SUES ROCKEFELLER

(Journal Special Service.)

New York, Oct. 24.—Emanuel Kakakes, a Greek seaman from the Standard Oil bark Brilliant, has filed a suit against John D. Rockefeller for $20,000. For three months and 10 days Kakakes says he lay with a broken leg and without medical attendance on the ship. A man was washed overboard by the same sea that injured him.

According to Kakakes' affidavit to his lawyer, the captain and the mate, who both witnessed the accident and the drowning from the bridge, made no attempt at rescue. Kakakes was neglected, he says. He shows how his bones, which were never set, are out of place, and he has lost the free use of his leg for life. So indifferent was the captain, declares Kakakes, that the injured man had to call the ship's carpenter himself and beg for a pair of splints with which he bandaged his own limb.

John D. Rockefeller recently gave $50 to the American Seamen's Friend society.

ROGERS HAD TO WAIT WHILE LABORERS ATE

(Journal Special Service.)

Nowata, I. T., Oct. 24.—Henry H. Rogers and a party of Standard Oil magnates had a novel experience today, being compelled to wait for the third table for Sunday dinner at the employes' boarding-house. For 45 minutes Rogers walked up and down the front of the hotel, fuming and fussing, his hunger growing more poignant every minute. None of the laborers, all of whom were employed by the Standard Oil company, offered to relinquish in favor of the magnate.

Standard Oil men, 28 in number, started this morning for a 40-mile drive. A stop for dinner was made at Alluwe, 17 miles from this point. The only eating place is the Standard Oil boarding-house. The magnates had planned to eat together at one table, but the smell of fried chicken and pumpkin pie was too appetizing, and whenever an opportunity offered, they squeezed in between the laborers and sailed into the food with vigor.

The supply of chicken, however, was soon exhausted and the magnates had to be content with the canned corn.

Ah Sou Loses Again.

(Journal Special Service.)

Washington, Oct. 24.—Ah Sou, the Chinese slave woman who fled from a life of slavery in Portland and who was arrested and ordered deported, has been denied a writ of certoriari in the supreme court of the United States. The case is also before the supreme court on appeal.

For Baby's Bath.

To beautify the skin, cleanse the scalp, grow the hair, stop chafing, itching and irritation, to keep the delicate skin pure and sweet, especially little babies, there's nothing like

HARFINA SOAP

"A Breath of Pine Balsam in Every Cake."

Medicated, deodorising, fragrant. Multitudes of women say Harfina has no equal for every purpose of toilet, bath and nursery. Aided by Skinhealth Treatment, it destroys all humor germs, makes healthy scalp, rosy skin and beautiful hair. Large 25c. cakes, druggists'. Ask for Harfina Soap and Skinhealth Treatment, 75c., druggists'. A single trial will convince you of the unequaled merits of these marvelous preparations. Refuse substitutes. No soap is medicated like Harfina.

Manufactured by Philo Hay Specialties Co., Newark, N. J. Take nothing without this signature on outside dark blue wrapper: F. Hayes Co.
