The rules adopted require the company to furnish water during the irrigation season of 160 days in sufficient quantity to cover the land to a depth of one and eight tenths feet; but if this quantity should be found insufficient or excessive it may be changed by the company and the settler, or by the state engineer, subject to appeal to the United States reclamation service.

Having been for more than a quarter of a century the nearest collaborator with my grandfather, my father and myself in the administration of the Orthodox church, you have acquired my esteem by your extraordinary capability and devotion to the throne. In divesting myself in your person of the services of a statesman whose seal and firm conviction you have acquired, I predicted by me, I find it my sincere duty to express to you my profound gratitude for your devoted services.

RIOT IN FINLAND.

(Journal Special Service.) Helsinki, Finland, Nov. 1.—Cossacks today fired upon people wounded 21. A crowd had gathered and were discussing the calling of the diet and the restoration of liberty. The Cossacks declare they will not obey any order to fire upon the people. A national guard is being formed to maintain order. The diet has been called in extraordinary session by the governor-general to legislate for Finland. The announcement of the diet followed the proclamation of civil liberty in Russia and indicates the return to a constitutional regime in Finland and the abolition of the arbitrary conditions under which Finland has been governed since the accession as governor-general of Count Bobrikoff, who was assassinated in June, 1904. The members of the senate handed in their resignations at the demand of the constitutional party, which demands manhood suffrage and a diet of one chamber. The railroad strike has stopped all trains and the newspapers appear uncensored.

REWARD IS OFFERED FOR HALLOWEEN VANDALS

But for the fact that a new machine is being installed the city would be in darkness for the week. The act has caused much indignation among citizens generally and President H. F. Davidson of the company has offered a reward of \$500 for the arrest of the perpetrators.
