The Breach is Widened.

The breach between Hitchcock and Fulton was widened a few weeks ago when the former sent his private secretary, Scott Smith to Oregon to investigate the qualifications of G. B. Hegardt, whom the senator had recommended for receiver of the Roseburg land office: Smith carried back an adverse report and Hitchcock refused to consent to Hegardt's appointment. Roosevelt finally directed Hitchcock to give Senator Fulton a written statement of his objections, but though several weeks have since elapsed, this has not been done.

Hegardt is the third of fourth man whom Fullon has recommended for the Roseburg appointment, and all have

J. M. SCOTT MAY PUT \$300,000 INTO 14-STORY BUILDING

John M. Scott, a New York capitalist who receively spent several weeks in Portland, has decided to invest between \$200,000 and \$100,000 in this city. He has commissioned local brokers to purchase ground for an office building and a warshouse and will erect a 14-story skyscraper if suitable site and terms are offered.

Captain W. W. Goodfich, who designed a 14-story office huilding for him some years ago in New York, said:

"If Mr. Scott builds here he will put up a first-class structure. It will be steel frame and stonework, of the popular 'American' office building type and containing every modern improvement and convenience."

Mr. Scott is new in Honolulu. He came west to see the Lewis and Clark exposition and the Pacific coast country, without any thought of making investments. His visit in Portland, if the deal now pending materializes.
