Gail Laughlin, Noted Lawyer—Orator of New York, to Address Association.

The annual meeting of the Oregon Equal Suffrage association will open at the White Temple at 10 a. m. next Wednesday. The morning session will be given to the discussion of the plan of campaign and an address by the national organizer, Miss Laura Greeg of Omaha.

The election of officers will be held in the afternoon at 2 o'clock and will be followed by an address by Miss Laura Greeg of Kentucky, national auditor and president of the Kentucky Equal Suffrage association. At the evening session Mayor Lane

and Miss Gail Laughlin of New York the lawyer-orator whose articles in reply to Grover Cleveland on woman suffrage appeared recently in The Journal, will be the speakers.

Miss Laughlin is a young woman, but she has had wide experience. Graduating from the Portland (Maine) high school at the head of her class, she entered Wellesley college, founded the "Agora," now an influential society in the college with a clubhouse of its own, and was its president until the end of her college course. She was graduated in 1894 and then entered the law school of Cornell university and was elected president of the Dramatic club and speaker of the Cornell congress. In 1897 she was chosen to represent the congress in the annual inter-collegiate debate and won for it the championship. In 1898, in a series of debating contests open to all the 2,000 students, the vast majority being men, she defeated all her opponents. As a result of these triumphs she was selected leader of the Cornell team to debate with the University of Pennsylvania and her eloquence gained the victory for Cornell.

Soon after her graduation from Cornell she was appointed expert agent of the United States industrial commission to investigate conditions of domestic service in the United States. Everybody is cordially invited to attend all the sessions of the convention

and the sessions of the convention. She is a member of the American Bar Association, the National Women's Suffrage Association, the National Association of Women Jurists, the National Association of Women Lawyers, the National Association of Women Judges, the National Association of Women Attorneys, the National Association of Women Legislators, the National Association of Women Judges, the National Association of Women Attorneys, the National Association of Women Legislators.

St. Johns Council Will Tomorrow Pass Finally on Proposed Board of Works.

WATER PLANT QUESTION HANGS IN THE BALANCE

Present Holders of Franchise Not Certain That City System Will Not Be Installed, But Aldermen Are Not So Sure.

The seat side office of The Journal is in the store of J. M. Miller, 260 East Morrison street. Telephone 333.

The fate of the St. Johns board of public works and the proposed municipal water system is all likelihood will be settled tomorrow night and unless present indications are misleading the session of the town council will be in the nature of a mass meeting. Although stoutly opposed in some quarters, it is likely that the ordinance creating the board will pass by a two-thirds vote of the council, perhaps with some slight changes.

As to the creation of a board of public works there is practically no difference of opinion in St. Johns. The councilmen so far as interviewed have not opposed the plan, the city attorney has advised that it is legal and desirable, and those objecting to the ordinance do not base their complaint on the ground that such a board is not desirable but say that the ordinance in its present form gives too much power to minority of the council and allows the board too much latitude.

The attitude of the firm holding the present water franchise, was explained by Mr. Thompson of the firm, Hartman, Thompson & Powers, as follows: "We do not anticipate trouble and do not believe the council will permit another franchise to be granted or another plant to be built, inasmuch as we have an exclusive franchise for 15 years and easily could enjoy any other company from proceeding, even if it had a franchise from the council. We have invested more than \$100,000 in the plant, in an endeavor to keep up with the growth of the town and at present are giving satisfactory service. No court on earth would allow us to be thrown aside without a hearing.

There is a charter provision to the effect that the council before planning to buy or buy a municipal system must ask for an offer on the present plant so that the town may have the benefit of the bargain and we have always stood ready to sell the plant in St. Johns for what it cost."

Points of Information Right to the Point WE CALL YOUR SPECIAL ATTENTION TO OUR

NOBODY IS EXEMPT.

A New Preparation Which Every One Will Need Sooner or Later. Almost everybody's digestion is disordered more or less, and the commonest thing they do for it is to take some of the many so-called 'cathartics', which in many cases, are merely strong cathartics. Such things are not needed. If the system is in a normal condition, they only do a little harm and they will irritate the sensitive linings of the stomach and bowels and often do more harm than good.

BOATS WILL NOT STOP.

St. Johns Public Dock Proves of No Advantage and Town Is Angry. St. Johns has a public dock, erected by the town at considerable expense, but the dream of the citizens has not come true, and there is more than a little ground for complaint.

O. R. & N. FILES EQUITY SUIT AT PENDLETON

(Special Dispatch to The Journal.) Pendleton, Or., Nov. 4.—The Oregon Railroad & Navigation company has filed a suit in equity in the district court of this district for the purpose of showing that the assessment of \$12,000 a mile upon their roadbed is unjust. Ever since the compromise proposition presented the county court for driving in front of the railroad was turned down suit has been expected.

LIQUOR STILL SOLD.

Montavilla Women Wonder Why Tip-stiness is Common There. Montavilla saloons have closed and now the women of the district are trying to figure out why the town has become so tip-sty.

Mount Hood Matters Settled Out of Court

(Special Dispatch to The Journal.) Hood River, Or., Nov. 4.—Right of way matters for the Mount Hood railroad have been straightened up out of court. Contractors Gleibich and Joplin have a force of men driving piles around Winans Point and rail laying will begin about December 1.

Your Health Depends on Your Kidneys

Every Reader Should Test the Wonderful Merits of this New Discovery. IRVING'S BUCHU WAFERS. If you wish to be rich in health, you should be careful of your KIDNEYS as a good financier is of his capital.

AMERICAN NERVE

A WITTY Frenchman said that Americans had plenty of nerve but no nerves. He meant that we are a tremendously busy people as a consequence of nerve and a mighty fidgety people as a result of nervousness. Nervousness means lack of self-control.
