

EUGENE WOODMEN TO ENLARGE CONSUL BOARD

The Woodmen of the World of Eugene, Oregon, will entertain Head Consul I. I. Boak tomorrow evening. The committee in charge has been hard at work to make this the largest fraternal meeting in the history of Lane county. All the nearby camps will be represented. An open meeting will be held at the Christian church, where Head Consul Boak will deliver an address. Afterward there will be a meeting for Woodmen at which refreshments will be served.

Head Consul Boak, in a recent address, spoke of the graft of the McCurdy and McCallis, showing that these men were at the head of the greatest gambling, speculating and grafting corporations of the world, caring only

for themselves, regardless of the trust that the policy-holders have put in them in handling their money. Head Consul Boak said what this country wanted was more men like Roosevelt, Jerome and Felt, and when the time came that the people of the country united and elected this class of men to fill the higher offices of our government there would be no such thing as graft and the men who were placed in a position of confidence would do their duty.

Head Consul Boak will meet the Woodmen at Myrtle Creek November 14, at Ashland November 16, and Grants Pass November 18, where the committees have arranged for his reception, after which he will visit the California camps.

CANNOT GET BEST IMPROVEMENT

Two-Mill Tax Levy Not Available for Fill on Sullivan's Gulch.

STEEL BRIDGE IS ONLY RELIEF NOW POSSIBLE

General Sentiment Favors a Fill but There is No Way to Secure One, Though Its Cost Would Not Equal That of Bridge.

Because of the 2-mill general assessment, it is probable that the east side will have instead of extensive fills that would endure for all time, steel and wooden bridges which will be replaced every generation or so to the financial loss of the entire city. Those who are leading the campaign for the East Side Improvement association, in making for the opening of Grand avenue across Sullivan's gulch, do not favor the construction of a bridge across the chasm, but at the same time they have become convinced that the bridge is all that can be secured under the present law. "It is unfortunate that the 2-mill general levy cannot be used for fills," said Joseph Buchtel, vice-president of the association, yesterday afternoon, "for that is the sort of an improvement the east side wants. That ravine is the gap that is dividing the entire district and only when we have a filled street across it on Grand avenue will the east side be united as it should be. The importance of bridging the gulch and of doing so at once cannot be overestimated, and if the fill cannot be secured, I suppose we must work for a steel bridge, one or the other we want soon."

PUSH CLUB MEETING.

Mt. Tabor Association Will Lay Plans for Year's Work Tomorrow Night.

The Mt. Tabor improvement club will hold its November meeting at the new Woodmen of the World hall on West Avenue tomorrow evening. The club will meet in the new hall for the first time and its initial session will be in the nature of a social gathering at which an effort will be made to arouse greater interest in the work of the organization among the residents of the place. There are several problems confronting the club. The incorporation of the Mt. Tabor district into the city district will be one of the things the club will work for and the necessary data will be so arranged that at the annual taxpayers' meeting in December the district voters may learn just what they will gain by annexation. The sanitary problems that confront the district will be considered also. The club is endeavoring to secure from the city adequate water and sewer service and has a petition in for fire protection. These things will be due the annexed portion of Mt. Tabor when the new city tax levy is collected early next year and the club expects to perfect its campaign so that it can go before the council and secure some of the things most needed.

OPEN SECOND STREET.

Private Obstruction of Thoroughfare Opposed by Business Men.

Now that the Harriman management has promised the immediate opening of a general east side passenger depot at East Second and Washington streets, the work of the business men of the district is being centered on the fill project that is to make East Second street passible from East Morrison street to the Burnside bridge. Private corporations with mills, warehouses, docks and refuse heaps have taken up public right of ways in the district until

WILL NUMBER HOUSES.

St. Johns Assumes Metropolitan Air and Adopts Eastern System.

The St. Johns council at its last meeting devoted a good part of the session to streets and discovered, among other things, that there were two Cain streets in the town. In a patriotic vein the body decided that one should be named Dewey. The council decided also that the municipality had arrived at a stage of progress that made house numbers a necessity and householders will be ordered to tag their front doors, an ordinance being in the course of preparation to this end. The town will adopt the eastern system. Each block will have one hundred numbers, it being believed that this system is better than the one in use in Portland.

Nolan, attorney and a former resident of Tillamook, indicted by the federal grand jury with others from this county, for conspiracy in defrauding the government of public land, has been arrested at Florence, Arizona, by the federal authorities.

Indigestion

Stomach trouble is not really a sickness, but a symptom. It is a symptom that a certain set of nerves is sick. Not the voluntary nerves that enable you to walk and talk and act—but the AUTOMATIC STOMACH NERVES over which your mind has no control. I have not room here to explain how these nerves control and operate the stomach. How worry breaks them down and causes indigestion. How misuse wears them out and how they may be re-established and made stronger by a remedy I spent years in perfecting—now known by physicians and druggists everywhere as Dr. Shoop's Restorative (Tablets or Liquid). I have not room to explain how this remedy, by removing the cause, usually puts a certain and to indigestion, belching, heartburn, insomnia, nervousness, depression. All of these things are fully explained in the book I will send you free when you write. Do not fail to send for the book. It tells how the solar plasma reverses indigestion and a hundred other things everyone ought to know—for all of us, at some time or other have indigestion. With the book I send free my "Health Token"—an intended passport to good health.

WAS ASSISTANT TO FEE

From the old Manitoba road he went to the Northern Pacific as assistant to General Passenger Agent C. S. Fee. T. F. Oakes was at the time president of the latter road. His attention had previously been drawn to Mr. Davis, and having an important and very delicate mission to be executed he selected Davis for this office. After this he became Mr. Oakes' confidential man, and never previously been drawn to Mr. Davis, and having an important and very delicate mission to be executed he selected Davis for this office.

HELPER DRIVES GOLDEN SPIKE

It will be remembered that the driving of the "golden spike" of the Northern Pacific was a gala week and one of the greatest in the history of the road. Visitors were invited from this country and abroad and hundreds of thousands of dollars were spent for their entertainment. Special trains were run from both St. Paul and Tacoma, meeting at the junction point of the two ends of the road. Prominent among the invited guests were a number of German bankers who had, through President Villard's influence, been induced to purchase heavily of Northern Pacific stock. Among those selected to entertain the German guests was H. C. Davis. This gave him an acquaintance which has since been the means of making him an independently rich man.
