

DROUGHER LAUDS OLD MAIDS

Better Be an Old Maid Than Wed a Rake, Says Preacher.

SHOULD NOT MARRY MAN WHOSE HABITS ARE BAD

Preacher Declares That Wife Cannot Reform Husband, That Money Is Not an Essential to Wedded Happiness—Husbands Turned Away.

At the White Temple last evening, Dr. J. Whiteomb Brounger, in a sermon on "How to be Happy, Though Married," spoke to an audience that filled the church. The crowd began to come an hour before time for service to begin. Every seat was taken at 7 o'clock, and probably a thousand people were unable to gain entrance. In part Dr. Brounger said: "If a woman exercises her royal right in a judicious manner, she can have a great deal to say concerning the man that wants to be her husband. In this case, man proposes but the woman disposes. There are certain principles that should guide a young woman in the choice of a husband. "First, do not choose a man simply to escape going through life alone. A little girl said to her mother, 'I will have a man like papa.' "The mother replied, 'Yes, dear, I suppose so.' "And if I don't get married, will I be an old maid like auntie?" "I expect so, my dear. Why do you ask?" "Oh, I was just thinking what a tough time we women have."

SAYS CHURCH CAN PROVE ITS CONTINUITY

Father O'Hara Explains Tenets of Church in Sermon to Non-Catholics.

"The Church of Christ in the world today should be able to establish its historical continuity with the church built upon the foundation of the apostles," said Father O'Hara in a sermon to non-Catholics at the cathedral last evening. "To admit that such continuity is lacking is to imply that the promise of Christ to be with his church forever was vain. The church founded by Christ must be able to trace its history back in unbroken continuity from the present day to the day on which Christ gave to the apostles the commission to 'teach all nations.' "Now, as the historian Macaulay tells us, the Catholic church alone of all Christian institutions carries the link back to that distant period. Her line of supremacy is not broken, as it is in unbroken succession from the present pope, Pius X, back through the ages—through Pope Pius I in the second century to the time of Peter, to whom Christ said: 'Thou art Peter (rock) and upon this rock I will build my church.' "It has been the habit with many to regard the 12 centuries following upon the light of Christianity had become extinct. Nevertheless, those were the ages in which the foundations of all that is best in modern civilization were being laid. "The darkness of those times," says Emerson, "arises from our own want of information. Human thought was never more active and never produced greater results in any period of the world." It was a period when the Catholic church was fighting single-handed for the cause of civilization and Christianity. "Father O'Hara spoke of the common charge that the Catholic church is rigid and unyielding in doctrine. "So far from being an objection," he declared, "this is a fact to which the church wishes to direct attention. It is a mere matter of discipline she accommodates herself wonderfully to circumstances. But in transmitting the truths revealed by Christ, the church of the apostles must be unyielding if she would fulfill her mission."

CARRIER FORCE IS TOO SMALL

Six Hundred Fifty-Eight New Homes This Year in Albina District.

POSTMEN HAVE TO WALK MORE THAN TEN MILES

Postmaster Minto Is Making Strenuous Efforts to Secure Two Additional Carriers for Albina, and Wants One More for Sunnyside.

The east side office of The Journal is in the store of J. M. C. Miller, 300 East Morrison street. Telephone East 274. The postal service of the east side is to be made much better if the requests of Postmaster John Minto are honored. He is doing his best to impress upon the minds of the authorities at Washington that the people living in the northeastern part of Albina and the northern section of Irvington are in need of better delivery service, and that the carriers now working there have too much territory to cover. Station B, Albina's sub-postoffice, now has 12 carriers working from it, but Mr. Minto is urging the department to allow two more. He says that since January 1, 655 houses have been erected and are now occupied in the territory covered by the carriers from the Albina station and that in this same district 147 houses are being constructed. At the beginning of the year, the carriers had just about all they could attend to and now that there are more than 2,000 additional people to be supplied with mail the work of the postman has reached a serious stage. "The people in that part of the city are somewhat to blame because there is not more carriers," said Mr. Minto this morning. "In that there are many stretches of territory where there are no sidewalks, the houses are not numbered and there are no grades. These things do not look good to the inspectors sent out here by the department at Washington to look over the ground and report on the requests made for additional carriers. "It is said that the Station B carriers now have to walk more than 10 miles a day, climb many thousands of steps and carry out of the office an average of 2 1/2 pounds of mail. After the two additional carriers have been allowed for B station, Mr. Minto will telegraph at once a request to Washington for one more postman at Bellwood. It is said that an additional carrier is almost as badly needed there as at Albina. During the past few months scores of new houses have been erected and are now occupied along the lines of the Oregon Water Power & Railway company—houses more or less in course of construction, and each new house requires an additional piece of mail matter to be left daily. An improvement is to be made also at Station C, the Sunnyside sub-station, located at 599 Belmont street. At the present time, this is a corner station, but within a short time it is to be made into a government sub-office and a civil service man placed in charge. The office will remain in the same place, the building having been leased by the government for five years.

GOING, GOING, THEY'LL SOON BE GONE

CLOSING-OUT SALE OF EXPOSITION INSTRUMENTS NEAR END AT EILERS.

The Aftermath of the Fair—Music Lovers Taking Advantage of the Greatest Bargains Ever Offered in the Piano Trade—Bona Fide Reductions of From 30 to 60 Per Cent—Only a Few Choice Ones Left That Should Sell on Sight—Specially Easy Terms.

Yet there are hundreds of families who really need a piano, and who have not heretofore had their means permit the possession of a really good one. A cheap or poorly made instrument, such as is frequently offered at "bargain" prices, they would never care to own. It is to these people that we desire to direct our remarks just at this time. We put you in position now to secure a really fine piano or organ at a saving of from 30 to 60 per cent from the lowest cash price obtainable on same grade and quality of piano ordinarily, and besides we make arrangements for you to pay for an instrument at this reduced price at virtually your own convenience. Come in and ascertain how really easily you can own one, and incidentally look at the greatest display of the pianos and organs ever shown. Bear in mind that a few dollars down and a little cash each month will solve the music problem once and for all. We'll let you select a piano now and store it free of charge for delivery as a Christmas present. You name the hour and the day, and one of our crack delivery teams will be there with the instrument at that time. Eilers Piano House, 351 Washington street, corner Park.

EXCURSION TRAIN RUN OVER SUMPTER RAILROAD

(Special Dispatch to The Journal.) Baker City, Or., Nov. 12.—An excursion train was run from Baker City to Austin Sunday over the Sumpter Valley road, which was well attended and much enjoyed, giving those attending a sight of the new road and the new town of Austin. The excursion was given under the direction of Superintendent Barton of the Sumpter Valley road. The public spirit and enterprise of David Eccles, president of the Sumpter Valley railroad, in pushing the line under the direction of Superintendent Barton of the Sumpter Valley road, a few months ago the work of grading the line from Tipton on to Austin, a distance of eight miles, was commenced, and now that this distance is completed it is only a matter of a short time when the road will be continued on to Grant county.

EIGHTEEN THOUSAND TONS OF SUGAR BEETS

(Special Dispatch to The Journal.) La Grande, Or., Nov. 12.—The digging of sugar beets in the Grand Ronde is nearly completed, and it is expected that the factory will close down for the season by the end of next week. Eighteen thousand tons is approximately the amount of beets that will be handled this year. This has been a successful season in beet culture, and arrangements are being made to raise the crop even more extensively in this section next season.

SMALLPOX IS OVER.

Leads and Laurelwood Are Free of the Dread Disease. Smallpox no longer threatens the various sections of the coast. The disease was feared for a short time that it would become epidemic. County Health Officer Dudley Evans this morning reported that the several patients that have been under quarantine have been discharged, the houses thoroughly fumigated and every one in the neighborhood of the infected houses vaccinated. The disease was confined to two districts, Laurelwood and Lent. In Laurelwood, smallpox was in the house of a mail-carrier and it was feared that others had been exposed, owing to the fact that those who were afflicted did not know the nature of their illness until they were forced to their beds. At Lent, three members of the Webb family were ill with smallpox, and numbers of their friends were infected before the nature of the disease was known. As soon as the matter was reported to the deputy health officer, he hastened to the quarantine station, where he vaccinated the school children who might have been exposed to the disease. A close watch was kept upon those who were known to have been exposed.

NEW W. C. T. U. CHAPTER.

Mrs. Deborah Livingstone Organizes One with Thirty-three Members. Mrs. Deborah Livingstone, state president for Rhode Island of the W. C. T. U., who has the distinction of being the youngest state president of the organization and is known as one of its most eloquent orators, spoke yesterday in the afternoon at the quarterly meeting of Friends in Sunnyside, and in the evening in the Methodist church in St. Johns. At Sunnyside, 12 women joined the local organization, and at St. Johns a new branch was started, with a membership of 33. Mrs. Livingstone spoke on "The Coming of the Kingdom." She declared that in the United States the annual drink bill amounts to \$1,400,000,000, while the total spent for temperance education was only \$1,000,000 a year. The total amount spent by all Christian churches in missionary efforts amounts was only \$13,000,000, said Mrs. Livingstone.

OLD CARMEN MISSED.

Irvington Motormen and Conductors Transferred to Eleventh Street Line. East riders who travel on the old Irvington cars are lamenting a change that recently was made in the transportation system on that line. All the conductors and motormen that have been operating the Irvington cars for years have been transferred to the west side, many of them now running on the Eleventh street line. The men took their cars with them, and cars that were formerly on the "I" run are now operated on the Irvington track. Conductor A. Pie had been on the Irvington run for 11 years.

BUILDING NEW HOMES.

Song of Hammer and Saw Is Heard Throughout Mount Tabor. In the extreme northern section of Mount Tabor, just north of the railway track, several dozen new homes are

AGAIN NO FERRY.

Lionel E. Webster, Hoodoo Boat, Once More Laid Up for Repairs. Framp, framp, framp, the boys are marching softly about a caretaker on Portland's new ferryboat, Lionel E. Webster, yesterday as he watched scores of people walk down to the ferry slip, note that the craft was not running and then start for the old ferry. The little steamer, which is in commission only a few months, something has gone wrong nearly every week, causing delays of from several hours to several days' duration. The county commissioners recently let a contract to the St. Johns Shipbuilding company for repairs to the vessel; at least three weeks will be required to complete the work after the repairing is begun.

NO FOG IN MOUNT TABOR.

County Clerk Fields Says Suburb Is as Warm as a June Morning. County Clerk Frank S. Fields says that Mount Tabor was as warm as a June morning when he arose from his breakfast table and began his journey to the courthouse today. When he reached Pretyman station the fog that hung over East Portland reached him—and then he was out. "Although I have noted during the past week that it was much warmer in Mount Tabor during the early mornings than it is down town, I never noticed such a marked difference as there was this morning," said Mr. Fields. "It was not one half as cold when I left Mount Tabor as it was when I reached Pretyman station. The fog that has been worrying Portlanders residing within a mile or two of the river do not bother us on the mountain."

EAST SIDE NOTES.

Rev. Gilman Parker of Alameda, California, has been called to become the regular pastor of the Montavilla Baptist church. Several years ago Mr. Parker

AT THE THEATRES.

"The First Violin." White Whittlessey and the Belasco stock company will give their first performance of the prime favorite, "The First Violin," this evening at the Belasco. The play was an artistic triumph when produced by Mr. Richard Mansfield some seasons ago, and its production here should prove one of the really great dramatic events of the year.

Minstrels at Marquam Tonight.

Richard and Pringle's famous Georgia minstrels will be the attraction at the Marquam Grand theatre tonight at 8:15. The comedy cycle, which has been with the theatre for 25 years, never changing management, and not once departing from their established mode of presenting only what is great, good and wholesome in the minstrel world. Clarence Powell, the comedian, who has made the whole world laugh, is still at the head of the list of artists, and will bring with him this season a big budget of good things that he has collected during the past summer.

"Ghosts" Tomorrow Night.

Harry Mestayer, supported by an excellent company of players, will present Henrik Ibsen's greatest drama, "Ghosts," at the Marquam Grand theatre tomorrow, Wednesday and Thursday nights. "Ghosts" is a dramatic setting of the biblical wisdom that the sins of the fathers are visited on the children. In Ibsen's hands it is a drama of terrific intensity.
